U. S. TROOPS WIN IN PISTOL BATTLE

ROUT BANDITS, KILLING MANY

Field Headquarters, near Namiquipa—by wireless to Columbus, N. M., May 6.—A full squadron of two hundred and thirty men of the Eleventh cavalry surprised and routed a much larger force of Villa bandits at Ojo Azules, 17 miles south of Cusuhirachic, early yesterday. Forty-two Mexicans were killed and a number wounded. There were no American casualties.

Washington, D. C., May 6.—General Pershing's report forwarded by General Fumston to the war department today says the latest attack on the Villa bandits was made by his small force after a night march of 36 miles. The text of General Pershing's report dated at San Antonio, in Mexico, follows.

"A band of 140 Villistas attacked a Carranza garrison yesterday at Ojo Azules, and remained there in camp last night. Leaders of the band were Cruz Dominguez, Guilo Acosta and Antonio Angeles. This morning they were struck by Major Howze with six troops, 11th cavalry and completely dispersed. Several prisoners, also 75 ponies and mules were taken. The cavalry also rode them down and killed many. The fight lasted two hours, the Mexicans being pursued as individuals into difficult mountains.

Five Carranzistas, condemned to be shot, were taken and released. We have no casualties. Howze left at 8:30 last night, marched 36 miles and reached Ojo Azules at daylight. Consider this a brilliant piece of work. Other cavalry detachments now in several districts."

Field Headquarters, near Namiquipa, via Radio to Columbus, N. M., May 6.—Further reports from Major Howze stated that General Antonio Angeles was killed. He was a relative of Felipe and Angeles, the former confidant of Villa, who was once mentioned for the presidency of Mexico and who is now living near El Paso.

El Paso, Texas, May 6.—General Scott and Panfili plan to hold another conference with General Alvero (Oregon) in the expectation that before it the suggestion of the United States government for co-operation of the Villa bands in Mexico will take the form of a duly signed protocol.

Attention Auto Owners

Commencing with today, The Times has introduced a new feature which should interest auto owners. It is giving a detailed route from Portsmouth to Atlantic City, furnished by George L. Guller. If you have a trip in view and have planned it out, send it to The Times. One will be published every Saturday. Today's story will be found on Page 16.

CROWN PRINCE HURLS FRESH FORCES INTO NEW VERDUN DRIVE

Paris, May 6.—Heavy fight—higher prominence known as Hill 304, resumed in the Verdun drive to the southwest towards the German front. The offensive west of the Meuse, which the Germans have brought up a war office admits that an unusual concentration of violent bombardment compelled the French to evacuate the hill. Instead of attacking the hill, the French have now directed their efforts to advance were checked by the fire of the French artillery.

TERRORIZES BANK; STABS AN OFFICER; SHOT AS HE ATTEMPTS TO ESCAPE

Columbus, O., May 6.—After causing a panic in the Ohio National Bank by flourishing a revolver and pointing it at Policeman Charles W. Smith, over the head of Emil Keisewetter, president of the bank, George Airey, 58, today stabbed Policeman Smith when taken to police headquarters and later was shot by the policeman when he attempted to escape.

Tribute Paid By House To Veteran Joe Cannon

Uncle Joe Cannon as he looks today.

Washington, D. C., May 6.—Party lines disappeared and old scores were forgotten by the house today when, during the first hour of its regular session, it joined in paying tribute to Representative Cannon, of Illinois, the former speaker, who will be 80 years old tomorrow. Never before in the history of the house has the working session been set aside for a member.

Speaker Clark, in a humorous and friendly speech, termed Mr. Cannon as one of the "top notchers class of mental pugilists." Still carrying himself as straight as an Indian, and as ruddy-checked as a school girl, Mr. Cannon marched down the center aisle of the house and delivered an address of appreciation. It brought back the shadows of Blaine, Randall, Ben Butler, George Howard, "Big Iron" Kelly, and a score of other contemporaries of Mr. Cannon, to the halls where once they served. Mr. Cannon was quick to observe the non-partisan character of the occasion and his opening words were in appreciation of it. Despite his years, Mr. Cannon still takes an active part in debates and smokes as many cigars as ever.

and that the fresh troops the German Crown Prince threw into the fray, suffered heavy losses. Attacks by the Germans, north and northwest of Hill 304, were pushed so close to the French defenses that the bayonet had to be used to repulse the assaults. Yesterday's reports, indicating the destruction of three Zeppelins, are followed today by a dispatch from Dutch sources an-

ouncing that the Zeppelin 1-9 had been sighted flying low across the North Sea apparently badly crippled. Norway has protested to the British and French governments against their action in seizing Norwegian mail. Similar protest have been made by the United States and Holland.

Washington, D. C., May 6.—The Navy League filed a suit for libel today in the district supreme court against Henry Ford, the Detroit manufacturer, asking for \$100,000 damages. The suit alleged libel in some of Ford's published statements opposing military preparedness.

SPEEDER RUNS DOWN OFFICER

Cleveland, O., May 6.—Police Sergeant Charles Goetz was badly injured when run down by an automobile which he attempted to stop. His right leg and collar bone were broken and his chest was crushed. The speeder escaped.

BELIEVE THE GERMAN NOTE WILL LEAD TO PEACE NEGOTIATIONS

London, May 6.—The Daily News gives a prominent place in today's issue, to a long despatch from Rotterdam saying that there is a strong belief in Holland that the note to the United States was carefully prepared and that it may lead to peace negotiations.

The despatch says in part: "There is a belief here that behind the whole cloud of vague and conditional promises lies the hope that negotiations for peace will be opened with England through the United States."

BANK CALLS

Washington, May 6.—The controller of the currency today issued a call to all National banks requiring them to report their condition at the close of business on Monday, May 1.

In their answers to this call national banks are required to inform the controller of their investments in foreign securities, particularly of those of nations now engaged in war.

STRIKE CLOSES PLANTS

Gallipolis, O., May 6.—Several hundred miners and asphalt makers at the Linden, Hartford City and Liverpool, W. Va., coal and salt works near here struck last night for higher wages. The demand was refused and the plants which have been turning out bromine for the European countries, was closed down.

7,000 ON STRIKE
St. Louis, Mo., May 6.—Seven thousand union men, members of sixteen unions in the Building Trades were called out on strike today. The men were called out in sympathy with the striking hotel carriers, who demand a wage of 35 cents instead of 25 cents an hour, an eight hour day and time and a half for overtime. Work on more than 100 buildings is tied up because of the strike.

G. O. P. ALSO VISITORS AT CAPITAL CITY

Columbus, O., May 6.—Columbus was host to many prominent Ohio Republicans today here to attend tonight's banquet of the Buckeye Republican Club. United States Senator Warren G. Harding, temporary chairman of the Republican National Convention, and James E. Watson, nominee for the senate, among the speakers at the banquet, were to arrive this afternoon. Among others who were in the city, or were expected during the afternoon, were W. L. Parmenter, of Lima, state chairman of the Republican State Central Committee, and George B. Shirlan, Jr., of Marion, secretary to Senator Harding.

U. S. To Accept Assurances In The Berlin Note

Washington, May 6.—The official text of Germany's note, fully decoded and laid before President Wilson today, shows no material differences from the unofficial text published yesterday in news dispatches. This strengthens the probability that a diplomatic break has been averted, at least for the present.

It was stated authoritatively last night, that if the official text of Germany's note bears out the unofficial copy transmitted in news despatches, the United States will accept the assurances it contains and await a fulfillment of its promises.

Over night study of the note by cabinet members and officials did not change their view that probably there would be no break in diplomatic relations unless there were further attempts in violation of international law.

There is a possibility that the United States may make a brief reply notifying the Berlin government that as long as the new orders to submarine commanders are fully observed, diplomatic relations will not be discontinued on that score.

Secretary Lansing also has studied the note and was going over it very carefully again today. There were indications that further consideration by the cabinet would not be necessary.

President Wilson read today with careful attention the portion of the note touching on peace. Some officials believed unusual significance could be attached to that part of the note because it was taken to indicate officially that recent speeches of Chancellor Bethmann-Hollweg before the Reichstag, were intended as notices to the world that Germany was ready for peace on certain terms.

The note says the "German government conscious of Germany's strength twice within the last few months, announced before the world its readiness to make peace on a basis of safeguarding Germany's vital interests, thus indicating it is not Germany's fault if peace is still withheld from the nations of Europe."

While it was indicated today that President Wilson would make no further peace moves until the Allied governments have signified their willingness to receive suggestions on the subject, some officials thought today the German note might possibly draw something from the Allies.

Count Von Bernstorff, the German ambassador, returned to the embassy today from New York. He said he had no communication from his government and had no reason to visit the state department in connection with the note unless he was invited or instructed by the government to do so. The embassy view that the note was all the United States asked remained unchanged. Several members of the cabinet have left Washington and are not expected back before Monday. Secretary Lansing has gone to Annapolis for the week-end. Secretary Baker, is in Cleveland, and Postmaster General Butcher is on a short fishing trip.

TEDDY WILL BE A DECIDING FACTOR IN PRESIDENTIAL RACE, CLAIMS JAMES R. GARFIELD

Columbus, O., May 6.—"Partisan should be forgotten and the needs of the country should be looked to this fall in the election of a president," declared James R. Garfield, of Cleveland, in an address following his election as permanent chairman of the progressive convention this afternoon.

"We should forget the past for the present and future, without relinquishing the fight for the principles of the party," he continued. The former member of the cabinet stated that the country at large is looking toward Theodore Roosevelt as being one of the deciding factors in the election of a president this fall.

PRESS COMMENT

NEW YORK EVENING TELEGRAM.—The two nations are so far apart, further discussion is mere waste of time. *** Replies of "yes", or "no", are not looked for in diplomatic documents, especially in German diplomatic documents, but here is quibbling that was distinctly warned against. *** Germany, as expected, has put the matter up to the United States. It is our duty to stand by the president.

MANCHESTER (N. H.) UNION.—We have but one course compatible with national dignity and self-respect to pursue. Upon the receipt of the official text, providing it confirms the unofficial report given out in Berlin, Ambassador Bernstorff must be given his passports and Ambassador Gerard must be recalled.

BALTIMORE AMERICAN.—Berlin has let itself down easily, but not gracefully nor satisfactorily. But it invites this country to construe its answer as satisfactory and that this course will do.

KENNEBEC JOURNAL (Au-

PITTSBURGH GAZETTE.—Germany's reply is a reasonably substantial compliance with the demands made. It may be accepted that the crisis is past. The German government is entitled to credit for its courage in comply under most trying conditions.

(CLEVELAND) LEADER.—Peace—for the present at least—may fairly be counted upon as the fruit of the German reply. And yet the situation remains tense. It is far from assuring future harmony and good will.

WICHITA (KANSAS) EAGLE.—The answer fails altogether to meet the president's demands. There remains but one step that he, in self-respect can take, and that is to hand Count Von Bernstorff his passports.

ST. LOUIS (MO.) REPUBLIC.—There is nothing new in the

JORDAN BOY NOW SAYS THAT HE SHOT HIS MOTHER

OFFICIALS PUZZLED BY DEVELOPMENTS IN CASE; BABY BROTHER CAUSE OF CONFESSION

A sensational turn was given the mysterious murder case of Mrs. Pomelia Jordan, aged 41, whose dead body was found in her home, Flat Woods, back of Lucasville, when Saturday at 10 o'clock George, the eight-year-old son, confessed that he had accidentally shot his mother with a shot gun, with which he had been playing. The confession was given to Judge Thomas C. Beatty, of probate court, Sheriff E. W. Smith and Dr. William Seitz.

Three-Year-Old Boy Cause of Confusion

The confession was brought about in a very strange way. The officials had brought George and Fred, the little three-year-old baby, into the room and were preparing to ask them some questions when Fred, with the most innocent like look and with a pointing hand, said: "George, what did you kill my mamma for?" George hung his head and failed to answer. The officials were quick to follow the lead and asked Fred how George killed his mother and the little chap said: "George killed her with a gun."

Tells How He Fired Fatal Shot

George was then asked if the accusations made by his baby brother were true, and he admitted that they were after a few moments' hesitation. George said that he was playing with the shot gun and did not know that it was loaded. He pulled the trigger back and the contents of the gun were discharged into his mother's head.

Prosecutor Holds To First Theory

The officials are now in doubt about the correct solution of the mystery. Prosecuting Attorney Joseph T. Micklethwait was surprised Saturday when he learned that the little boy had confessed to the officials and made the following statement: "In my opinion from the father's conduct and the statements and from the nature of the wounds and from the examinations and reports of the physicians who examined the corpse, I would say that the wounds were such that would indicate that they were not the work of a child."

Father Has Been Charged With Murder

After the coroner's inquest which was held Friday morning, at which George declared that his father had shot his mother following a quarrel, Roy Jordan was charged by Coroner J. W. Dachler with the shooting of his wife "with homicidal intent." Then Sheriff E. W. Smith filed an affidavit before Squire J. W. Byron charging Jordan with murder in the first degree and he was arraigned. The prisoner entered a plea of not guilty and George was called to testify. The boy re-

lated his story up to the point where the mother was shot then said that "he forgot."

He claimed that he had forgotten who went to the attic to get the gun, which before he contended that his father had gotten it, but admitted that he placed the gun under the bed in the room adjoining the chamber of death. When asked where he got the gun George again said: "I forgot."

Squire John W. Byron concluded the hearing by binding Roy Jordan, the father over to the grand jury without bond.

Coroner Says Gun Shot Might Have Made Wounds

Coroner Dr. J. W. Dachler, when told of the latest development in the case, said that he all along had felt that there was a small possibility of the boy having shot his mother. He said that until the finding of the gun shot wounds in the brain tissues, he thought a hatchet or axe was the instrument of death, but that he then changed his mind. The large cut on the head, he said, might have been torn from the force of the gun's discharge.

The Phrase "More Man"

In his book, "The Pulse of the World," Fleet Street Memories, Malcolm Strick gives what he believes is the origin of the expression "more man." A Scottish doctor, he says, wrote as follows: "The earliest use of the phrase known to me is in the shorter catechism, where it is said, 'No more man since the fall is able in this life perfectly to keep the commandments.' The phrase caught on in Scotland and was probably brought to England shortly after the union. The only difficulty in the way of this theory is that it allows barely two centuries for the English mind to see the joke."

This last sentence is indeed carrying the war into the enemy's camp.

The Planet Mars

Earth's astronomers know nothing of Mars beyond the fact that the planet is of a formation more recent than the formation of the terrestrial globe its evolution must have been more rapid, because it is so small. Mars is an older world than the earth—a world that represents the intermediate state between that of the earth and that of the moon. The phenomena on Mars now under the observation of earth's astronomers are the last manifestations of a dying life. Slowly, very slowly, time is doing its work. Mars is dying of cold, the atmosphere that benumbs the worlds and steeps them in the sleep in which they die.—Exchange.

TO DELIVER TRIAL SERMON IN JACKSON

Rev. Maurice S. Cunningham, who has been seriously ill with rheumatism, has laid aside his crutches and expects to go to Jackson, O., Sunday, in answer to an invitation to preach in the First Baptist church there. The church is without a pastor and the sermons to be delivered by Rev. Cunningham will be trial sermons.

Rev. Cunningham will leave next week for Martinsville, Ind., where he will take treatment for rheumatism.

BUYS BUSINESS BLOCK

Charles Watkins, a Waverly grocer, who is well known here, has just closed a deal in that town, which gives him possession of the A. H. Dean business block. Mr. Watkins bought it as an investment. Mr. Dean, who is a resident of Columbus for years, ran a drug store in Waverly.

Plan To Celebrate "Geek Day" In Park

Preliminary steps were taken by the Geeks Friday night for a Geek Day at Millbrook base ball park some time this summer, the proceeds to go to the indoor fair fund, which will have as its object the furnishing of shoes to the poor children of the city next winter.

The Portsmouth Amusement company has tendered the order a date and at the meeting Friday evening, St. Straus, Charles Kieglar, and Otto Lauffer were appointed a committee to make the necessary arrangements.

Dr. Jos. Gill, Adam Pfau and Louis Levi were appointed a committee to confer with the management of the steamer Homer Smith, relative to arranging for an excursion some time this month.

Louis C. Peal and Otto Lauffer were initiated as members of the order at the meeting, and the applications for membership of William N. Gableman, manager of the Play House, Charles Vaughn, of 702 Sixth street, and William S. Thomas, of 1633 Seventh street, were received.

It was decided that the social session to follow the next regular meeting, Friday evening, May 10th, be complimentary to and for the pleasure of the wives and ladies of the members.

INTERESTING SERMONS AT ALL SAINTS

The rector, Rev. E. A. Powell, will preach on the subject of Christian Unity at the morning service at All Saints' church tomorrow, basing his remarks on the words, "And other sheep I have, which are not of this fold; them also I must bring, and they shall hear my voice; and there shall be one fold and one shepherd," taken from the Gospel for the day. The discussion of this subject promises to be most interesting, and a large attendance should be present, as it is very important that the church people should be rightly informed in this matter.

At the evening service the rector will preach on Proverbs 6:20: "My son, forsake not the law of thy mother," and Miss Gertrude Schmidt, soprano soloist, will sing "My Mother's Prayer."

All members and adherents of the parish are asked to honor "Mother" by being present at this service. All Saints' church is located at the corner of Fourth and Court streets.

BROTHERHOOD TO STUDY HISTORY

At Sunday morning's session of the Brotherhood Class of All Saints' church, the rector will give the first of a series of instructions on the "History of the Christian Church."

Matters pertaining to the origin, growth and development and faith of the church will be discussed each Sunday until the completion of the course. It is confidently expected that great interests will be taken in this series of instructions and that the attendance of the membership will be large. Opportunity will be given for the full discussion of all matters arising out of the lessons, and members are urged to ask questions. The Brotherhood Class is open to all adult men who care to come. It meets at 9 a. m. every Sunday morning in the office of the rector of All Saints' church, at the corner of Fourth and Court streets.

WILLIAMS GIVEN LIFE SENTENCE SAYS "BLACK TEXAS" KILLED GIBSON

Ashland, Ky., May 6.—James Williams, alias "Roadsport," entered a plea of guilty to a charge of murder in the first degree this morning and in less than half an hour heard his sentence, "life imprisonment in the Kentucky penitentiary."

His plea and sentence followed the submission to Judge Halbert a sworn statement in which he confessed that he was one of the four negroes who held up and robbed O. & O. Engineer Joe C. Gibson and Fireman Clarence Griffith in a freight car in lower Ashland on the night of Sept. 9, 1915, following which Mr. Gibson was shot and instantly killed.

"Roadsport" claims that "Black Texas," who has already paid the penalty for his part in the crime with his life in the electric chair, fired the fatal shot.

Roadsport's Statement

"Roadsport's statement is as follows:

"I was in the crowd with 'Black Texas,' 'Blue Steel' and 'Stonewall' when Joe Gibson was killed Sept. 9, 1915, at Ashland, Ky. Bill Bailey and Alexander Calloway were there close by. I climbed up on one end of the car. I was the last one in. The boys said, 'Get them up,' meaning 'hands up.' I did not do any shooting. I heard some one say, 'We'd better kill this guy, too.' 'Black Texas' did the shooting. 'Blue Steel' and 'Stonewall' were going to Lexington to the Fair. None of us had any money when we did this job. I had started to Lexington to the Fair; 'Blue Steel' and 'Stonewall' got the money and put it in their pocket. 'Blue Steel' got a watch. 'Blue Steel' told me after wards that he was in Portsmouth when the police caught Texas."

Texas said on end of ties, "I'm hungry and I am going to eat if I have to hold up some one. I did not see white men when I got in the car. 'Stonewall' put his arms around one of them; and I helped go through the man that 'Stonewall' had hold of. 'Stonewall' got the man's watch whom he was going through. 'Blue Steel' told me about the arrest of Texas."

"I have been only asked to tell the truth and the above is the truth."

House Peters In "The Hand of Peril" At Lyric Today

The combination of a brilliant author, noted picture star and master director, has seldom been used to greater advantage than in the World Film live reel feature, "The Hand of Peril," to be seen at the Lyric theatre on Saturday.

The story is by Arthur Stringer whose tales of mystery and crime detection are known throughout the world; the star is House Peters, one of the most natural and appealing screen actors in the country; and the picture was directed by that inimitable craftsman, Maurice Tourneur.

The story of "The Hand of Peril" is, as its title indicates, an absorbing narrative of sensational criminal exploits and the daring deeds of a government detective.

O. W. U. Quartet Delighted Local Audience Friday Night

IN HER CHARMING RESTING GOWN

Nearly 400 people occupied seats in the Portsmouth High school auditorium Friday evening when The Ohio Wesleyan University Quartet rendered an exceptionally fine program in the way of song, musical numbers and readings.

Russell McCurdy, Portsmouth High school graduate, who accompanied the quartet as reader, was greeted with rounds of applause as he stepped before the footlights. Every member of the quartet was forced to respond to encores after each number.

Sunday the quartet will sing three selections at the evening services at Trinity church. Jack Hood will sing in the place of Mr. Lyons, second tenor, who had to leave for his home in Cincinnati, Saturday.

Mr. McCurdy scored the hit of the evening by his readings. "My Operations," the story of a man and the numerous operations he underwent, written by Irvin S. Cobb, was a splendid number.

Mr. Lyons, second tenor, played several selections on the guitar, which were out of the ordinary. He rendered a medley of his own compositions, in which he brought in the names of a large number of the popular songs of today.

Mr. Vance, first bass and violin soloist, proved himself a real artist. The quartet as a whole rendered five selections and wound up the evening's entertainment by singing a number of college songs.

The P. H. S. basketball team worked hard to get a larger crowd out and deserves much credit for bringing the quartet here.

Rock Salt and Gypsum

Beds of rock salt and gypsum occur in large areas in the United States. They are found in the saline rocks of New York and Pennsylvania and in other formations of about the same age laid down in Michigan and Ohio during periods of great aridity. In southeastern Michigan a bed of rock salt 300 feet thick is said to have been found by drill holes. Dense brines or salt deposits are found in carboniferous strata in West Virginia and other eastern states, the "red beds" of the southwest and the Rocky mountains. In the cretaceous deposits of several of the western states and in the tertiary strata of the far southwest—Argentina.

The hero is James Kestner, a familiar figure to all who have read the recent stories by Mr. Stringer in the magazines. A delightful love interest runs through the picture and Director Tourneur has made remarkable use of the many opportunities for unique and startling stage effects suggested by the fertile fancy of the author.

The star has been surrounded by a particularly strong cast of film favorites. June Elvidge, Ralph Delmore, Dorris Sawyer and Ray Piller are the quartet difficult to excel in the four principal supporting roles.

This pleasing combination—the latest thing in negligee gowns—is of pale pink chiffon trimmed profusely with lace and satin ribbons. A lace overlay covers the whole gown excepting part of the sleeves. The rapid approach of summer's hot days bids fair to make this style one of the most popular to be worn the coming season.

Telegram Of Condolence Sent To Bereaved Family

One candidate was obligated and nine new applications for membership were received at the regular weekly meeting of Portsmouth Court, Tribe of Ben Hur, Friday night.

The court sent a telegram of condolence to the family of Charles J. Miller, deputy supreme chief, formerly of this city, who died at Canton, O. Thomas McLaughlin, the court deputy, is at Crawfordville, Ind., attending a supreme meeting of the order.

Craig Family Leave Clifford, Now Located In N. Boston

James Craig and wife and son, who had been arrested with Craig Landy, and the former's boon companion, Melvin Jenkins, returned from Clifford Friday, enroute to New Boston, where they expect to make their future home.

The family was banished from the city very long, for fear they would sgo, he suspending a workhouse sentence given Craig on condition that he leave the state. Jenkins, arms.

O. W. U. QUARTET AT TRINITY

On next Sunday evening, at 7:30, the Ohio Wesleyan Male Quartet will sing at Trinity church. This is a most excellent group of singers from our far-famed Methodist University at Delaware. They rendered a delightful program on Friday evening at the High school and all who heard them at that time will be anxious to hear them again, and many others will be glad to avail themselves of the same opportunity. At this service the second sermon of the series on "Mountain Peaks of Character" will be delivered by the pastor. The subject will be "The Man Who Would Not Turn Back." You are most cordially invited to be present. You will find Trinity the Home-like Church. The music for Sunday evening will be as follows:

Prelude—March—Barnes.

Ohio Wesleyan Male Quartet.

Anthem, Great and Marvelous—H. Farmer.

Ohio Wesleyan Male Quartet.

Offertory, The Dainty Shepherd—Beaumont.

Ohio Wesleyan Male Quartet.

Street Fair Holds Over

The National Exposition Shows, which have been exhibiting on the west end mill lot the past week under the auspices of the Local Aerie of Eagles, will remain here all next Sunday evening will be as follows:

Field Headquarters, near Nampiqua—by wireless to Columbus, N. Forty-two Mexicans were killed and a number wounded. There were no American casualties.

Washington, D. C., May 6.—General Pershing's report forwarded by General Funston to the war department today says the latest attack on the Villa bandits was made by his small force after a night march of 36 miles. The text of General Pershing's report dated at San Antonio, in Mexico, follows:

"A band of 140 Villistas attacked a Carranza garrison yesterday at Ojo Azules, and remained there in camp last night. Leaders of the band were Cruz Dominguez, Guilo Acosta and Antonio Angeles. This morning they were struck by Major Howze with six troops, 11th cavalry and completely dispersed. Several prisoners, also 75 ponies and mules were taken. The cavalry also rode them down and killed many. The fight lasted two hours, the Mexicans being pursued as individuals into difficult mountains.

Five Carranzistas, condemned to be shot, were taken and released. We have no casualties. Howze left at 8:30 last night, marched 36 miles and reached Ojo Azules at daylight. Consider this a brilliant piece of work. Other cavalry detachments now in several districts."

Field Headquarters, near Nampiqua, via Radio to Columbus, N. M., May 6.—Further reports from Major Howze stated that General Antonio Angeles was killed. He was a relative of Felipe and Angeles, the former confidant of Villa, who was once mentioned for the presidency of Mexico and who is now living near El Paso.

El Paso, Texas, May 6.—General Scott and Funston plan today to hold another conference with General Alvaro Obregon in the expectation that before it ends the suggestion of the United States government for co-operation in the dispersal of the Villa bands in Mexico will take the form of a fully signed protocol.

CROWN PRINCE HURLS FRESH FORCES INTO NEW VERDUN DRIVE

London, May 6.—Heavy fighting has resumed in the Verdun sector with the Germans on the offensive west of the Meuse. They have brought up a new division and apparently a new concentration of troops. Instead of attacking the Meuse, the Germans are now directing their attention to the somewhat higher eminence known as Hill 304 to the southwest towards the French front. The afternoon bulletin of Paris war office admits that an unusual violent bombardment compelled the French to evacuate part of their trenches on the northern slope of the hill. It declares, however, that German efforts to advance were checked by the fire of the French artillery and that the fresh troops the German Crown Prince threw into the fray, suffered heavy losses. Attacks by the Germans, north and northwest of Hill 304, were pushed so close to the French defenses that the bayonet had to be used to repulse the assaults. Yesterday's reports, indicating the destruction of three Zeppelins, are followed today by a dispatch from Dutch sources announcing that the Zeppelin L-9 had been sighted flying low across the North Sea apparently badly crippled.

TERRORIZES BANK; STABS AN OFFICER; IS SHOT AS HE ATTEMPTS TO ESCAPE

Columbus, O., May 6.—After causing a panic in the Ohio National Bank by flourishing a revolver and pointing it at Policeman Charles W. Smith, over the head of Emil Keisewetter, president of the bank, George Airey, 58, today stabbed Policeman Smith when taken to police headquarters and later was shot by the policeman when he attempted to escape. Airey, who is of part Spanish blood, went to the bank this morning and demanded that President Keisewetter secure a \$800 certificate of deposit which Airey has up in Charleston, W. Va., as bond for his appearance on a charge of stabbing. President Keisewetter had been annoyed by the man several times and called the police. When Officer Smith arrived, Airey pulled a revolver and aimed at him, but was prevented from firing when a depositor pinned down his arms. Other depositors sought the cover of desks, fearing a riotous battle. At the police station Airey stabbed Officer Smith as handcuffs were being taken off him. He attempted to escape but was shot as he was running from the building. Airey was taken to the hospital, where he is suffering from a bullet wound in the right kidney. Officer Smith received slashes on his arms and back, but is not in a serious condition.

Tribute Paid By House To Veteran Joe Cannon

Uncle Joe Cannon as he looks today.

Washington, D. C., May 6.—Party lines disappeared and old scores were forgotten by the house today when, during the first hour of its regular session, it joined in paying tribute to Representative Cannon, of Illinois, the former speaker, who will be 80 years old tomorrow. Never before in the history of the house has the working session been set aside for a member.

Speaker Clark, in a humorous and friendly speech, termed Mr. Cannon as one of the "top notchers class of mental pugilists." Still carrying himself as straight as an Indian, and as ruddy-checked as a school girl, Mr. Cannon marched down the center aisle of the house and delivered an address of appreciation. It brought back the shadows of Blaine, Randall, Ben Butler, George Hoard, "Big Iron" Kelly, and a score of other contemporaries of Mr. Cannon, to the halls where once they served. Mr. Cannon was quick to observe the non-partisan character of the occasion and his opening words were in appreciation of it. Despite his years, Mr. Cannon still takes an active part in debates and smokes as many cigars as ever.

noting that the Zeppelin L-9 had been sighted flying low across the North Sea apparently badly crippled.

Norway has protested to the British and French governments against their action in seizing Norwegian mail. Similar protest have been made by the United States and Holland.

NAVAL LEAGUE SUES FORD

Washington, D. C., May 6.—The Navy League filed a suit for libel today in the district supreme court against Henry Ford, the Detroit manufacturer, asking for \$100,000 damages. The suit alleged libel in some of Ford's published statements opposing military preparedness.

DAY IN CONGRESS

Debate resumed on good roads bill.

Former Speaker Cannon's eightieth birthday celebrated in speeches by Speaker Clark, Leaders Kitchin and Mann and others. Rules committee reported rule to expedite the Glass rural credit bill.

SPEEDER RUNS DOWN OFFICER

Cleveland, O., May 6.—Police Sergeant Charles Goetz was badly injured when run down by an automobile which he attempted to stop. His right leg and collar bone were broken and his chest was crushed. The speeder escaped.

BELIEVE THE GERMAN NOTE WILL LEAD TO PEACE NEGOTIATIONS

London, May 6.—The Daily News gives a prominent place in today's issue to a long despatch from Rotterdam saying that there is a strong belief in Holland that the note to the United States was carefully prepared and that it may lead to peace negotiations.

The despatch says in part: "There is a belief here that behind the whole cloud of vague and conditional promises lies the hope that negotiations for peace will be opened with England through the United States."

BANK CALLS

Washington, May 6.—The comptroller of the currency today issued a call to all National banks requiring them to report their condition at the close of business on Monday, May 1.

In their answers to this call national banks are required to inform the comptroller of their investments in foreign securities, particularly of those of nations now engaged in war.

STRIKE CLOSES PLANTS

Gallipolis, O., May 6.—Several hundred miners and asphalt makers at the Linden, Hartford City and Liverpool, W. Va., coal and salt works near here struck last night for higher wages. The demand was refused and the plants which have been turning out bromine for the European countries, was closed down.

7,000 ON STRIKE

St. Louis, Mo., May 6.—Seven thousand union men, members of sixteen unions in the Building Trades were called out on strike today. The men were called out in sympathy with the striking hod carriers, who demand a wage of 35 cents instead of 25 cents an hour, an eight hour day and time and a half for overtime. Work on more than 100 buildings is tied up because of the strike.

G. O. P. ALSO VISITORS AT CAPITAL CITY

Columbus, O., May 6.—Columbus was host to many prominent Ohio Republicans today here to attend tonight's banquet of the Buckeye Republican Club. United States Senator Warren G. Harding, temporary chairman of the Republican National Convention, and James E. Watson, nominee for the senate, among the speakers at the banquet, were to arrive this afternoon. Among others who were in the city, or were expected during the afternoon, were W. L. Parmenter, of Lima, state chairman of the Republican State Central Committee, and George B. Shirlan, Jr., of Marion, secretary to Senator Harding.

TEDDY WILL BE A DECIDING FACTOR IN PRESIDENTIAL RACE, CLAIMS JAMES R. GARFIELD

Columbus, O., May 6.—"Partisan should be forgotten and the needs of the country should be looked to this fall in the election of a president," declared James R. Garfield, of Cleveland, in an address following his election as permanent chairman of the progressive convention this afternoon.

"We should forget the past for the present and future, without relinquishing the fight for the principles of the party," he continued.

PRESS COMMENT

NEW YORK EVENING TELEGRAM—The two nations are so far apart, further discussion is mere waste of time. *** Replies of "yes," or "no," are not looked for in diplomatic documents, especially in German diplomatic documents, but here is quibbling that was distinctly warned against. *** Germany, as expected, has put the matter up to the United States. It is our duty to stand by the president.

MANCHESTER (N. H.) UNION—We have but one course compatible with national dignity and self-respect to pursue. Upon the receipt of the official text, providing it confirms the unofficial report given out in Berlin, Ambassador Bernstorff must be given his passports and Ambassador Gerard must be recalled.

BALTIMORE AMERICAN—Berlin has let itself down easily, but not gracefully nor satisfactorily. But it invites this country to construe its answer as satisfactory and that this course will do.

U. S. To Accept Assurances In The Berlin Note

Washington, May 6.—The official text of Germany's note, fully decoded and laid before President Wilson today, shows no material differences from the unofficial text published yesterday in news dispatches. This strengthens the probability that a diplomatic break has been averted, at least for the present.

It was stated authoritatively last night, that if the official text of Germany's note bears out the unofficial copy transmitted in news despatches, the United States will accept the assurances it contains and await a fulfillment of its promises.

Over night study of the note by cabinet members and officials did not change their view that probably there would be no break in diplomatic relations unless there were further attempts in violation of international law.

There is a possibility that the United States may make a brief reply notifying the Berlin government that as long as the new orders to submarine commanders are fully observed, diplomatic relations will not be discontinued on that score.

Secretary Lansing also has studied the note and was going over it very carefully again today. There were indications that further consideration by the cabinet would not be necessary.

President Wilson read today with careful attention the portion of the note touching on peace. Some officials believed unusual significance could be attached to that part of the note because it was taken to indicate officially that recent speeches of Chancellor Bethmann-Hollweg before the Reichstag, were intended as notices to the world that Germany was ready for peace on certain terms.

The note says the "German government conscious of Germany's strength twice within the last few months, announced before the world its readiness to make peace on a basis of safeguarding Germany's vital interests, thus indicating it is not Germany's fault if peace is still withheld from the nations of Europe."

While it was indicated today that President Wilson would make no further peace moves until the Allied governments have signified their willingness to receive suggestions on the subject, some officials thought today the German note might possibly draw something from the Allies.

Count Von Bernstorff, the German ambassador, returned to the embassy today from New York. He said he had no communication from his government and had no reason to visit the state department for the present and future, without relinquishing the fight for the principles of the party," he continued.

Count Von Bernstorff, the German ambassador, returned to the embassy today from New York. He said he had no communication from his government and had no reason to visit the state department for the present and future, without relinquishing the fight for the principles of the party," he continued.

The former member of the cabinet stated that the country at large is looking toward Theodore Roosevelt as being one of the deciding factors in the election of a president this fall.

Billy Butt In Times Weather

I ain't had my reg'lar annual attack o' spring fever yet but am expectin' it along most any day now. If a whole spring should pass without my havin' that reg'lar attack I'd think somethin' was radically wrong and consult th' doctor. Here's some weather I enjoy for Sunday: Ohio—Unsettled tonight and Sunday. Probably showers. Warmer tonight. Kentucky—Partly cloudy tonight and Sunday. West Virginia—Partly cloudy tonight and Sunday. Warmer tonight in west portion.

After the program a delightful social hour was spent, during which time delicious refreshments were served.

Mr. and Mrs. E. C. Bradford delightfully entertained last evening at their pretty home on Sunnyside with a five hundred party. There were enough guests for three tables, Miss Joan Brushart, Mrs. Everett Taylor, Mrs. Jessamine Church, Mr. and Mrs. George Welge, Mr. and Mrs. Edward Russell, Messrs. Arnold Skilton, Ernest Kelly, Thomas Brushart. Mrs. Edward Russell won a pair of silk hose, Mrs. Church a pair of silk half-hose. A delicious three course supper was served at the card tables.

The May meeting of Judge Blair's class of the Second Presbyterian Sunday school will be held Monday evening at the home of Mrs. Vernon Barrett, 1816 Sixth street.

As many young women are making plans for their summer vacations, it would be well for them to see the beautiful pictures of Lake Geneva, where the Y. W. C. A. outings are held every summer. These slide pictures will be shown at the Second Presbyterian chapel Tuesday evening at half after seven o'clock. An excellent program will also be given as follows:

Four violins and piano—Mrs. Albert Wilhelm, Miss Alice Blake, Mrs. Earl Hardin, Miss Ruth Crawford, violins; and Miss Lollie Anderson, piano.

Vocal—Mrs. H. C. Bugh. Reading—Mrs. Lena Kline Reed. Vocal—J. Adam Burkert. Piano—Miss Margaret Stahl.

Mrs. Mary Kiefer, of 717 Third street, has gone to Chicago on an extended visit to her son, L. C. Kiefer.

The regular Y. W. C. A. supper class held a meeting last evening. The dress making class was postponed until next Friday, on account of the illness of Mr. Stahl, the instructor.

The wedding bans of Mr. Eugene Joseph Cattoe, son of Eugene and Mrs. Elizabeth Cattoe, of Pond Creek, and Miss Ada Gertrude Malone, daughter of George and Mrs. Anna Malone, of Union Mills, will be announced tomorrow for the second time in St. Mary's church, where the bans of George E. Cox, son of John and Mrs. Mary Cox, of Grimes avenue, and Miss Clara M. Walter, daughter of Leo and Mrs. Mary Walter, of Twelfth street, will be announced for the first time.

Mr. and Mrs. Raymond Bart Wiltsee (Margaret Appel) who have been spending their honeymoon at Old Point Comfort and with Mr. Wiltsee's relatives in Norfolk, Va., are now at their new home in Pittsburgh, Pa.

Miss Emma Hanks, an attractive young woman, is here for a series of cooking lessons, which The Times is giving, free of charge, at Kendall's hall every afternoon, at 2:30 o'clock. Everybody is invited. Miss Hanks will give one evening lesson at 7:30 o'clock next Tuesday evening. The lessons will continue all through next week.

The M. C. J. was delightfully entertained Thursday evening at the home of Mrs. Frank Whigham, on Sixth street. Arrangements were made for a social meeting to be given in the near future for the benefit of the new Saint Monica church at New Boston. Light refreshments were served. Mrs. William Debo will be hostess at the next meeting next Thursday evening.

Massive Buffet

Golden Oak or Fumed Oak finish

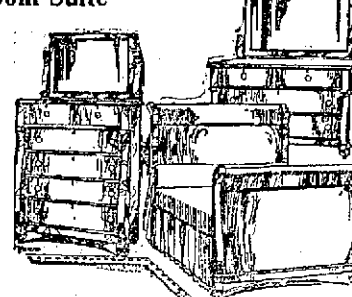

\$28.75

Please do not think of this Buffet as being similar to the cheap pieces frequently advertised. It is a strictly quality piece. New and popular straight line design. All solid quartered oak. A regular \$40.00 value. If you are contemplating the purchase of a new Buffet this should interest you. It is without exception the very best Buffet value we have ever offered. It is not exactly like picture, but much better than picture indicates.

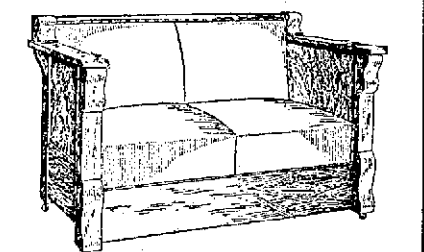

A Genuine Satin Walnut Bed Room Suite \$54.50

This beautiful Bed Room Suite is made in the popular Colonial design. We realize that it is somewhat higher priced than some of the special Colonial

Suites we have been featuring in our advertisements but it is bigger and much more costly than the special oak suites we sell so extensively. We doubt if you can duplicate this suite in Southern Ohio for less than \$80.00. This is worth investigating if you are looking for a high class suite at a very low price.

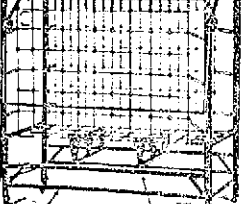

This Massive Divenette \$25.75

Another exceptional value. It is massively and solidly built. Frame is solid golden oak, elegantly finished. The upholstery is genuine Chase imitation leather guaranteed against crazing or breaking. Spring work is famous 'Poston patent.' A beautiful Parlor Piece by Day—A full size Bed at night. The cut is not an exact reproduction of this beautiful piece but it does not exaggerate its beauty or size.

Steel Folding Bed \$4.75

LIKE CUT

A very desirable folding bed where one is cramped for room. It can be folded up, as shown, and wheeled out of the way, when not in use. When opened out the spring work tightens over roof supports and forms a luxurious bed. Made to last a lifetime.

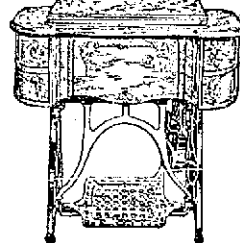

Collapsible Go-Cart

Like Cut **\$3.75**

This cart has a folding 3 bow wood made of good quality imitation leather. Adjustable foot and back. Ebony finished handles. Rubber tired wheels, long leaf suspension springs. Light, strong, easy riding and easy running. Because of the advance in steel, the manufacturer's wholesale price is higher today than the price we ask for this buggy.

Sewing Machine Given Free

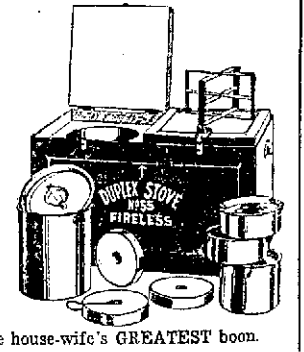

During all the month of May we will continue giving this popular high arm, drop-head, automatic lift sewing machine with all attachments absolutely free with every purchase of \$125.00 or over cash or payments.

Much Interest Is Shown In Junior Corn Growing Contests

Farmer boys throughout Scioto county are showing a great interest in the Scioto County Agricultural Association Junior Corn Growing Contest.

The winner is to receive a free trip to Washington. He must raise the greatest amount of corn per acre in Scioto county. As it is corn planting time, boys throughout the county are showing much interest in the Junior Corn Growing Contest to be conducted under the supervision of the Bureau of Junior Contests.

The State Board of Agriculture also gives a free trip to the 1916 State Fair to the two boys in each county raising the most corn on an acre of ground at the least expense. Entrance blanks and rules may be had from J. R. Clarke, of Columbus, O. Entry blanks for the contest have been mailed to all parts of Ohio. Also rules and regulations covering the Junior Corn Growing Contests.

Joe Carr Referee

That Joe Carr, president of the Ohio State league, is quite a figure in the world of sports, is shown by the fact that he has been chosen referee of the auto races to be pulled off at Columbus next Saturday and Sunday, May 13 and 14. Quite a number of local people are contemplating a trip to the Capital City to see the speed merchants burn up the ground and gasoline. Some of the most noted drivers in the country will compete for the big purses.

"ROTTEN EGG" BOY DRAWS A SUSPENDED SENTENCE

Roy Murray, the East End youth, who was recently arrested by the juvenile court authorities on a charge of hurling a "rotten egg" at Lennie Henard on Easter morning was released Friday evening after receiving a suspended sentence to the Lancaster Reform school.

Murray, according to the testimony, was induced to hurl a "rotten egg" at Henard by an older boy, who will be arrested sometime next week.

Kenard claimed that he was on his way to church and was wearing his "Easter suit" when the missile struck him.

Delbert Jenkins, Dan Hyde and Fred Childs were arraigned before Judge Thomas C. Beatty,

juvenile court, Saturday, on a charge of delinquency and were sentenced to the Lancaster reform school.

The trio have been implicated in a series of petty thieving which bothered the authorities for several days. It developed that the boys had also entered the Lawrence Neurosfer laundry and stole a copper wash boiler and had taken various articles from the Portsmouth Hosiery company.

Judge Thomas C. Beatty, juvenile court, Saturday placed Luther Wilburn, a North End youth under a suspended sentence to the Lancaster reform school on a charge of train riding. The boy had been frequently warned about this habit.

EXCITING RUNAWAY, WOMAN IS INJURED

Mrs. William Weidner, wife of the county infirmary superintendent, had an ankle sprained and their nine-year-old son, Allard, had his back wrenched in a runaway accident Friday afternoon.

Mrs. Weidner and son were returning to the infirmary from Dogwood Ridge. They had started across the county bridge when the big rainstorm broke. She attempted to turn the horse back to

the city but it slipped and fell, breaking the harness.

Frightened, the animal galloped back to the city, running into a telephone pole at the Vulcan last factory, smashing the buggy to pieces and throwing the occupants to the street. They were temporarily cared for at the Martin Hunt home until relief arrived. The boy was bedfast Saturday as the result of his injury.

Patents Welding Machine, May Reap Big Fortune

C. S. Hancock, N. & W. chief electrician at East Portsmouth, has completed an invention, an electric welding machine, which is a time, labor and money saver and an invention from which Mr. Hancock expects to receive a neat sum. He has applied for a patent.

The machine can weld nine square inches of steel in three minutes' time, which is a remarkable short time for welding.

The welding is done with from three to five volts, varying according to the size of the piece welded. The main feature of the new machine is to weld "high speed" steel to the lower grade of steel.

N. & W. officials and officials from other railroads have approved the invention, which is a big money-saver. There are several other kinds of electric welding machines, but the process of welding done by Mr. Hancock's machine is entirely different. The current is turned on until the two pieces melt and form as one. A piece welded in the blacksmith shop with the electric and carbon process takes from fifteen to twenty minutes, while on the new machine it can be done in five minutes.

Mr. Hancock has also invented an automatic voltage controller, which is being used to a good advantage in the erecting shop.

An automatic derailer, also the work of Mr. Hancock, is being used with telling effect in the local roundhouse. He expects to put the derailer on the market as soon as his patent rights are received.

SOCIETY

Mrs. Mary E. Hart.

When the great Alaska gold fever swept over this country more than fifteen years ago, Mrs. Mary E. Hart was one of the few women to make her way to the frozen north. She has since accumulated a small fortune, but she refuses to return to the states, and says she is happier in Alaska than she could possibly be elsewhere.

A Schapiro, of Second and Chillicothe streets, has been ill for several days.

OBITUARY

Walter J. Kline

Walter J. Kline, aged 32, who for the past six years had been identified with the selling force of the Excelsior Shoe Company, died Wednesday at his home in Philadelphia. His death resulted from complications following an operation for appendicitis. He is survived by his wife and one child. He had frequently been in Portsmouth and was well known in shoe factory circles here.

Grant Williams of the Excelsior Shoe Co. was in Philadelphia Friday and attended the funeral services of the deceased.

Mr. Kline looked after the state of Pennsylvania for his firm and his territory the balance of this season will be looked after by Evan Williams.

Mrs. Edgar Weber

Mrs. Edgar Weber, a widow of Russell, Ky., was found dead in her home Friday by a neighbor. A physician was called and pronounced Mrs. Weber's death due to heart trouble. She was 52 years old and is survived by six children.

It will be recalled that Mr. Weber was killed two years ago in a C. & O. wreck at Guyandotte.

F. M. Spaggs

Mrs. Minnie Willis, Miss Nan Skidmore, Lester Stone, Mrs. Laura Howland, Master Carl Howland, Miss Sue Bowers and aunt, Miss Tillie Bevers, of this city, attended the funeral of their uncle, F. M. Spaggs at Garrison, Ky., Friday.

sons, Bruce Spaggs, of near Lexington, Ky., Henry, of Lawrence, Kan., Frank, of Grayson, Ky., and George at home. Rev. Vanvinkle, of the Vanceburg, Ky., Methodist church conducted the funeral services. Mr. Spaggs had many kind friends who gathered at the beautiful country home to witness the last sad rites.

Bradford Funeral

The funeral of Mrs. Henry Bradford will take place from the family home No. 612 Gay street, Monday afternoon at 3:30 o'clock. Rev. George P. Horst, pastor of the Second Presbyterian church, will conduct the services.

Trustees Approve Plans Of District Tuberculosis Hospital

Plans for the District Tuberculosis Hospital, which is to be built near Chillicothe, were approved at a meeting of trustees held in Chillicothe, Friday. Conrad Roth, of this city, is a member of the board of trustees and was present at this meeting. The plans will now be forwarded to the State Industrial Commission and as soon as approved bids will be advertised for and the contract awarded as soon as possible. The plans were drawn by Frank Puckard, a Columbus architect.

VALUABLE TIMBER TRACT BOUGHT BY LOCAL PARTIES

Representative W. R. Sprague, of this city, and several Scioto county citizens have just come into possession of one of the richest timber sections in Tennessee. It contains 2,600 acres and is located in Wayne county, Tennessee.

Mr. Sprague will leave Monday for that state and will close minor details in connection with the deal. The timber tract was purchased as an investment, but if we cannot get our price for it we will place several mills on it and clear it ourselves," Mr. Sprague said Saturday.

75 SIGN FOR B. B. SPECIAL

More than 75 local fans have agreed to attend the opening game in Maysville next Wednesday.

Messrs. Will N. Gableman and Fred N. Tynes added 30 additional names to their list Saturday, Mayor Kaps being one of the fans who inked the petition.

The River City band is to be taken along, and local rooters are going to show Maysville how a band of genuine rooters can root.

It is likely that the special on the C. & O. will leave here Wednesday at 1 p. m. for Maysville.

Work is slowly, but steadily, progressing on the concrete block Postoffice at Sixth and Boundary streets. Rev. Arthur Canfield meanwhile is holding meetings in his home across the street.

SIMPLE CORN REMOVER

Don't let corns discourage you. No matter how often you have tried and failed, just remember the new patent method used by Dr. Hunt gives you instant relief and lifts the corn right out without pain and needless suffering. Dr. Hunt's new corn cure can be obtained at any drug store for 25c. It is simple, easy to use and very effective. Soothing and healing begins at once and corn goes in two days. Better get it today.

Refuse To Allow Pay On Low Duty Pumps

Representatives of the John H. McGowan Company, of Cincinnati, appeared before the board of control Saturday morning and requested the service department to assist them in the purchase and securing of low duty pumps at the water works. The board made a gentlemen's agreement with them, whereby they would do as requested.

The company representatives also took the opportunity for renewing an appeal for some money on the 15 per cent held back, pending completion of the contract. They took the attitude that their part of the work, the high duty pumps, were up to specifications, in fact, even better. The low duty pumps, which have not yet met the test requirements, were

Saturday proved to be one of the prettiest days of a backward Spring. The maximum temperature was 87 and the minimum 46, according to Weather Observer Dr. Harry Schirrmann.

A terrific rainstorm broke over the city late Friday afternoon but lasted only a short time. The rainfall amounted to .46 of an inch.

TERMINALS

Lee Smith, of Second street, has moved into his property at 3013 Gallia street, until recently occupied by John Henderson and family. Mr. Smith bought the house from Dr. F. H. Williams.

Walter Haveron, of South Webster, who is working as stenographer in Capt. J. T. Carey's office, has received notice from Washington, D. C., that he passed a successful examination for stenographer and typewriter and that an ap-

pointment in the U. S. patent office was awaiting him. He received a grade of 89 per cent. Haveron has refused the appointment. This makes the second government appointment received by Haveron. Last December, after passing a successful examination, he received an appointment as field messenger in navy yard service.

W. C. Jussa, contractor, who recently bought six lots in the Buck and Snyder addition to this suburb, has already started work on one of the six two-story frame structures that will occupy the lots. Work of laying the brick foundation will start early next week, the excavating being almost completed. The property is on the south side of Walnut street, near the city's eastern corporation line.

With three conversions Friday evening, the total of conversions at the Tuberculosis revival meetings has been brought up to an even 100. At

LOAN ADVANTAGES

No. 2. THE ROYAL DEFINITE CONTRACT method of paying favors the borrowers. A straight loan due in three or four years seems easy to meet, but so many have found that the savings they intended to make for some reason or other have not been made, and they have only paid the interest. When the loan is due a renewal must be made with much worry and expense. A Royal weekly payment loan would have saved time and worry and would have had the loan partly paid.

THE MARKETS

TRADE REVIEW

IN LOCAL FIELDS

Cincinnati, May 6.—Trade conditions as found in the Cincinnati, Lexington, Ky., Richmond, Ind. and Portsmouth, Ohio fields by the reporters under the direction of Bradstreet's are contained in the following review issued by Bradstreet:

COAL—There is no material change to report in the coal market in the past week over the previous one. There continues to be a fair demand for all grades of coal, with no particular unusual demand for any one grade but a general fair market.

Dealers in building lumber report business very good and look for a big increase in demand as soon as the weather will permit building with more ease.

Hardwood dealers says their business is 20% better at this time, than it was a year ago. The demand is greater than the supply and prices are being maintained.

LIQUORS—Whiskey is in steady demand and some large lots have changed hands at an advance over last week's prices. The demand for alcohol keeps up and at the present time distillers are unable to supply the demand and some orders are floating around looking for some distiller to accept and at very encouraging prices.

VALVES, BRASS GOODS, & C.—One local authority reports that by July 1916, they expect to ship more goods than in the year of 1914. Business is from 40 to 50% better than that of 1915. Collections are good and the outlook very encouraging.

FOUNDRY—Report largest volume of business since 1907 and working fullest capacity, same conditions existing generally, collections good and no immediate falling off of business looked for—collections above normal.

MACHINERY—It is understood that so far manufacturers are only handicapped by a nominal amount of men striking and that they do not anticipate any great amount of trouble. Business brisk in general and collections good.

Jobbers of men's and children's cheap clothing report a scarcity of merchandise and advance in prices which practically are prohibitive in many instances. The month of April was not as good as March due to unseasonable weather conditions. Collections are fair.

DRY GOODS—Business and collections are about the same as last year.

CIGARS—Business slow, collections about the same as preceding year.

PAPER—Business good with collections slightly better than last.

PLUMBING SUPPLIES—Business good, also collections.

HARNESSES—Business on the whole is reported good. Collections for last month greatly improved. Prospects unusually bright.

MANUFACTURERS OF AGRICULTURAL IMPLEMENTS—Collections reported exceptional good. Very noticeable increase over last year at this time notwithstanding the poor wheat crop in nearby states caused by too much rain in early spring. Prospects good.

W. GROCERIES—Reported ahead of last year; collections fair; prospects look fair but a great dependence is placed upon the crops.

A REVIEW OF THE WEEK'S MARKETS

New York, May 6.—Waiting on the German note constituted the chief feature of the irregular and nervous week in the stock exchange. Other developments of importance included an expansion of domestic labor disturbances, improvement of the Mexican situation and changes posit-

ive and military, among the entente powers. When Berlin's reply was finally received prices broke with some violence, but recovered with surprising vigor, affording ample proof of the market's strong technical position.

The rebound seemed to be based on the belief that Germany had made substantial concessions to this country's demands, thus staying off a severance of diplomatic relations.

It was generally realized, however, that the final outcome of the precarious situation rests with Washington, where official opinion seemed to be much divided.

Leading transportation lines, including the Pennsylvania, New York Central and Reading railroads, submitted brilliant statements of March earnings. The copper producing companies reported increases for 1915.

In the stock market itself shipping shares furnished the most conspicuous feature. Mercantile Marine attained new high records with a later movement with impressive proportions in United Fruit.

NEW YORK STOCKS

New York, May 6.—Today's strong and exceedingly active market doubtless had its basis in an increasing conviction that the crisis with Germany had passed. Buying was of a free and confident character although representative stocks were again subordinated to demand for specialties.

Mercantile Marine and United Fruit, as well as the oils and copper were most conspicuous in the dealing together with such shares as Crucible and Lackawanna Steel, American Can, American Locomotive and Westinghouse. Gains in these various issues ranged from 2 to 5 points.

With Germany had been averted led to higher prices today for wheat initial quotations which ranged from 1/2 off to 1 cent up with May 112 1/4 to 113 1/4 and July 113 1/4 to 114 1/4 were followed by a general rise that in some cases amounted to 1 1/2 as compared with yesterday's finish.

The close was strong, 2 1/2 to 3% net higher with May at 114 1/4 and July at 116.

Corn shared in the strength of wheat. Buyers, however, did not seem aggressive. After opening a shade to 1/4% higher the market hardened to some extent.

The close was firm at 5 1/2 to 5 1/2 net advance.

Firmness developed in oats as well as other grain, the buying throughout as in corn was only of a scattered sort.

Higher prices on hogs helped to lift provisions. Pork led the advance.

RETAIL BUSINESS LOCATION

Will build one or more neat store rooms or shops on the property at the northwest corner of Lincoln and Gallia streets, for satisfactory tenants; also will improve sidewalks and the balance of the premises.

Much traffic now passes this corner from the new Drew factory, the new Excelsior, the Mitchell Manufacturing Co., fire brick works, range works and adjacent garages, freight station, fire engine house and will from the new high street viaduct. Lincoln is the only street between New Boston and Offshore street that crosses Gallia from the Hilltop to Rose Ridge. It is a good and improving retail corner for any retail business or shop. If interested address by mail L. C. Turley.

W. OF W. GOING AFTER BANNER

On June 2, River City Camp No. 29, Woodmen of the World will entertain with a smoker at which Roy McElhenny, district state manager and Geo. Briel, Cincinnati, will discuss plans for the state-wide initiation which will be held at Columbus, Sunday, July 23. Arrangements were made for this smoker Friday evening at the regular meeting of the order.

The uniformed rank will receive their new uniforms in time for the "G. A. R." day celebration, May 23.

The Portsmouth camp also decided to make an effort to capture the big silk banner which will be given to the lodge securing the most members for the class initiation, July 23.

The ceremonies of initiation were conferred upon Z. Hale, J. E. Brooks, Geo. Tansley, W. J. Dehart and Wiley Woods. Ten applications were received.

Next Friday evening the camp will hold a class initiation. A large number of candidates will receive the ritualistic work.

CONG. KEARNS' OPINION

In discussing the note just received from Germany in reply to the ultimatum sent by President Wilson some days ago, Congressman Kearns, of the Sixth district is quoted as follows in a Washington dispatch:

"This note does not meet with the president's demand, but I do not think Germany should be asked to abandon her submarine warfare entirely. I think a belligerent country ought to have the right to sink armed ships of any enemy country carrying munitions of war."

Peebles Car Overhauled

Coles Peebles has just had his automobile overhauled and repainted and it looks spic and span in its new dress.

Boat Will Stop Here

The Cotton Blossom Floating Palace has started down the Ohio river from Pittsburgh and is due to stop at Portsmouth within the next two weeks.

RAISE PRICE OF CASE CAR

J. D. Bridges, local representative of the Case automobile, has just received word from the factory that the price of the Big Six has been increased from \$1,090.00 to \$1,190.00, a raise of an even \$100. The cost of raw materials has increased to such an extent that the manufacturers have found it absolutely necessary to increase the price in order to maintain the present high standard of excellence.

CALM PREVAILS IN BERLIN FOLLOWING NOTE PUBLICATION

Berlin, via London, May 6.—
The text of the German reply to

the American note was printed in extra editions of the newspapers but caused hardly a ripple of excitement.

Notable restraint was shown in the limited comment made on the note in papers. Even Count Von Reventlow, usually caustic critic of German American relations, disposed of the matter with a single line referring to previous discussions on the issue.

As a whole, the German papers appear satisfied with the tenor of the reply from Berlin although there are indications that the attitude of the newspapers is not wholly uninspired.

The Vossische Zeitung, one of the few papers to comment at length on the German reply, says:

"The note is inspired by a sincere wish to avoid a break with the United States. The government, in ignoring the tone of President Wilson's note, has gone straight to the point, wherein there is a possibility of an agreement, by offering to conduct the submarine war within the limits of international law."

The Tagliche Rundschau, while expressing the opinion that the note should have taken a different character, urges that the expression of divergent views is unwarranted at this moment and that everybody should subordinate his own judgment and stand behind the government.

The Berlin Tageblatt contents itself with summarizing the main points of the note and expressing the hope that it will attain its aim in preventing war with America.

Paris, France, May 6.—The French press subjects the German note to the United States to severe analysis, drawing varying conclusions from it. Some newspapers consider that Germany has yielded, although with bad grace. Others believe the document is a tortuous refusal. The Petit Parisien says the note contains little that is new. It offers concessions, but this is the first time Germany has spoken of having given humane instructions to submarine commanders.

The Journal says the concession made by Germany is hedged in with reservations and conditions, which, in Germany's calculations, constitute ground for further conversations, even if rejected. It asks whether President Wilson will not be obliged to send another note. This would mean so much time gained without speaking of the echo which the curious pacific allusions, protestations of friendliness and solicitations in regard to impartiality might find in America.

Germany gives up nothing, the Figaro says, and even carries her arrogance so far as to formulate her refusal in language which certainly will not fail to be appreciated at Washington.

The utter lack of excitement on the part of the majority of the people of Berlin with which publication of the German note was received, is strong contrast to the interest shown everywhere when the American note to Germany was published April 22.

After the first flurry at noon, today, when extra editions of the newspapers appeared with the text of the note, the city resumed its usual calm. In fact, it was almost a dead calm of the blistering heat. News dealers who ordered large supplies of papers could not get rid of them.

Throughout the afternoon listless crowds of the average size, thronged the principal streets and cafes. Not one person in fifty so far as could be seen, glanced at a newspaper. Nowhere could there be heard any particular discussion of the German-American situation, nor were there signs of the antipathy to persons speaking English, which frequently have been observed.

Was Called Bad Names

A Mrs. Morano complained to the police Saturday that a neighbor, Mrs. Zuliani of Seventeenth street, was in the habit of calling her vile names. She was advised to carry her troubles to a squire's court.

Mrs. Frank Walker, of the Santa Trail, who has been ill with pneumonia, is considerably improved.

James Foster, of Garden, has been ill several days with the grip.

GLYNN AND CLARK ARE FAVORITES

Washington, D. C., May 6.—President Wilson's conference with Fred B. Lynch, of the Democratic National Committee, it was learned today, resulted in the president approving the selection of former Governor Martin H. Glynn, of New-York, to deliver the keynote address as temporary chairman of the Democratic National Convention at St. Louis. Speaker Clark, it is expected will be invited to be permanent chairman.

COMPANY WILL START ROAD PAYING

On Monday the Sheridan-Kirk Contracting Company will start active work on paying three additional miles of the Ironton-Portsmouth pike which will extend the improvement from Seioville to Wheelersburg.

Saturday morning one of the big White trucks belonging to the contractors, loaded 1040 paving brick at the Peckles plant, made the run to Seioville and emptied the load in just 47 minutes.

Arthur Harwood, assistant county engineer, and the chairman, spent Saturday installing grade stakes along this section of the pike, so that work can be started Monday.

When the county commissioners awarded the contract to the Sheridan-Kirk company, Mr. Sheridan said that he desired to show the people of Seio county the sort of work his firm would do. Heretofore they have been constructing river dams entirely. Now they intend to accept paving contracts and will make the three miles a "test job."

TEACHERS HAVE SPELLING BEE

Teachers from all parts of Seio county flocked to Portsmouth, Saturday to take the county examination held at the high school building Saturday morning.

During the noon hour the teachers indulged in a spelling contest and first place honors were captured by Miss Lola Cornett of Garden, who finished with a perfect average, spelling the 100 words correctly.

Miss Clara Fetz of Garden was second with a percent of 98, Miss Evelyn Roberts of Garden was third with 91 and Miss Edna Krapp of Powellsville was fourth with 91.

A Mrs. Morano complained to the police Saturday that a neighbor, Mrs. Zuliani of Seventeenth street, was in the habit of calling her vile names. She was advised to carry her troubles to a squire's court.

Mrs. Frank Walker, of the Santa Trail, who has been ill with pneumonia, is considerably improved.

Reo Car Sold

Asst. Dist. Stabler delivered a 1915 Reo car to Clay V. V. of Second street, Saturday afternoon. Mr. Stabler has just received two more of new Reo cars from makers that are fast joggers.

EIGHTH REBEL LEADER FACES FIRING SQUAD

Married Just Before He Faced Firing Squad

Dublin, Friday, May 5.—(Via London, May 6.)—Joseph Plunkett, one of the leaders in the rebellion, was married an hour before he was put to death to Miss Giffard, sister of Mrs. Thos. MacDonagh, widow of one of the first rebels put to death.

Dublin, May 5. (Via London) May 6.—It was officially announced today that Major John McBride, the eighth leader of the Sinn Fein rebellion to suffer death by sentence of court martial, has been shot. Major John McBride fought throughout the Boer war with the Irish Brigade under General Piet. When the Boers finally surrendered he made his escape and took refuge in

Paris, where he later married Miss Maud Gonne known in home rule circles in Ireland as the Irish Joan D'Arc. In 1905 Major and Mrs. McBride delivered a series of lectures in the United States on Irish politics.

The sentences of Thomas Hunt and William Cosgrave who were sentenced to death with Major McBride were commuted to life imprisonment.

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among the many that we read about, one of the most interesting and helpful is that of a woman who has been through the experience of a difficult delivery. It is a story that is full of interest and is a most helpful one to all who are interested in the subject. It is a story that is full of interest and is a most helpful one to all who are interested in the subject. PRESS COMMENT

(Continued From Page One)
not except its tone of insolence and its manifest inconsistencies. It is in order to remark that the people of the United States are with the government.

RENO (NEVADA) GAZETTE—If Mr. Wilson was bluffing when he sent his last note, his bluff has been called. He will have to make good. As far as the people of the United States are concerned, Germany has made a mistake. It remains to be seen whether she has made one with the president.

SEATTLE TIMES—Germany does not accede to President Wilson's demands. Instead the Imperial government has made an answer cleverly designed to involve the United States in further diplomatic discussion.

FORTH WORTH (TEXAS) STAR TELEGRAM—Germany's concessions is a great concession for Germany and a victory for the firm stand taken by President Wilson.

SAN ANTONIO (TEXAS) LIGHT—The note utterly fails to meet the issue raised by President Wilson.

The Progressive state convention selected eight delegates-at-large to the national convention, each with one-fourth vote, and district delegates, and then adjourned without endorsing any candidates for office.

Two delegates were elected from most districts, each with one-half vote, but several of the larger congressional districts were given four delegates to the national convention—each with one-quarter vote. Following are the delegates-at-large selected:

REGIMENTS OF HEROES, SAVIORS OF VERDUN, PARADE BEFORE GENERAL JOFFRE

General Joffre reviewing at St. Dizier regiments which did the most to save Verdun.

Recently General Joffre reviewed the regiments which prevented the Germans from piercing the French lines and capturing Verdun. These regiments were singled out and taken to St. Dizier to rest from the terrific struggle in which they had been engaged. They were reviewed in the square of St. Dizier in front of the monument which commemorates the battle of St. Dizier, which was besieged by the Germans in 1514.

WELL MANNERED COW ENTERS MUSIC STORE

That old story about a "bull in a china shop," had its counter part, Saturday noon, when a full grown, well mannered cow, horns, hoofs, tails and all, pronounceded all over creation, and was through the Hutchinson-Wanover Co. store 1003 Gallia street.

The cow, it seems, had wandered away from a barn nearby and apparently was on pleasure bent, for her demeanor was that of an evenly tempered animal. She doubtless was a cow of musical temperament attracted to the store by the music rendered from one of the Edison Diamond Disc machines, which happened to be playing a popular air at that time.

Manager Henderson Hutchinson was in his office in the rear of the store when the cow entered the front door. He thought the "customer" walked pretty heavily on the carpeted aisle and pictured to himself a fellow wearing No. 12's. As the noise became more pronounced, he stepped to the office railing and almost collapsed when he beheld the cow. He took in the situation at a glance and jumping over the railing opened the door in the rear of the store. The cow calmly walked out the door just as though she was on dress parade. You can rest assured that the door was securely bolted at once, for fear she might decide to back up on the job.

Manager Hutchinson is congratulating himself on the fact that the cow was a gentle beast, else his well-kept store might have resembled one that had crossed the path of a cyclone.

LIVE WIRES ENLIST TO BOOST KORN KARNIVAL

Interest in the 1916 Korn Karnival is being evincing in every section of the county and prospects are very good for one of the most unique and novel Antinatal celebrations ever held. Recently R. E. Thomas, secretary of the Business Men's Association mailed postals asking for volunteer workers for the Karnival and has been swamped with answers. Representatives from all sections of the county have responded generously and promise to do everything in their power to make the Karnival a huge success. Other replies are expected within the next few days. Representatives from every city and town for 20 miles around will co-operate with the directors.

The directors of the Business Men's Association will hold a meeting Monday night to formulate plans for the Karnival. Those who have signified their intention of becoming active in the interests of the Karnival are: Frank Adams, George Ahrend, W. W. Anderson, Edgar Appel, F. M. JORDAN BOY NOW SAYS THAT HE SHOT HIS MOTHER

OFFICIALS PUZZLED BY DEVELOPMENTS IN CASE; BABY BROTHER CAUSE OF CONFESSION

A sensational turn was given the mysterious murder case of Mrs. Pamela Jordan, aged 41, whose dead body was found in her home, Flat Woods, back of Lucasville, when Saturday at 10 o'clock George, the eight-year-old son, confessed that he had accidentally shot his mother with a shot gun, with which he had been playing. The confession was given to Judge Thomas C. Beatty, of probate court, Sheriff E. W. Smith and Dr. William Seitz.

Three-Year-Old Boy Cause of Confession

The confession was brought about in a very strange way. The officials had brought George and Fred, the little three year old boy, into the room and were preparing to ask them some questions when Fred, with the most innocent like look and with a pleading hand, said: "George, that did you kill my mamma?" George hung his head and said to answer. The officials were quick to follow the lead and asked Fred how George killed his mother and the little chap said: "George killed her with a gun."

Fred Fatal Shot

George was then asked if the statements made by his baby

brother were true, and he admitted that they were after a few moments hesitation. George said that he was playing with the shot gun and did not know that it was loaded. He pulled the trigger back and the contents of the gun were discharged into his mother's head.

Prosecutor Holds To First Theory

The officials are now in doubt about the correct solution of the mystery. Prosecuting Attorney Joseph T. Micklethwait was surprised Saturday when he learned that the little boy had confessed to the officials and made the following statement: "In my opinion from the father's conduct and the statements and from the nature of the wounds and from the

examinations and reports of the physicians who examined the corpse, I would say that the wounds were such that would indicate that they were not the work of a child."

Father Has Been Charged With Murder

After the coroner's inquest which was held Friday morning, at which George declared that his father had shot his mother following a quarrel, Roy Jordan was charged by Coroner J. W. Daehler with the shooting of his wife with homicidal intent. Then Sheriff E. W. Smith filed an affidavit before Squire J. W. Byron charging Jordan with murder in the first degree and he was arraigned. The prisoner entered a plea of not guilty and George was called to testify. The boy related his story up to the point where the mother was shot then said that "he forgot."

He claimed that he had forgotten who went to the attic to get the gun, which before he commenced that his father had gotten it, but admitted that he placed the gun under the bed in the room adjoining the chamber of death. When asked where he got the gun George again said: "I forgot."

Squire John W. Byron concluded the hearing by binding Roy Jordan, the father, over to the grand jury without bond.

Coroner Says Gun Shot Might Have Made Wounds

Coroner Dr. J. W. Daehler, when told of the latest development in the case, said that he all along had felt that there was a small possibility of the boy having shot his mother. He said that until the finding of the gun shot wounds in the brain tissues, he thought a hatchet or axe was the instrument of death, but that he then changed his mind. The large cut on the head, he said, might have been torn from the force of the gun's discharge.

Three Boys Are Sent To Homes

Roy, James and Fred, three of the sons were sent to their home, near Lucasville Saturday by Judge T. C. Beatty, and George will be held until the officials investigate his latest confession, in which he admitted that he had accidentally shot his mother while playing with the shot gun. George told Judge Beatty that he did not tell that he had shot his mother at first for he was afraid that "they would send him away."

Sheriff E. W. Smith stated Saturday that he had nothing to say concerning the latest developments but added that there were

several irregularities in the boy's latest story which would be investigated. The officials differ in their opinions. Some believe that the boy will tell an entirely different story in the next day or so while others are inclined to believe this one.

It will be remembered that at first George claimed that his mother fell against the bed and killed herself. Then after being placed in the county jail he accused his father of the crime and told this story several times to different officials and repeated it at the coroner's inquest Friday morning. Then when his little brother, Fred, said that he killed her, George confessed that he had accidentally shot his mother.

PROMOTES GOOD HEALTH

Avoid badly ventilated places and as a protection against disease use safe and reliable hycolite frequently. As a mouth wash and gargle it destroys germs of color and decay. For cuts, bruises and burns it cleanses and prevents infection and helps to heal quickly and healthfully. Hycolite is remarkably pure and economical. It is recommended by physicians, used in hospitals and extensively sold by druggists, because as an antiseptic and germicide it acts instantly, is powerful yet positively safe and always dependable. Keep hycolite on hand always as first aid for your protection. You never know when a pin scratch, cut or bruise will lead to blood poisoning. General Laboratories, Madison, Wis.

A MORNING HEALTH HABIT

Before You Eat Breakfast Flush the Stomach and Bowels With This Water

Nature intended us to have good digestion, free constipation and biliousness, but we are inclined to neglect ourselves. We get constipated, then we get nervous, sometimes despondent, worried, and headachy. Without sufficient exercise nature can't carry off the waste. It stays in the bowels, ferments, and turns to poison, making a home for millions of bacteria.

Your stomach and intestines should be flushed and cleansed each day. Not with drugs that irritate and "apply the lash" to organs that are already overworked, but with Tollo Water from Dawson Springs, Kentucky. It will not force or irritate, but flush and really cleanse the walls of the stomach and bowels, leaving them refreshed and clean.

When the blood is pure you sleep well and wake refreshed. If you feel good one day and bad the next, have spells of indigestion or biliousness, you should start tomorrow morning on Tollo Water. It will rid the system of sour bile and toxic poison left from food of the previous day.

Get a bottle from your druggist today. Pour out about one-third of a tumbler of Tollo Water then fill it with plain water and drink it before breakfast.

After the first glass you will experience the feeling of cleanliness inside that means clean blood, good digestion and an active liver.

THEATRICAL

Sun Theatre

The Palace Players will give their last performance of the western comedy at the Sun tonight. If you have not seen this play "The Boss of Z-Ranch" do not miss it tonight. It is a positive screen form start to finish and as an added attraction to the regular play vaudeville that is real goods is introduced between the acts. Everything is being put in readiness for the great production of the feature play "The Girl in Red" which opens with a matinee Monday. This is the big surprise package, a comedy full of thrills and wallops, the very latest thing in sizzling, bubbling, never-stop farce comedy. Reserve seats now for this play if you care to see it.

GIFFIN VOTE CONSIDERED PROTEST AGAINST WILLIS; OFFICIAL COUNT COMPILED

Columbus, May 6.—With the tardy completion of the official vote cast in the primary, April 25 it was possible today to ascertain approximately the size of the protest vote in the republican party against the state administration, the matter in which political interest centered. Substantially, it is indicated that approximately one-third of the republican party has been in active revolt or has been passively hostile.

The official vote in the republican primary is as follows:

For President—Theodore B. Burton, 122,165; William Grant Webster, 14,217; Theodore Roosevelt, 1,932; Henry Ford, 10,683; Charles H. Hughes, 469; Warren G. Harding, 211. Total vote cast, 140,677. Total against Burton, 18,512.

For Delegates at Large—Scuyler O. Giffin, 14,893; Matt Glaser, 32,410; Warren G. Harding, 11,170; William Cooper Proctor, 11,121; John J. Sullivan, 73,103; Ralph Tyler, 32,559; Frank B. Willis, 99,569. Harding, Willis, Sullivan and Proctor are elected.

The official vote in the democratic primary is:

For President—Woodrow Wilson, 82,688; Henry Ford, 1,621; Champ Clark, 621; William J. Bryan, 111; Judson Harmon, 30; James E. Campbell, 7.

For Delegates at Large—James E. Campbell, 62,057; James M. Cox, 66,521; Judson Harmon, 63,752; Frank S. Monnett, 27,834; Ailee Pomeroy, 52,435.

If the Willis and Giffin votes are added together the total is almost the same as that cast for the republicans for president, indicating that all save a very small part of the Giffin vote may be accepted as in protest against the state administration, according to political observers.

The completion of the returns at this time period was due to the delays of county boards of elections. Mahoning county took from Clermont the prize for slowness in reporting. Ten days have elapsed since the primary.

To Discuss Doctrines Of "Election" & "Free Grace"

Those who go out to the Temple theatre bible lecture Sunday afternoon will hear an interesting and instructive discourse. For centuries Christians have been divided into two great schools of theology usually referred to as Arminianists or believers in the doctrine of "Free Grace, and Calvinists or believers in the doctrine of "Divine Election." These two theories have often been considered irreconcilable, and yet the bible refers to both. Some have concluded that the bible is, on this matter, contradictory. It is claimed that Pastor Spring who will be the speaker Sunday, examines the scriptures on both subjects, and that he will show that in this matter, as in every thing, the bible is harmonious, consistent, reasonable and logical, and that its teachings, when properly understood, are worthy of acceptance by any and all intelligent people. The public is cordially invited. As usual everything will be free.

Promoter Charles Kieglar stated Saturday that the next series of boxing matches would be pulled off in Millbrook park in a ring to be erected near the grandstand. He is receiving all kinds of mail from fighters all over the country and will pick two "never" lightweights for the main bout of ten rounds.

Jack Perry, sensational lightweight of Columbus, who is fighting his way to pugilistic fame in Ohio, will probably be one of the principals in the ten round affair.

ALUMNI BANQUET SET FOR JUNE 9

With Friday night, June 9, elected as the date for the annual banquet and reception to the graduating class to be given by the Portsmouth High School Alumni association, work of arranging details of the affair is being carried on by the executive committee and officers of the association. A meeting held Friday night at the home of Mrs. D. A. Berndt resulted in steps to engage Bode's orchestra to furnish music for the occasion and a decision to permit dancing in the corridor of the school at the close of the banquet, a feature of last year which made a decided hit. Invitations are soon to be issued and an aggressive campaign started to insure a large attendance of the alumni members.

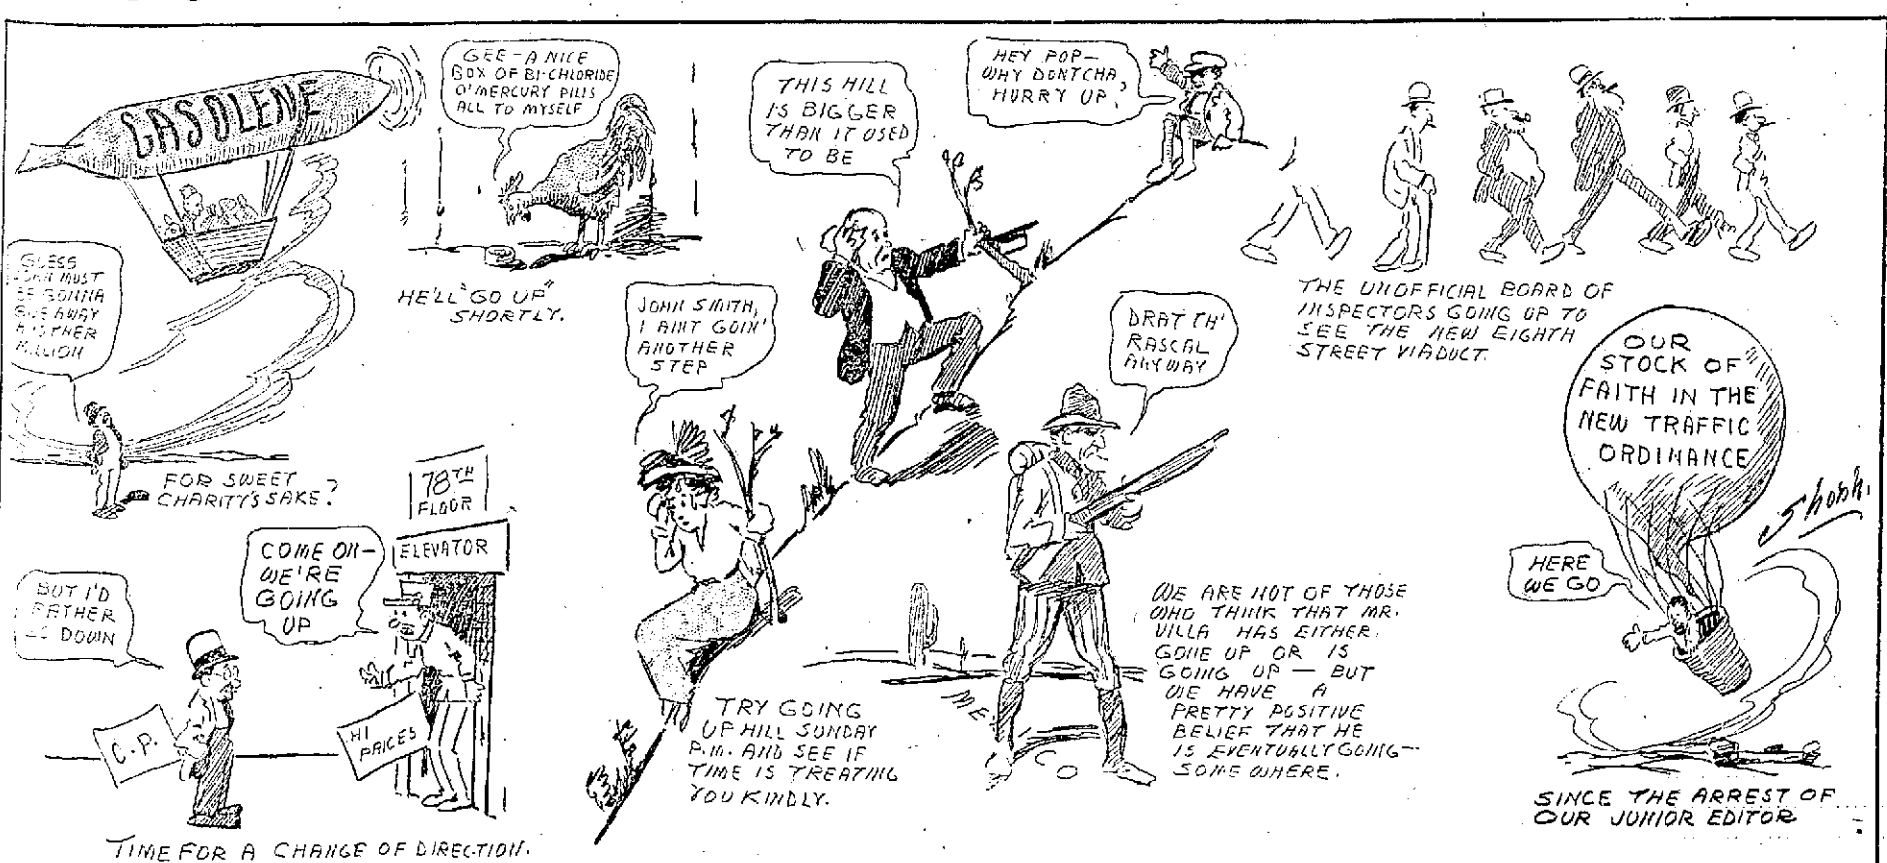

Another meeting of the members directing this year's arrangements will be held next Thursday night at the home of Mrs. Berndt.

much to learn; your disposition is not definite; your ideas of life not fully ripened. What can you bring to the man who wants to marry you except inexperience, and no doubt the childish eagerness for the good time which cannot be untrammelled when you are married. I wonder if you have a mother, and if she loves you dearly, and how she can even tolerate the idea of you assuming the responsibilities of married life. Please listen to one whom you think "has lots of common sense" for believe me, little one, I am advising you honestly, and as though you were my own. Dear Miss Wise—Since you seem to be full of information and have lots of common sense, I wish you would give me your best advice on a very important subject. I want to get married, but am not sure whether that would be the proper thing for a girl of my age to do or not. I can cook and sew and do all kinds of work so I believe I would make a good wife. The man who wants to marry me is a great deal older than I and he could carry the weighty problems involved. Tell me at once what to do as I want to decide Sunday night whether to say yes or no.

Thank for the "lots of common sense." I think a girl of your age should decidedly NOT think of getting married. Where is your desire for childhood and girlhood? How can you imagine settling down to a married life even though you know how to cook and sew? Think of the years of youth that you would sacrifice; years that by right belong to you, and which the Divine Providence meant should be spent happily and in learning the duties of life. SOCIETY

The marriage of Miss Emma Hammerstein and Mr. Albert Emmet was solemnized in St. Peter's church, near Wheelersburg, at 9 a. m., on Wednesday, May 3rd. The bride was a vision of loveliness in her wedding attire. Her dress was of white embroidered organdie, and over it hung her long veil, which was fastened with orange blossoms. Her charming sister, Miss Agnes, was groomed in pink silk, with hat to match, and carried pink carnations. After the beautiful and impressive ceremony the happy couple were showered with congratulations and proceeded to the bride's home, where a grand feast awaited them. The table was beautifully decorated in the pink and white color scheme. A large bouquet of pink and white

roses was at each end of the table, and the large wedding cake in the center. After dinner amusements followed, consisting of music, games, etc., and in the evening a splendid dance place. The Sciotoville orchestra furnished the music. At a late hour the guests departed, wishing the bride and groom all possible happiness. The bride is the eldest daughter of Mr. and Mrs. Charles Hammerstein, of Dogwood Ridge, and is a most charming young lady, with a host of friends. Mr. Emmet, the groom, is an industrious young man, who works at the terminals. The newly wedded couple were the recipients of many useful gifts from

their friends and relatives whom they had invited.
Those present were Mr. Charles Hammerstein and family, Mr. Albert Emmet, Oscar Emmet, Mrs. George Emmet, Father Corey, Mr. John Sommer, Emma Sommer, Mr. and Mrs. John Fritz, Miss Hazel Fritz, Mr. and Mrs. Harry Fisher, Will Teichman, Katherine Fisher, Anna Louise Fisher, Mr. Jacob Bauer, Mr. and Mrs. Philip Schwamberger and children, Lucile, Wilson and Evelyn, Mr. and Mrs. Conrad Lang, Elizabeth Huley, Henry Frischie, Charles Biehl, Mr. and Mrs. Andrew Biehl and children, William, Christian and Raymond, Mr. and Mrs. Frederick

TOWEL INSERTION

FOR FRONT OF CHEMISE

PILLOW CASE

This block pattern makes a most attractive design in filet crochet. As towelings comes in different widths, the small flower on the end may be omitted or others like it added to suit the width desired. The center space is also a matter of choice, depending on the number of letters used in design. Use crochet cotton No. 50.

FOR FRONT OF CHEMISE
This dainty little design, using a small filet square, may be used on chemise or nightgown. The entire design is carried out in satin stitch. The square may be omitted if monogram is preferred. Use mercerized cotton No. 25.

PILLOW CASE
This design for a pillow case is carried out as follows: Last circles in eyelets; small circles in solid dots; stems in outline; leaves in satin stitch. A single letter looks well in the center space. Use mercerized cotton No. 20.

DIRECTIONS FOR TRANSFERRING
In taking off these patterns, lay a piece of impression paper on the material, place the newspaper pattern over this, and with a hard, sharp pencil draw firmly over each line. If the material is sheer it may be laid over the pattern and drawn off with pencil. The design will show through.
No patterns of these designs are available.

"Lights Out," Dentist Before Mayor Kaps

Dr. Harry Hawk, dentist, was in the mayor's court Saturday on a charge of violating the traffic ordinance.

The doctor was charged with having left his machine standing on the west side of the street and also with having his tail lights out. He admitted his guilt but pleaded that it was an oversight and that he would try not to have it occur again, at the same time declaring the ordinance to be a good one and that it ought to be observed. He was given a suspended fine of \$5 and warned to be more careful in the future.

Dr. Edwards' STRENGTH TONIC

This Tonic which Dr. Edwards recommends is designed to restore strength to the weak, strength to the muscles, strength to the mind and strength to the nerves.

It is given to restore to the blood that rich red color which every weak and run-down person must have before he can get well and strong.

That Natural Ruddy Color

Of good health is absent in cases of thin, weak and run-down patients. Their cheeks, lips and eyelids lack that normal blood tint; and the feeling of well-being is not with them. Dr. Edwards' Strength Tonic restores the color to the blood, drives away that sickly greenish pallor of the complexion and supplies fuel for the vital fire in weak and thin people.

Nervous Patients

Dr. Edwards says patients are nervous because they do not have enough rich, red blood to feed the nerves. So he made this Tonic to give the blood just what it needs for that purpose.

Sugar Coated Tablets

Dr. Edwards has his Tonic put in a sugar coated tablet so it will be pleasant to take and will not injure the teeth. Pale, thin, weak and run-down people contract diseases more frequently than well ones. They are liable to have Rheumatism, Neuralgia, Bright's Disease, Nervous Dyspepsia, Insanity, Fevers and Consumption.

Don't Have These

Why not put yourself in shape not to have these diseases by letting Dr. Edwards' Strength Tonic help you out of your nervous and run-down condition? It will build you up right from the start by increasing your appetite, toning up the nervous system, enriching the blood and increasing your vital force. For sale by your druggist.

Predestination -- Divine Election -- Free Grace

The above will be the subject of an intensely interesting FREE BIBLE LECTURE by

PASTOR W. H. SPRING IN TEMPLE THEATRE

(11TH. ST. NEAR LAWSON) SUNDAY, MAY 7TH.

AT 2:30 P. M.

Even the superficial student of the Scriptures has noted that

The Bible teaches "Predestination."

The Bible teaches "Divine Election."

The Bible teaches "Free Grace."

The speaker will show how these beautiful Bible doctrines are at once reasonable, consistent and harmonious when properly understood.

Avoid Spring Colds

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.

Another K. K. Suggestion

Colored citizens eager to contribute to the entertainment and amusement of the public and visitors at the next Korn Carnival, are suggesting that an old-time Georgia cake walk be arranged for. "Pap" Carr, the recognized premier cake walker of this section, is said to be willing to lend his ability along such lines.

Sharman Sent Back To New York Giants

Ralph Sharman, who wore a Portsmouth uniform last year, and who was considered one of the best outfielders who ever broke into this league, failed to break into the regular line up of the Memphis, Southern Association team and has been turned back by this club to the New York Giants. The New York club purchased Sharman for \$300. What disposition the Giants will make of Sharman will no doubt be determined later.

NEW TEAM WELL BALANCED, SAYS MANAGER SPENCER

Pitchers Especially Look Like Real Goods; Infield Is Experiment

"Well, it looks to me like Portsmouth will have another first class, well balanced ball team to represent this city in the Ohio State league this year. The pitching staff looks fine, the outfield has been well cared for and Billhoefer should be one of the best catchers in the circuit this season," Manager Spencer said last night in summing up the strength of the team that will fight for an O. S. pennant under his guidance this season.

"In the outfield two of the regulars, first base and Joe Bush on second. Every fan knows what Bush can do. The other wing of the infield is an experiment. Bauer looks good at short and Malloy has been performing steadily at third. Demore, the new man, is an infielder, and he will get a good tryout. Should we be fortunate enough to develop a fine third sacker and a shortstop I candidly believe that the team this year will be even stronger than Portsmouth's 1915 team. The boys are hustling and are imbued with the winning spirit. That's what it takes to win ball games."

Huntington Is Planning For Magnificent Opening

Huntington, W. Va., May 6.—Elaborate plans for the opening of the baseball season in Huntington were formulated last night at a meeting of the Opening Day Committee in the office of Chief of Police Sam Davis. Col. Geo. S. Wallace was named as marshal of the day. Requests will be sent to the commission to proclaim the opening day, May 12, as a half holiday. All fraternal societies and unions will be urged to attend in a body. The committee announced that Judges T. W. Taylor and J. T. Graham will be requested to adjourn their respective courts for the day.

Cobb And Speaker Are Setting Pace

In the American league Ty Cobb is rapidly moving to the front, ranking just behind Speaker. Detroit batters are well to the front, with Cobb leading at 444 and the Tigers are leading in club hitting with 351. Croney, Cleveland, leads in total bases with 361. He is tied with Felsch of Chicago for home run honors with two and Vench of Detroit and Shotton, St. Louis in runs scored—13 each. Daker, New York,

DOWN "HASBEEN HILL"

They say there isn't any sentiment in baseball, but the whole baseball world is "pulling" for Christy Mathewson. Even the Reds, who used to be his easiest victims, deeply regret his falling strength and vanished skill.

Reds Are Beaten

After acquiring an early lead over the Cardinals, the Rhinelanders from "Zinzinnati" blew up Friday and the Cards copped the game. It was a 9 to 7 slugfest match. The score:

CONWELL IS GOING SOME

Irish Conwell has found Texas league pitchers to his liking this spring. In seven games last week he was up 23 times and hit 10 in 23 at-bats in 10 games, batting .435, with 10 runs scored, 10 hits and 10 runs batted in.

All Teams Strengthened

Charleston, May 6.—Only a few more days and the baseball season will be in full swing. The teams are all strengthened and the fans are looking forward to the season.

Larryups Pi For Keeps

Outfielder Little, who is leading off for Waco and who is a graduate of the Ohio State league, hit at a .400 clip last week for his club. He was up 30 times and made 14 hits, which is surely some consistent work with the big stick.

IT'S THE UMPIRE'S JOB TO SPEED UP PLAYERS AND SHORTEN LEAGUE GAMES; FANS WEARY OF THE DRAGGED-OUT AFFAIRS

There has been more criticism than usual this season of the unnecessary length of ball games and the need of speeding them up. Experiment shows that games can be shortened as much as twenty minutes by keeping the pitcher and catcher on the move and hastening the batter to and from the plate. This work is the umpire's province, and it is hoped there will be improvement seen this summer.

WIEDEMANN TEAM HERE SUNDAY

The strong Wiedemann team of Cincinnati will be the attraction in Millbrook park Sunday. Manager Spencer will send his regular line up against the Cincinnatians and will probably use Ferguson and Jacobus in the box. Demore, the new infielder reported last night and he will be in the game. He came in from Fall River, Mass., and is in fine condition. The game will start at 2:30 and it will be a regular ball game.

Hal Chase Leading

Hal Chase, former star in the American and Federal leagues, is leading the batters and has players of the National, according to averages published today, and including games of last Wednesday. Chase's batting percentage is .438 and is helping to keep Cincinnati in front in team hitting with an average of .270, and his stolen bases number six. Cincinnati has four other batters doing better than .233, among them Home Irish, who also leads the league in total bases with 31 and in runs scored with 13. Edgar and Wilcox of the Cubs are tied for home run honors with two each. The 330 batters of the National are:

This Ruling Is Good One

President Walter Morris of the Texas League has made a special ruling on the difference in the rules between the Texas and Federal leagues. It is to the effect that the Texas league will play a better game than the Federal league, and the Texas league will be allowed to play a better game than the Federal league.

Calhoun Is On The Job

Charles Calhoun, who has been in the Texas league for some time, is now on the job. He is a good player and a good pitcher. He is a good player and a good pitcher. He is a good player and a good pitcher.

JOHNNY BAGGAN MAULING AGATE

Old Johnny Baggan is certainly mauling the bats this year in the Texas league. He is a good player and a good pitcher. He is a good player and a good pitcher. He is a good player and a good pitcher.

Sunday Games

In the newly organized Scioto County league Fullerton will play McMillen at that village Sunday. The Portsmouth Naves play City View on the West Side and West Station plays the Yankees of this city in Siraus park.

Fine Week With Stick

Earl Smith, son of Sheriff Smith, who is with the Omaha team in the Western league made four hits in three games last week, giving him the batting average of .385.

Last Race Says Oldfield

Indianapolis, May 6.—Activities at the Indianapolis Motor Speedway, where the sixth annual automobile race will be staged Sunday, May 30, are increasing daily. A number of new cars are being sent to the track. The race will be held at 2:30 p.m. and will be a regular ball game.

TEN YEARS AGO TODAY

Reds, with Jake Weimer in the box, were defeated by St. Louis, 4 to 1. Weimer allowed three hits. Mike Schrock and Alvin Hart put up a very exhibition in last night in New York. They were too fat to fight. Jack Barry, successful Charley Carr as regular first baseman of the Reds.

HOWDY FAILED TO HIT WEIGHT

Howdy Caton failed to hit his weight last week for Birmingham. He weighs 160 and has been averaging for the week was exactly 160. Howdy was up 20 times and made only four hits. He fielded a perfectly.

Crumbs Brushed Off Sport Table

"Lefty" Russell, bought by Connie Mack from Baltimore for \$12,000, out-fizzled as a pitcher, is back with Baltimore as a first baseman.

Paul Cobb, brother of Ty Cobb, was a free lance today. He was given his unconditional release by the Terre Haute (Ind.) Club.

It looks as though Larry Lalone will have the "just one more great year" he wants. The veteran is playing grand ball.

Chick Gandill, last year with Washington, and Tris Speaker, formerly of the Red Sox, have strengthened Cleveland and put the team on the map.

Chicago, May 6.—The St. Paul American Association club is negotiating for Edlie Mulligan, the Chicago National's shortstop.

The local management has lined up for another player, who is to report in ten days. He is said to carry a high class line of goods with him.

The Detroit American league park is receiving an addition that will practically double its capacity.

Demore, the new infielder hit .245 in the Colonial league last year. He will probably be sent to third base.

Manager Horzog has regained his batting eye. He faced out a homer Friday.

Calcher Schnell signed by Charleston is a friend of Manager Spencer of the local team.

Lincoln, Neb., with .238 leads the Western league in hitting.

Little Rock leads the Southern Association in hitting having a team average of .281.

Cincinnati fight fans are already betting 5 to 4 that Charley White will get a decision over Milburn Saylor when they meet in Redland on Thursday May 28.

DUTY OF CHURCH TO CREATE IDEALS FOR COMMUNITY

(By J. H. Finney)

Just before the European war, the Emperor of Germany was reported saying that the three greatest organizations in the world were: the church, the Standard Oil

Co. and the German army. The church is an organization, ordained of God to promote good, and destroy evil, hence it should have the support of all good people as it has the enmity of many

worldly people. One of the important duties of the church is to create ideals for the community and to educate the people. Since no one arises higher than his ideals, it is necessary

to have high Christian ideals, if the world is to receive a further and more extensive Christian education. Some one has said I am a part of all I come in contact with; every one to a certain

extent comes in contact with the church and is made better because of the church. The church has a right to demand and expect support from every person in sympathy with what the church

stands for. I think it is not only a duty but a privilege to attend church, to get the mind off of business cares, and listen to thoughts and facts that have a Christian uplift.

A regular church goer ought to be better prepared to resist and overcome evil, than a person who never goes to church. Today we need people who do things, and one excellent

thing to do is to attend church regularly. "Rating a man by what he says, is foolishness; by what he wears, is folly; by what he wants, is ridiculous; by what he does, is judgment."

THE ASSOCIATED BIBLE STUDENTS

Brady Hall, Clay Street, Corner Robinson Avenue.

Meetings are held every Sunday in above hall at 9:30 a. m. and 7:30 p. m. Morning service is a study on "The Atonement," and the evening service will be "Thy Kingdom Come," two very interesting subjects, both showing many of the deeper features of God's Plan to bless all the world of mankind.

We will also hold services in "The Temple Theatre," Eleventh street, near Lawson, at 2:30 p. m., when Pastor W. H. Spring will speak on the subject of "Election, Free Grace and Predestination." These are all Bible doctrines, but have all become much misrepresented, some making claims for one doctrine and some for the others. The pastor will give you

the Bible definition of each one and the part each plays in the Divine Plan.

Come out and hear this lecture and you will be glad you heard it. All is Free. No collection taken.

ALLEN CHAPEL A. M. E. CHURCH

John Irvin, Pastor.

Seventh Street.

The general conference of the African Methodist Episcopal church is now in session in Philadelphia, Pa. It has been one hundred years since this church was organized in a blacksmith shop by Richard Allen, the founder of this church.

This church has proven beyond the shadow of a doubt the negro is capable of managing and controlling as other race varieties. For 100 years this church has been in operation and her influence for good is felt in every community. Two bishops have died since the rise of the general conference, Derrick and Turner. The church has grown and it is necessary to elect four new bishops and a woman as editor of the Voice of Missions, in recognition of the great work done by the women of our church.

9 a. m., Sunday school, Rev. Grant Metcalf, superintendent.

10:30, preaching by the pastor.

7:30, preaching by the pastor.

The district conference will convene at Third Church, Columbus, May 30 to June 2nd. Rev. Metcalf and Charles Johnson are the delegates. Rev. Irvin will preach the annual sermon.

Lesson VI.—Second Quarter,

May 7, 1916.

THE INTERNATIONAL SERIES.

Text of the Lesson, Acts xi, 19-26; xiii, 1-12.—Memory Verses, xiii, 2, 4. Golden Text, Matt. xxviii, 19.—Commentary Prepared by Rev. D. M. Stearns.

Before the Lord Jesus visibly ascended to heaven after He had appeared many times to His disciples during those forty days between His resurrection and ascension and spoke so often of the things pertaining to the kingdom of God He commanded His disciples to go and reach all nations what He had taught them; to go into all the world and preach the gospel to every creature; to preach repentance and remission of sins in His name among all nations. And He sent them as the Father had sent Him, in the power of the Holy Spirit that people might believe that Jesus is the Christ, the Son of God, and believing, have life through His name (Acts 1:3; Matt. xxviii, 19, 20; Mark xvi, 15; Luke xxiv, 47; John xx, 21, 23).

The disciples were slow to grasp this command, and the Lord permitted Stephen to be killed, a persecution of the saints to follow, and the believers thus scattered abroad went everywhere preaching the word, but only to the Jews. Some went as far as Antioch, and everywhere they preached the Lord Jesus, and the hand of the Lord being with them a great number believed and turned unto the Lord (verses 19-21). In the chapters which we have already studied in this book of the Acts of a risen and ascended Christ through His witnesses we have seen how Peter and John and Stephen and Philip and Paul, and now these scattered abroad ones all have the same topic—namely, Jesus Christ crucified, risen, ascended and returning to set up His kingdom. And as they thus speak of Him the Spirit inclines many to turn to Him, and they become joined to or added to the Lord. Thus His body, the church, began to grow, as the word of God grew and multiplied (xiii, 24). The one only calling of the believers is to proclaim Jesus Christ and who people to Him, that His Eve may be builded and the marriage of the Lamb come, for only after that will His kingdom come.

If denominations and societies and the so called boards could stick their self seeking and see and seek Jesus only and His kingdom so much more might they see of His good hand upon them.

When the brethren at Jerusalem heard of the good work at Antioch they sent Barnabas, true son of consolation, full of the Holy Ghost and of faith, and when he came and saw what the grace of God had done he was glad. The grace of our Lord Jesus Christ is briefly but fully set forth in I Cor. xiii, 9, which with Rom. vii, 24; Eph. ii, 8, 9; Tit. ii, 11; III, 47, and other passages teach us that the benefits of the finished work of Jesus Christ are for Jew and gentile alike, without exception, and that without any works of ours or any merit whatever on our part, any and every sinner truly receiving Jesus Christ becomes a part of Him, has in him eternal redemption and may become a messenger to win others to Him.

Barnabas and Saul, having been sent twelve apostles out of the committee of seven, but just a Levite of the country of Cyprus, who became a true believer and humbled himself and his possessions honestly over to the Lord for His services (Acts iv, 36, 37). It is not necessary to be on the board or on the committee nor an elder or a deacon or a trustee, but it is necessary to be saved by grace and then to be in His hand for His pleasure, seeing no man but Jesus only. So Barnabas exhorted the believers to cleave unto the Lord with purpose of heart (verses 22-24), and much people was added unto the Lord. May we see Jesus only and sing, "Ever, only, all for Thee." The last we heard of Saul was that he had returned to Tarsus (chapter ix, 27-30), but Barnabas evidently has him come to his heart, for he went to Tarsus and found him and brought him to Antioch and for a whole year taught the believers there more fully of Jesus Christ (verses 25, 26). Either as a term of honor or reproach believers were first called Christians at Antioch. The prefix "hau" may signify nothing more than "belonging to," but I like the suggestion of some one that a Christian is one who can truly say, "Christ is all," and, as the letters of the prefix suggest, "I am nothing."

Barnabas and Saul, having been sent to Jerusalem with an offering from the saints at Antioch, in due time returned and continued to minister to the Lord there (chapter x, 27-30; 23; 24). As they thus continued the Holy Ghost called for the separation of Barnabas and Saul for a special work to which He had called them. So with fasting and prayer and laying on of hands they were sent forth by the Holy Ghost and preached the word of God at Salamis, in Cyprus. Saul had, no doubt, been a good witness at Tarsus, and now Barnabas has the privilege in his native island. Note that John Mark sister's son to Barnabas was with them (verse 5; Col. 4:10). The principal thing to note is that all was under the control of the Holy Spirit (verses 2, 4, 9), always the director in all that is truly the work of the Lord. All true ministry is to be in the Lord, to glorify Him (I Pet. iv, 11).

Report Reflects Splendid Work Associated Charities Are Doing

Since the warmer days have come and work is available for men and women, applicants at the Associated Charities have been lessened. However, during the month of April forty-seven calls were received.

Those who received aid were deserted women with families, whose income is very small; widows, and families of sickness. Coal, groceries, new shoes and new garments were given to the amount of \$22.48, and 187 worn garments were given away.

Through the Associated Charities free employment office, 15 women secured work, and through the homes that employed them other work was found for them. This resulted from a notice so kindly published by The Times.

At the time of the death of little Mary Greig and Mrs. Estel; the greater part of three days was given by the deaconess in looking after the interests of the family.

One case of blindness discovered was taken to Dr. Mytinger who is giving careful attention to the boy free of charge.

Legal aid was secured in cases of desertion. One man has returned to his family and is working to support them.

One worthy family that received help a number of times last winter also a year ago, was supplied with clothing, much of it new, and assisted in moving to relatives in West Virginia where the head of the family will have permanent employment.

One family was warranted to the county for relief.

Mrs. Robert Copley, a woman blind in one eye, who applied for help last August and who gave a false address, applied again in April, giving the same name but telling a different story.

EVERYBODY IS INVITED TO FREE COOKING SCHOOL

Clubs Are Urged To Attend In A Body; Real Expert To Give All Of The Lectures

PROGRAM FOR MONDAY AFTERNOON

Subject: "Food and Its Functions"
 Menu:
 Macaroni American
 Cheese Sauce
 Alexander Salad
 Mayonnaise and Boiled Dressing
 Betty Lane Cake
 Boiled Icing

The housewives and young ladies of Portsmouth are promised a week of rare experience, beginning Monday, May 8, when Miss Emma Hanko, a delightfully interesting expert upon domestic science will open a series of lectures and demonstrations of the culinary art, at Distel's Hall, Seventh and Chillicothe streets. The first lecture will be Monday afternoon at two thirty o'clock. The demonstrations and lectures are given under the auspices of the Daily Times and will be free to everyone desiring to attend.

By having these series of lectures and demonstrations, every housewife and young lady in the city will be given the chance to see what developments have been accomplished in the science of preparing and selecting the food stuffs.

Miss Hanko arrived in Portsmouth Saturday and is now preparing her apparatus for the demonstrations and lectures which she will give at Distel's hall next week. She spends forty weeks on the road in the interests of better cooking and better food. During the remainder of the year she gives lectures at Atlantic City. She is a graduate from the Pratt Institute, Brooklyn, N. Y., and has been engaged in the study of domestic science for many years.

How inexpensive and wholesome meals may be efficiently prepared will be taught and demonstrated by Miss Hanko when she opens the "Times Better Food School" at Kendall hall Monday.

Sessions will be held every afternoon at two thirty o'clock and will continue for two hours. All are urged to bring their pencils and notebooks to jot down information which Miss Hanko will furnish. But one night session will be held, Tuesday evening at seven thirty o'clock Miss Hanko will talk upon "The Business of Housekeeping," in which she will give valuable suggestions. Demonstrations of recipes and a short lecture on "Baking Ice Cream" will also be given.

Those great creamy, delectable cakes that fairly melt in your mouth; the kind that are always remembered and desired by everyone will be baked by Miss Hanko, and those who attend her classes will be taught how to prepare the materials and how to bring the "finished product" from the oven a "poem in culinary art."

Monday will be "Cake Day" and those who attend will surely learn many valuable things about cooking.

"Food and Its Functions" will be the topic of the first lecture delivered by Miss Hanko. She will explain the importance of food and will demonstrate the correct

and incorrect of its preparation. Cakes and pastry will be thoroughly demonstrated.

Then on Tuesday afternoon she will deliver a lecture on "Food Standards." Practical demonstrations of the preparation of short cakes will be given. The advantages and disadvantages of the fireless cooker will be explained and demonstrated. This will be a particularly interesting afternoon.

On Tuesday evening a special session will be held at which valuable business hints to wives and young ladies will be given. "Bread Baking" will be featured Wednesday and those who have temporarily lost the art of producing those great flaky loaves or those dainty biscuits, should not miss this lecture. All sorts of methods, recipes and demonstrations will be given. The "Dinner Menu" will be the topic of the Thursday session and here the selection of foods will be explained and demonstrated.

Then on Friday, the closing session, Miss Hanko will demonstrate various recipes which will be interesting to every one who believes in better and more efficient culinary art.

Miss Hanko's services are continually in demand and it is difficult to secure her for an engagement. But the Times made arrangements with her to conduct the "Better Food School" for the benefit of the housewives and young ladies of Portsmouth.

Remember, everyone is invited to attend, and there will be no charge. Everything is absolutely free.

SPRING MEDICINE

Hood's Sarsaparilla, the Great Blood Purifier, is the Best.

Spring sickness comes in some degree to every man, woman and child in our climate. It is that run-down condition of the system that results from impure, impoverished, debilitated blood.

It is marked by loss of appetite and that tired feeling and in many cases by some form of eruption. The best way to treat spring sickness is to take Hood's Sarsaparilla.

This old reliable family medicine purifies, enriches and revitalizes the blood. It is an all-the-year-round alternative and tonic, and is absolutely the best spring medicine.

Get your blood in good condition at once—now. Delay may be dangerous. Ask your druggist for Hood's Sarsaparilla, and insist on having it, for nothing else can take its place.

SCIOTOVILLE AND WHEELERSBURG

Sciotoville council held its first regular meeting Friday evening in the Odd Fellows building on Main street. The council is alive and doing and will take steps to make the village one of the best towns in this part of the state, judging from the work started at last night's session. Steps are being taken for the lease of the present meeting place until a public building is erected.

The solicitor was instructed to bring in ordinances prohibiting the riding of bicycles on sidewalks and for the establishment of a curfew. These ordinances will be passed at the next meeting.

The village is also to have uniform sidewalks, this being the first step taken toward improvement of the village. A street committee composed of Loren Vost, chairman, S. F. Johnson and Jacob Ellsesser was named to look after all street work. The committee's first steps will be to employ an engineer who will establish levels for sidewalks. Cement sidewalks will be laid. A committee composed of S. F. Johnson, K. N. Nagel and T. Q. Shump was named to select a place for a public garbage dump. The next regular meeting will be held on Friday, May 19.

Mrs. Zora Todd of Broadway street, is suffering with a nervous breakdown.

George Lemon and P. A. Higgins of Main street, were business visitors to Wheelersburg, Friday.

Mr. and Mrs. Horace Beloit of Market street, left Friday for Columbus, where they will spend several days.

The Misses Katie Rowley, Rose Zwickert and Martha Bentley took the teachers' examination in Portsmouth, Saturday.

Miss Alma Swickert of Dogwood Ridge, is visiting her sister and brother-in-law, Mr. and Mrs. Karl Duvendek of Short street.

George Lemon, contractor, is erecting an eight room two story frame house for Ernest Rowley of Main street.

Sciotoville Camp M. W. of A. met in regular weekly session Friday evening. After the regular routine of business, three candidates, Charles Kimmiman, George Evans and Ernest Kinker, were initiated.

WHEELERSBURG

Mrs. M. E. Mackoy and daughter, Mrs. B. P. Brightwell, of Wheelersburg, are visiting relatives at Edgington, Ky., for a few days.

The King's Sons and Daughters of the M. E. church met at the home of Miss Bess Aeth Friday evening.

C. E. Fritz, grocer of Wheelersburg, was a visitor to Pottsville, Friday.

May Day exercises held by pupils of the Wheelersburg grade and high schools Friday far eclipsed the May Day celebration held in 1915. The teachers of the schools worked hard and were more than pleased when the celebration Friday turned out to be a grand success from the opening of the regular school exercises Friday morning to the closing event of the program in the afternoon.

Many parents visited the school in the morning to see how the routine duties of the class rooms were carried out. A room in the school was given over to an exhibition of all kinds of school work which was admired by the parents. The exhibit consisted of manuscripts, drawings, mountings and collections of woods, grains and ores.

The outdoor exercises started at one o'clock on Mackay hill near the village. Large numbers came from the vicinity of the village to attend the celebration which has been made an annual affair. The afternoon's program was opened with a May Day pageant, which was followed by the crowning of the May Queen. A flower and wand drill by first and second grade pupils was followed by a calisthenic drill by third and fourth grade pupils. The May Pole dance, the chief event of the day, was ably taken care of by pupils of the fifth and sixth grade.

A folk dance "How Do You Do" was given by seventh and eighth grade pupils. The three dances and drills by high school pupils received considerable praise from the large number present.

Adams County Teacher Jailed On Drunk Charge

West Union, May 6.—W. P. Richmond, county school examiner and district superintendent, spent last night in the Manchester jail, charged with intoxication.

His family appealed to Representative Lovett to have him released. Lovett, who is president of the Law and Order League, visited Richmond in his cell, but refused to act as his bondsman.

Richmond has been active in a bitter political fight and says this is the game of his enemies. Two years ago he was taken from the West Union fair grounds by officers and spent the night in the county jail, charged with intoxication, but the case was dismissed on a technical matter. He will have a hearing Monday morning before the mayor. He is regarded as an able instructor.

German B. & L. To Open A Branch At Sciotoville

Believing that Sciotoville is destined to become one of the most thriving towns in the county and that it will not be long until it will number at least 3000 inhabitants, the Portsmouth German Building and Loan Association Co., Edgar E. Draper, secretary, has decided to open a branch office in the little metropolis. This company has leased office space, temporarily, on the west side of Jackson street, and hopes to be ready for business by not later than the middle of next week. The company hopes to be of considerable help to those who desire to build new houses. Exact hours for the office will be an open question within a few days.

Committee Is Named To Arrange Banquet

Three applications were received at the regular meeting of the Daughters of America Friday evening for the contest banquet.

The application of John Morgan was favorably balloted upon. W. V. Pack, William Taylor and Mae Coleman were initiated. A banquet committee composed of

Emma Daggy, Mary E. Boyles, Pearl Dixon, and Belle Stewart were named to make all arrangements for the contest banquet which is to be given next Friday evening by the Links to the Blues. The Jr. O. U. A. M. band will be present and a program will be rendered.

NEW BOSTON

Through a deal recently closed, Talmadge Jones purchased the Adams Bros. bakery on Stanton avenue and Allen Adams' beautiful bungalow home on West Stanton avenue. The consideration was said to be \$10,000. Jones is an experienced baker, having been in the employ of Adams Bros. for several years. He came from Mt. Joy, O. He will move into the bungalow and will rent

his property on West Green street. George Adams of Adams Bros., accompanied by his wife, have left for Colorado for her health.

Allen Adams will continue to operate their splendid bakery on Olmsted street, city.

Council will meet in called session Monday evening when the matter of widening West avenue and Olmsted avenue will be taken up. Members of the Peoples Realty Company will be present and the company and village will come to some understanding regarding the grade of Gallia street through Peckles addition.

Fred Bolander, well known farmer of Wait's Station, was in the village on business, Saturday. There was a free scramble for apples about ten o'clock Saturday morning when a barrel of Rome Beauties rolled from a Stocking truck as it rounded the corner of Harrisonville avenue and Gallia street. John Carver and John Henson assisted in recovering most of the apples and loaded them back onto the truck.

We are glad to announce to our customers that as far as we can see at this time, we will be able to maintain last year's price for ice. While many items of cost have increased, unless further cost increases, price will be 40c per hundred pounds.

We offer a liberal discount to our customers buying coupon books; we issue a \$2.00 book and allow a cash discount of 25c, and a \$4.00 book with a 50c cash discount. No discount is allowed except for cash on delivery of the books. We offer this liberal discount to induce our customers to buy the coupon books rather than to pay cash, as our experience is that men will deliver more ice when the coupon is to be received rather than the inconvenience of being prepared to make change.

We are anxious to serve the trade promptly and ask you to assist us. If one man fails to deliver promptly, call either phone No. 10. We will be glad to explain and correct any errors.

Wholesale prices will be made to large consumers as usual.

Local German's View Of European War

(Written by Louis F. Korth, former Editor of The Correspondent.)

Friday, May 5, 1916.

Kut-el-Amara has fallen. This is the most important war news since Gallipoli. Three months ago Premier Asquith announced in the British Parliament that Baghdad would soon be in the hands of the British, which would have an immense influence upon the Mohammedans in Arabia, Persia and Egypt, as the British press supplemented the declaration. And Admiralty Lord (Chatham) was sure of a victory on the Gallipoli peninsula, that would open the way to Constantinople.

When the Allies had to give up the peninsula they consoled themselves with the hope that if Kut held out the British with the Russians, coming from Armenia, would advance upon Constantinople through Anatolia. But neither General Lakes different relief expeditions from the Persian Gulf nor the Russian expedition, which a month ago was said to be nearing the Upper Tigris, came to save Kut and General Townsend with four other generals, 510 officers, over 13,000 men, artillery, material and a war chest with five million dollars had to surrender to the Turkish commander Halil Pasha on the Pasha's terms.

The British garrison held Kut full four months and made several unsuccessful sorties in conjunction with as many attacks of General Aylmer and General Gorringe upon the besiegers' rear but its munition, provisions and medical stores finally gave out and a few weeks ago a supply steamer from Basra, the last hope, was sunk by the Turks, which forced the surrender.

The British Baghdad expedition under Sir Percy Lake advanced last fall from Basra, some fifty miles north of the Persian Gulf, along the Tigris and after small encounters got to Ctesiphon, just south of Baghdad, where they had an engagement with the Turkish advance posts, which was cried out as a great victory in London, but in the battle that followed they were thoroughly defeated and had to retreat to Kut-el-Amara, which General Townsend was to hold until Commander Lake would come to his relief with a new Anglo-Indian army. This army has since been badly cut up by the Turks, principally at Selah, and what is left of it retreated down the river to Samarra, where it is in fortified position in a narrow defile between the big swamps of Um-el-Brahm and Suwayh, which cover its flanks, so that only a frontal attack with heavy artillery is feasible, according to London versions. Other reports say that the British are in retreat to Korna.

Military experts look upon Kut as a breakdown of the British at the gates of India and a dangerous loss of prestige to them in the Mohammedan world, especially in Persia and Arabia.

The British losses since the beginning of the Iraq campaign are estimated at 50,000 men. London usually blames the failure on bad strategy and mismanagement, but discounts the military effects. They have forgotten what Lord Greve, president of the Privy Council, said last December in the House of Lords after Ctesiphon, namely: "The taking of Baghdad would have been a great political and military event."

The Turks conducted the Mesopotamian campaign without German military help, but it was planned by old Field Marshal Koller von der Goltz, the late Turkish general chief of staff and organizer of the new Turkish army, who did not live to see its success. He died a month ago in a field hospital at Baghdad, after a three days' inspection of the Turkish works in the saddle, at the age of eighty-two.

The Germans built the railroad

to Baghdad, which has proved of great strategic value to the Turks.

The Turkish war office in a second report of the British defeat at Quatia (El Katie oasis) 25 miles east of the Suez Canal states that four companies of British cavalry, 800 men, were completely annihilated. This is the first intimation that larger Turkish forces are nearing the canal.

Constantinople reports that the British in Bender-Bushir on the gulf, which is the port of the Persian petroleum fields of Arbistan, are surrounded by Persian insurgents. A sortie has been unsuccessful.

After Paris for the third or fourth time has brought the German offensive around Verdun to a complete standstill it now is engaged in a big French counter-offensive and reports the recapture of trenches at Douaumont and L'Homme Mort. Of the first the German general staff in its Tuesday's report says: "French attacks east of the Meuse (Douaumont) were repulsed in a fierce struggle at close quarters yesterday, which lasted for several hours." The L'Homme Mort affair is of interest only as an acknowledgment by the French that the hill really is in German hands, which strenuously has been denied for a month. The French claim a gain of 1,000 yards first line trenches, while the Germans say all attacks broke down under their fire.

Berlin reports more gain of ground at Liencourt in the same region.

In Artois the Germans have kept the British on the jump by a restless mine activity during the last two weeks.

The Verdun-Paris railroad near Snippen and part of the railroad works at Meusehold near Verdun were badly damaged by German fire and communication interrupted, as Berlin asserts, which does not indicate that the Germans have stopped operations on the Meuse. In fact, Paris reports from flyer observations the massing of heavy reserves and the replenishment of munition supplies behind the German front.

Competent German military critics are of the opinion that General Petain's furious counter-offensive at Verdun, in which so far 38 divisions have participated, cause him more loss than gain. His troops have been incessantly on the move and in action for nearly sixty days, which wears out the young recruits.

The Russians have not yet come to the front. Paris reports a new ship load at Marseilles every day. In the first batch, brought by a flotilla, 5,000 were counted. Another division is coming, Berlin learns. They are fitted out in France.

A Swiss military expert at the Verdun front says that the Germans by occupying a circuit of over 100 miles northeast and northwest of Verdun and on the Woeyve plain have crowded the French into their inner lines where they are exposed to continuous concentric and effective artillery fire while their own guns have to search for the Germans who have the advantage of commanding heights and plenty of elbow room for deploy, which the French are lacking.

On the Russian-Baltic front, Hindenburg has been using the sledge hammer again. By a massed attack south of the Narocz Lake he took all the Russian positions between Stanarosse and Stachovec in a length of three miles with the bayonet without artillery preparation and 5,600 prisoners, three big guns and 28 machine guns besides considerable war material. The Russians made a counter-attack to retake the lost positions but failed with heavy loss.

Italian military critics talk openly about the probability of a change from the defensive to the offensive on the part of the Austrians in Tyrol since the forced withdrawal of the Italians from Caldormazzo to Roncoigno in the Sugana Valley (Tyrol), representing it as a strategic movement to a better position. The Austrians now have the Col di Lana on the divide between the Carinthian and Tyrolean Alps under heavy Skoda fire.

The British Admiralty has begun an enquiry into the sinking of the battleship Russell on the Mediterranean last week with the loss of 127 of the crew. Admiral Freeman, who was on board but saved, charges the navigation officer with not following the chart. The ship was built in 1903 and cost \$5,000,000. It is a total loss. The admiralty does not state where the battle went down, but it is supposed that it happened near the mouth of the Suez Canal, where an English fleet is cruising and submarines are busy.

The short-lived Irish revolution has collapsed where it started, in Dublin. It did not spread over all Ireland like wild-fire, as was expected. To call it the riot of a mob, however is a London misrepresentation, because it was the exploit of a semi-military organization (Sinn Fein) for the liberation of Ireland and the establishment of an Irish republic, at least in five counties.

A regular volunteer army was formed, with schooled officers, wellarmed, equipped and drilled, which was waiting for the call of the leaders. That call seems to have been premature or was precipitated by the detection of a plan to disarm and disrupt the volunteers and then extend conscription to Ireland, as is claimed.

The leaders say: "It was a legitimate pro-Irish movement under the defense of the realm and the German propaganda had nothing to do with it. Not a penny of German money reached Ireland, and the German arms were paid for from funds raised in Ireland."

Their failure is partly laid to the alleged sinking of a German steamer with arms on the Irish coast, but mismanagement on the part of the leaders, eight of them have been shot after a drum court martial, probably had most to do with it. Thousands are now in prison and will be tried for high treason.

In Dublin much property has been destroyed by bombardment of the military and the never missing mob in the wake of revolt. The number of dead is given at 500, of wounded at 1,500. Many women and children were killed. Four Courts and Stephens Green, the finest buildings of Dublin, are in ashes.

In a letter to the New York Journal a war critic, at present with the Allies at Saloniki, calls the occupation of that town and peninsula a great strategic blunder. He says the Allies are corked up as the British were at Kut and a big force is being held inactive by the Bulgars that could just now be used to good advantage at Verdun.

The British-French fleet has blockaded the Greek island of Thasos. The Allies want to force King Constantine into open action against them so they have an excuse for occupying all Greek ports, is the opinion in Athens. In the Greek part of Southern Albania, lately annexed with the silent consent of the Central Powers, civil administration has been established by the Athens government.

Greece has peremptorily re-

fused to permit the transit of the reorganized remnants of the fugitive Serbian army from Corfu, to where they were brought from Duleigno last winter, to Saloniki over the Larissa-Piraeus railroad.

Premier Skoulondis declared that the Greek army would rather blow up the railroad bridges than allow the Allies to pass over them.

It is now a moral certainty that Rumania will not join the Allies. New big contracts for delivery of grain to the Central Powers have been made by Berlin and Vienna with Bucharest and the embargo of industrial products, which have all but disappeared from the Rumanian market, has been lifted by the former, which is a great boon to the Rumanians, as prices for them had risen sky high. Petrograd is angered over the discovery that large quantities of Russian cereals from Bessarabia and the Ukraine have gone to Rumania for trans-shipment to Austria and Germany.

The Allies persist in their claim that the German army has lost 2½ million men during the war. Germany is the only one of the warring powers which publishes complete records of losses, monthly lists of dead, wounded and missing. If the Allies have followed them in their generalization they have neglected to state that over 90 per cent of the wounded have been healed and sent back to the front and only 1½ per cent have died, as the surgeon-general of the German army, Dr. Scherrenberg, stated at the late convention of the National Chiropractic Society. That puts a different face upon the matter. An authority says: "By safe calculation Germany can put 10 million men into the field if it comes to the worst."

London reports May day riots in Berlin and Leipzig during which a number of people are said to have been shot. Berlin only speaks of a demonstration there and the arrest of the radical socialist leader, Dr. Liebknecht. What makes one suspicious of the London reports is the fact that they turn up at regular intervals (whenever English stock goes down) and just as regularly prove to be fakes.

The president of the German Imperial Bank states that the last war loan was more of a people's loan than any of the others. Subscriptions from single individuals were 5,300,000 against 1,002,000 who signed for the first loan. The schools of the Empire alone subscribed 66 millions. While financial institutions subscribed 22 per cent of the first loan they only got 4 1-5 per cent of the present one.

The German government has issued a White Book giving the dates and details of when, where and how German submarines were rammed or fired upon by Allied merchantmen and fac-similes of the orders of conduct for the latter by the British Admiralty.

The leader of the democratic faction in the Russian Duma, Prof. Paul Miljutin, who has been to London, stated in a Stockholm interview, that his mission was to establish "better relations" between England and Russia. The latter was sacrificing her youth and demanding recognition of her services in the way of sufficient financial help.

The correspondent of a prominent German-American paper in Berlin cables that an arrangement between Washington and Germany in the submarine question would bring peace through American mediation. The United States would have much to say in the peace conference if they

would not tie Germany's hands in bringing the war to a speedy finish, the informant says.

The British shipping world is very much wrought up over the report that another German raider has slipped out with the fleet which attacked Lowestoft and Yarmouth last week and is now on the high seas. War risk insurance has stiffened considerably in consequence.

Sweden is perfecting its artillery and engineering service. The Riksdag has granted a credit of 60 million Kroners for that purpose.

A Greek paper in Saloniki states that a German submarine has torpedoed a large troop transport of the Allies but does not give the details.

A cable from Cherbourg (French coast) says that the Creuzot gun works in that place were destroyed by fire.

The Spaniards have started a liner service between Dogo and New York.

According to British estimates not less than 736 merchant vessels with a tonnage of over two millions have been sunk since beginning of the war.

Berlin correspondents claim to know that the resignation of Admiral von Tirpitz was caused by differences between him and Chancellor von Hofweg over the annexation question. Tirpitz is for relentless prosecution of the submarine war and the keeping of all conquered territory, the chancellor for a more conservative course.

The Philadelphia Bazar for the German-Austrian Red Cross has netted over \$200,000.

The crew of the Dutch steamer Berkelstroom, which was at Harvij during the German raid on Lowestoft, says that the British cruiser Penelope limped disabled into that harbor.

In German Southwest Africa the rainy season has set in and the British operations have come to a temporary halt.

Dr. Cornelius from Berea, Ky., who was in the Red Cross service at Uskab, Serbia, estimates that half a million people have died of epidemics in that unhappy country in the last two years. Of the 62,000 Austrian prisoners, which the Serbians took during the first stages of the war, two-thirds succumbed to typhus. This terrible disease has taken its place. Medical help and supplies are needed.

It is significant that the belligerents in the midst of war are already shaping plans for international trade after the war. In England commercial bodies with the Board of Trade are considering a national program for foreign trade, in France similar activities are in progress, Germany, too, is making her preparations, as an address of the president of the Hamburg chambers of commerce shows. Today they are fighting each other. After the war they will all be fighting the lucky Uncle Sam, who has their dollars. Why then should he join either of them in their war game?

The United States Department of Commerce says that American ship building leads British. During the first three months of 1916 American yards launched 173 merchant vessels, while British yards, according to Lloyd's, only launched 69. The war seems to be stimulating American industries.

At the annual session of the

Citizens Will Have To Come To Rescue Of Children's Home

Plan To Borrow At Least \$10,000; Changes Must Be Made At Home

At a special meeting of the directors of the local Board of Trade, Friday afternoon at the Masonic Temple, a resolution was passed at the suggestion of the county commissioners and the trustees of the Scioto County Children's Home, instructing Secretary R. E. Thomas, of the Board of Trade and the Business Men's Association, and Frank M. Baggs, secretary of the Employers' Association to secure not less than twenty-five Portsmouth business men to endorse a note for not more than \$10,000, which will be made subject to the order of the trustees of the Children's Home; also that any or all money borrowed upon the face of the collateral is to be paid not later than July 1, 1917. In the meantime arrangements are to be made to have legislature pay the money borrowed on the note or have the budget commission allow sufficient funds for the Children's Home on the next appropriation to pay the money borrowed. The money thus obtained will be used to pay the operating expenses of the Home until the February (1917) tax distribution.

This turn of affairs was brought about by the lack of money in the Children's Home fund. At the last tax distribution, the funds were then overdrawn by about eleven hundred dollars and County Auditor S. D. Eckhardt stopped payment of vouchers issued.

George D. Selby, president of the board of trustees of the Children's Home, stated that John Feebles and himself went to Columbus Thursday and held a long conference with Attorney General Edward C. Turner and his assistant, Judge W. H. Middleton, relative to raising funds to operate the home until the 1917 tax appropriation could be obtained. The attorney general held that there was no legal way to raise the funds unless the citizens of Portsmouth co-operated and borrowed money until the money from the taxes could be realized.

Mr. Selby then asked if the members of the board of trustees could personally endorse notes and the attorney general suggested that the notes be endorsed by individual citizens not connected with the county commissioners or the trustees.

Adam Frick, who was formerly a member of the Ohio legislature, said he would suggest two possible ways to obtain the money; first, that a committee go before the 1917 legislature and ask for an enabling appropriation, and second, that the budget commission be asked for an amount sufficient to cover the shortage of this year. Then in the meantime, for several citizens to endorse a note for not more than the amount anticipated by the trustees for the coming year.

Frank M. Baggs, superintendent of the Home, said that the cost of maintaining the Home was gradually increasing from year to year. "Since 1910, the Children's Home has spent \$35,804 for maintenance and has received \$26,938 from taxes, leaving a deficit of \$8,868," said Mr. Baggs. In February the Children's Home fund was overdrawn \$1157.63, according to the speaker and the county authorities stopped payment on the vouchers.

It was then explained by the superintendent that the Children's Home had been condemned by Mr. Williams, of the state welfare department on account of inadequate facilities and these were enumerated. In brief, the speaker said there was considerable dental work to be done for the children; there was need of new equipment as children were sleeping in the halls, three in a bed; that a bread mixer was needed as it was necessary to purchase \$10 worth of bread a month; that a washing machine was needed to launder the children's clothing; that the water heating plant was inadequate, making it impossible to properly bathe the children; and that the home needed a "coughing" hospital. Most of the foregoing were mentioned in Mr. Williams' report on the institution published recently.

In concluding, Mr. Baggs said it would require between \$900 and \$10,000 to operate until next year.

Prosecuting Attorney Jos. T. Micklethwait suggested that the commissioners obtain the waivers of the rights of the county board of education to the extra money in the dog fund which will amount to about \$2,000 and apply that in liquidating the indebtedness and aid in paying the operating expenses.

The resolution passed asking the secretaries to obtain 25 or more endorsers to a note, means nothing more than that these men, who sign the document, guarantee that the money borrowed will be paid, should the commissioners be unable to obtain it from the legislature or the budget commission. The entire amount will not be borrowed at once, but will be obtained as needed.

This is the first time in the history of Scioto county where a county institution had to appeal to the citizens to guarantee money borrowed to pay the running expenses of a public institution.

Nature's Great Remedy

This famous water is pumped from the earth 1,100 feet deep. It is a greenish color, entirely free from organic matter with wonderful medicinal properties. Rheumatism, Bright's Disease, Catarrh, Diabetes, Stomach, Kidney, Liver and Bladder troubles have met their Waterloo by drinking this water just as it is drawn from the earth. You can get the same results by drinking it at your home, if it is not convenient for you to come to the springs, as you can get from your druggist. If he hasn't it, have him order it for you, or you can order it yourself direct from the springs.

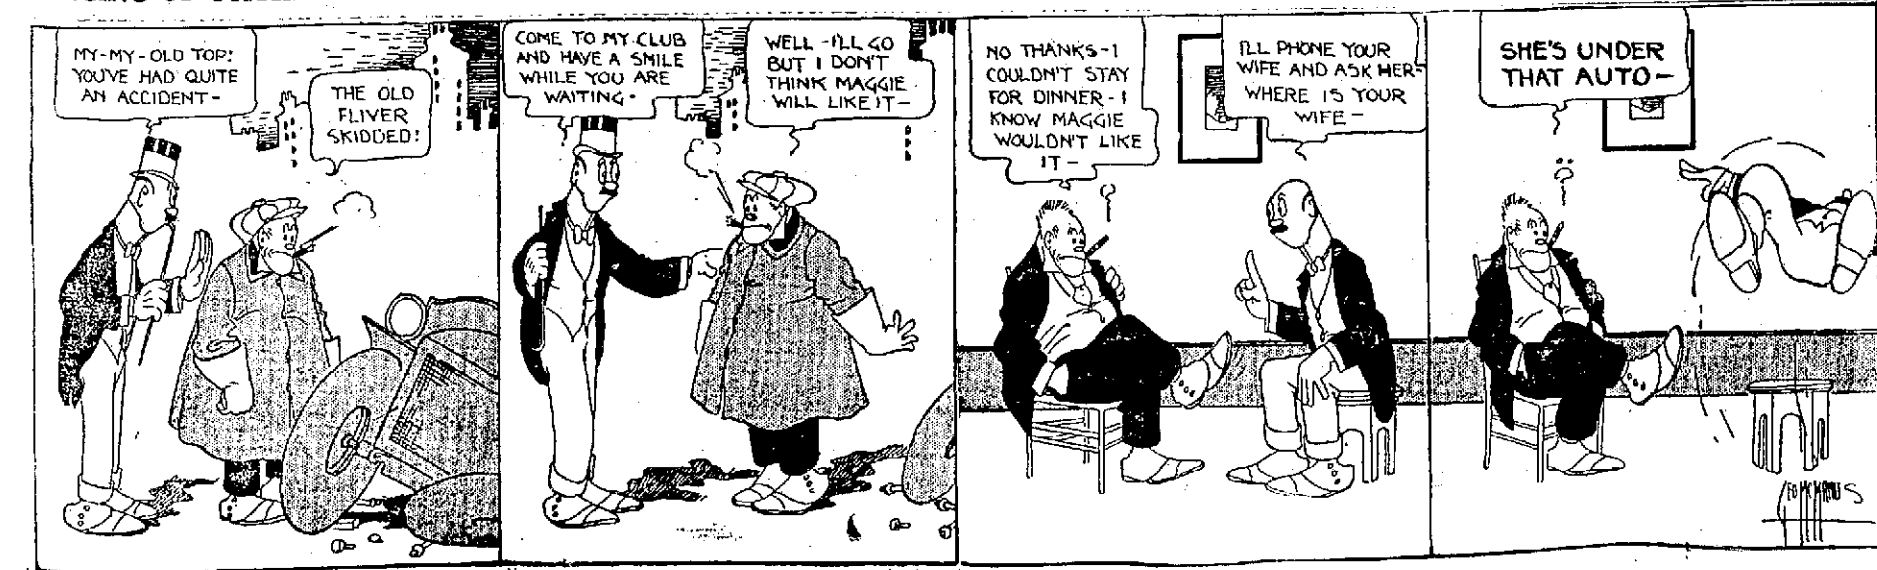

Understand, it is sold with a GUARANTEE, if you do not get the desired results after you have used it for 10 days to two weeks, the one that sold it to you will return you all the money you have paid for it, for all the above mentioned diseases excepting rheumatism. Rheumatic cases must come to the springs to take baths in the same water to get entirely relieved. Our springs are 50 miles north of Lexington on the Q. & C. railroad. There is some other water being shipped from Dry Ridge which is being pumped out on the public as Carlsbad water, or just as good, but don't you let any druggist or anyone else sell you any water unless the name of Kentucky Carlsbad Springs is on the label. Be sure to write us for one of our free booklets and then you can see what other people have to say about it. You will find it on sale at

and incorrect of its preparation. Cakes and pastry will be thoroughly demonstrated.

Then on Tuesday afternoon she will deliver a lecture on "Food Standards." Practical demonstrations or the preparation of short cakes will be given. The advantages and disadvantages of the fireless cooker will be explained and demonstrated. This will be a particularly interesting afternoon.

On Tuesday evening a special session will be held at which valuable business hints to wives and young ladies will be given.

"Bread Baking" will be featured Wednesday and those who have temporarily lost the art of producing those great flaky loaves or those dainty biscuits, should not miss this lecture. All sorts of methods, recipes and demonstrations will be given.

The "Dinner Menu" will be the topic of the Thursday session and here the selection of foods will be explained and demonstrated.

Then on Friday, the closing session, Miss Hanko will demonstrate various recipes which will be interesting to every one who believes in better and more efficient culinary art.

Miss Hanko's services are continually in demand and it is difficult to secure her for an engagement. But the Times made arrangements with her to conduct the "Better Food School" for the benefit of the housewives and young ladies of Portsmouth.

Remember, everyone is invited to attend, and there will be no charge. Everything is absolutely free.

SPRING MEDICINE

Hood's Sarsaparilla, the Great Blood Purifier, is the Best.

Spring sickness comes in some degree to every man, woman and child in our climate. It is that run-down condition of the system that results from impure, impoverished, dehydrated blood. It is marked by loss of appetite and that tired feeling, and in many cases by some form of eruption.

The best way to treat spring sickness is to take Hood's Sarsaparilla. This old reliable family medicine purifies, enriches and revitalizes the blood. It is an all-the-year-round alterative and tonic, and is absolutely the best Spring medicine.

Get your blood in good condition at once—now. Delay may be dangerous. Ask your druggist for Hood's Sarsaparilla, and insist on having it, for nothing else can take its place.

SCIOTOVILLE AND WHEELERSBURG

Sciotoville council held its first regular meeting Friday evening in the Odd Fellows building on Main street. The council is alive and doing and will take steps to make the village one of the best towns in this part of the state, judging from the work started at last night's session. Steps are being taken for the lease of the present meeting place until a public building is erected.

The solicitor was instructed to bring in ordinances prohibiting the riding of bicycles on sidewalks and for the establishment of a curfew. These ordinances will be passed at the next meeting.

The village is also to have uniform sidewalks, this being the first step taken toward improvement of the village. A street committee composed of Loren Vest, chairman, S. F. Johnson and Jacob Elssor was named to look after all street work. The committee's first step will be to employ an engineer who will establish levels for sidewalks. Cement sidewalks will be laid. A committee composed of S. F. Johnson, K. N. Nagel and T. Q. Shump was named to select a place for a public garbage dump. The next regular meeting will be held on Friday, May 19.

Mrs. Zora Todd of Broadway street, is suffering with a nervous breakdown.

George Lemon and P. A. Figgins of Main street, were business visitors to Wheelersburg, Friday. Mr. and Mrs. Horace Belmont of Market street, left Friday for Columbus, where they will spend several days.

The Misses Katie Rowley, Rose Zwickert and Martha Bentley took the teachers' examination in Portsmouth, Saturday.

Miss Alma Swickert of Dogwood Ridge, is visiting her sister and brother-in-law, Mr. and Mrs. Earl Unvickel of Short street.

George Lemon, contractor, is erecting an eight room two story frame house for Ernest Rowley of Main street.

Sciotoville Camp M. W. of A. met in regular weekly session Friday evening. After the regular routine of business, three candidates, Charles Kinnaman, George Evans and Ernest Kinker, were initiated.

WHEELERSBURG

Mrs. M. E. Mackoy and daughter, Mrs. B. P. Brightwell, of Wheelersburg, are visiting relatives at Edgington, Ky., for a few days.

The King's Sons and Daughters of the M. E. church met at the home of Miss Bess Ach Friday evening.

C. E. Fritz, grocer of Wheelersburg, was a visitor to Powellsville, Friday.

May Day exercises held by pupils of the Wheelersburg grade and high schools Friday far surpassed the May Day celebration held in 1915. The teachers of the schools worked hard and were more than pleased when the celebration Friday turned out to be a grand success from the opening of the regular school exercises Friday morning to the closing event of the program in the afternoon.

Many parents visited the school in the morning to see how the routine duties of the class rooms were carried out. A room in the school was given over to an exhibition of all kinds of school work which was admired by the parents. The exhibit consisted of manuscripts, drawings, mountings and collections of woods, grains and ores.

The outdoor exercises started at one o'clock on Mackoy hill near the village. Large numbers came from the vicinity of the village to attend the celebration which has been made an annual affair. The afternoon's program was opened with a May Day pageant, which was followed by the crowning of the May Queen. A flower and wand drill by first and second grade pupils was followed by a calisthenic drill by third and fourth grade pupils. The May Pole dance, the chief event of the day, was ably taken care of by pupils of the fifth and sixth grade. A folk dance "How Do You Do" was given by seventh and eighth grade pupils. The three dances and drills by high school pupils received considerable praise from the large number present.

Adams County Teacher Jailed On Drunk Charge

West Union, May 6. W. P. Richmond, county school examiner and district superintendent, spent last night in the Manchester jail, charged with intoxication.

His family appealed to Representative Lovett to have him released. Lovett, who is president of the Law and Order League, visited Richmond in his cell, but refused to act as his bondsman.

Richmond has been active in a bitter political school fight and says this is the cause of his enemies. Two years ago he was taken from the West Union fair grounds by officers and spent the night in the county jail, charged with intoxication, but the case was dismissed on a technical matter. He will have a hearing Monday morning before the mayor. He is regarded as an able instructor.

German B. & L. To Open A Branch At Sciotoville

Believing that Sciotoville is developing. This company has leased office space, temporarily, on the west side of Jackson street, and hopes to be ready for business by not later than the middle of next week. The company hopes to be of considerable help to those who desire to build new homes. Exact Draper, secretary, has decided to open a branch office in the little house within a few days.

IRONTON HAS 14,000

The latest United States government report places Ironton's population at 14,000. The population of Ironton in 1910, was 13,147. The capital invested in that city as reported in 1914, was \$5,255,000.

Committee Is Named To Arrange Banquet

Three applications were received at the regular meeting of the Daughters of America Friday evening.

The application of John Morgan was favorably balloted upon. W. V. Paek, William Taylor and Mae Coleman were initiated. A banquet committee composed of Emma Daggy, Mary E. Boyles, Pearl Dixon, and Belle Stewart were named to make all arrangements for the contest banquet which is to be given next Friday evening by the Poles to the Blues. The J. O. U. A. M. band will be present and a program will be rendered.

NEW BOSTON

Through a deal recently closed Talmadge Jones purchased the Adams Bros. bakery on Stanton avenue and Allen Adams' beautiful bungalow home on West Stanton avenue. The consideration was said to be \$10,000. Jones is an experienced baker, having been in the employ of Adams Bros. for several years. He came from Mt. Joy, O. He will move into the bungalow and will rent his property on West Grace street.

George Adams of Adams Bros., accompanied by his wife have left for Colorado for her health. Allen Adams will continue to operate their splendid bakery on Offshore street, city.

Council will meet in called session Monday evening when the matter of widening West avenue and Ohio avenue will be taken up. Members of the Peoples Realty Company will be present and the company and village will come to some understanding regarding the grade of Gallia street through Peoples addition.

Fred Bohander, well known farmer of Wall's Station, was in the village on business, Saturday. There was a free scramble for apples about ten o'clock Saturday morning when a barrel of Rome Beauties rolled from a Stockman truck as it rounded the corner of Harrisonville avenue and Gallia pike. John Carver and John Henson assisted in recovering most of the apples and loaded them back onto the truck.

Wholesale prices will be made to large consumers as usual.

John Diehmann, former street car motorman, now an employee of the Whitaker-Glessner company, is off duty on account of illness.

Julius Levine, Gallia street saloonist, is contemplating the purchase of an automobile.

Class No. 8 of the Christian church, will give a boat excursion on the steamer Peerless tonight. The boat will leave the foot of Ohio avenue at 7 o'clock.

Mr. and Mrs. Lowell Doleyn, nee Thelma Moore, who were recently married, will go to house-keeping in the B. F. Brown home on Ohio avenue next week.

Edith Blume will have charge of the Young People's meeting at the Baptist church, Sunday evening.

Kelley Bros. contractors, completed the pouring of concrete base on Center street, Saturday morning.

The New Boston baseball nine will play the steel plant team on Peoples' diamond Sunday afternoon.

Several men are busy in the Peoples addition making ready for the planting of a number of elm and maple trees which will be set out along the curb line of the lots.

Concrete base for the brick foundation of the new steel plant office building on Rhodes avenue and Vine street, was completed Saturday.

"The Underground City" is chapter 18 of "The Broken Coin" the feature attraction for tonight. "The Unloaded 45" is a thrilling and exciting Western drama. "Have You Seen My Girl" is a Thistle comedy that will make you cry with laughter.

Officers were elected at a meeting held by Mrs. Thos. D. O'Neal's class of the Christian church, Friday evening. The result of the election follows: President, Rosa Pierce; vice president, Goldie O'Neal; secretary, Mary Hall; assistant secretary, Hazel Maple; treasurer, Luanita Hays; sick committee, Clara Dailey, by McNeal, Celia Stratton; social committee, Mrs. Thomas D. O'Neal, Mary Smith, Lila Maple, Mrs. W. Voley and Luanita Hays; book committee, Hazel Maple, Mabel Hall, Goldie O'Neal, Rosa Pierce; flower committee, Olive Morgan, Ella Griffin, Georgia Conway, Carrie Poole.

We are glad to announce to our customers that as far as we can see at this time, we will be able to maintain last year's price for ice. While many items of cost have increased, unless further costs occur, price will be 40c per hundred pounds.

We offer a liberal discount to our customers buying coupon books; we issue a \$2.00 book and allow a cash discount of 25c, and a \$4.00 book with a 50c cash discount. No discount is allowed except for cash on delivery of the book. We offer this liberal discount to induce our customers to buy the coupon books rather than to pay cash, as our experience is that men will deliver more when the coupon is to be received rather than the inconvenience of being prepared to make change, or to run to the nearest grocery or other store for change. We have figured that it takes a team and men more than three minutes to deliver 50 worth of ice, we lose money.

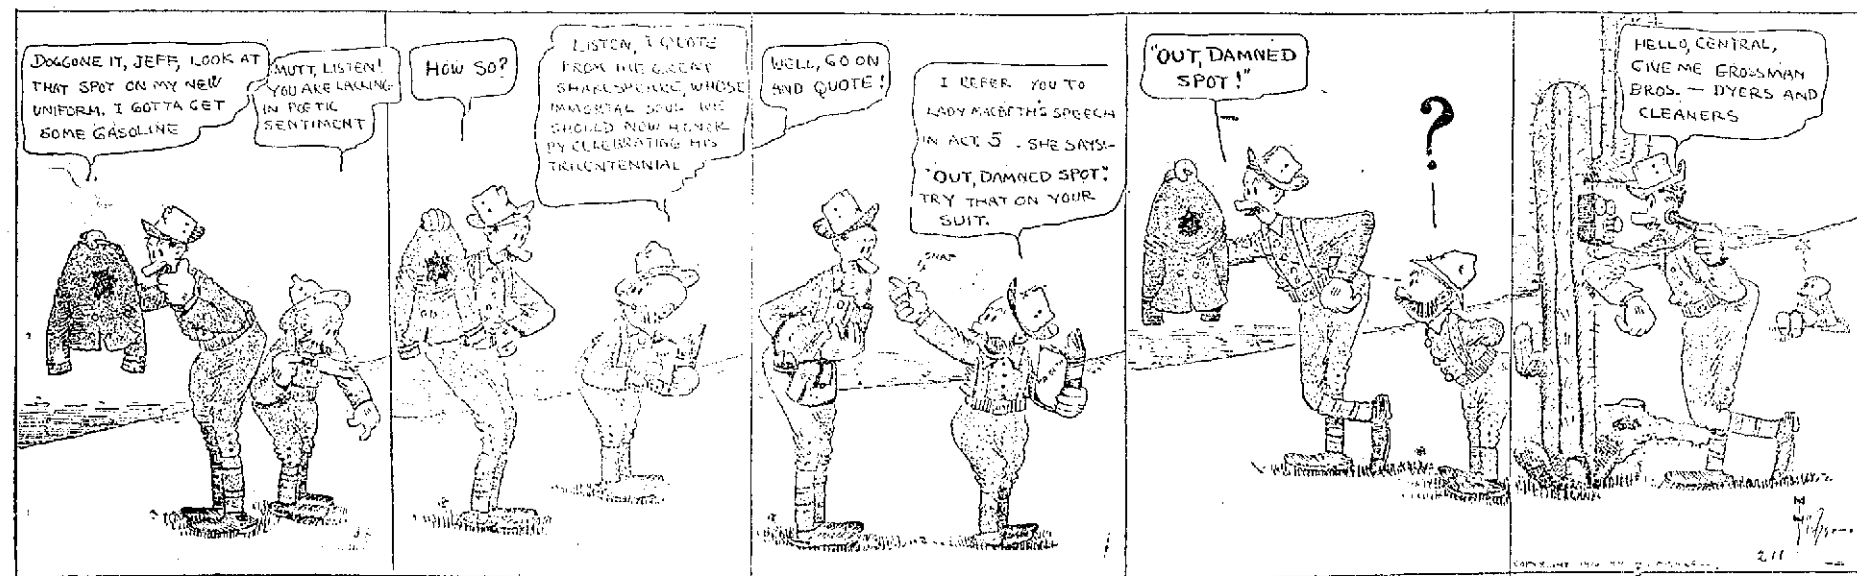

We are anxious to serve the trade promptly and ask you to assist us. If our men fail to deliver promptly, call either phone No. 10. We will be glad to explain, and correct any errors.

Local German's View Of European War

(Written by Louis F. Korth, former Editor of The Correspondent.)

Friday, May 5, 1916.

Kut-el-Amara has fallen. This is the most important war news since Gallipoli. Three months ago Premier Asquith announced in the British Parliament that Baghdad would soon be in the hands of the British, which would have an immense influence upon the Mohammedans in Arabia, Persia and Egypt, as the British press supplemented the declaration. And Admiral Lord (Churchill) was sure of a victory on the Gallipoli peninsula, that would open the way to Constantinople.

When the Allies had to give up the peninsula they consoled themselves with the hope that if Kut fell the British with the Russians, coming from Armenia, would advance upon Constantinople through Anatolia. But neither General Lakes different relief expeditions from the Persian Gulf nor the Russian expedition, which a month ago was said to be nearing the Upper Tigris, came to save Kut and General Townshend with four other generals, 510 officers, over 13,000 men, artillery, material and war chest with five million dollars had to surrender to the Turkish commander Halil Pasha on the Tigris.

The British garrison held Kut for four months and made several successful sorties in conjunction with many attacks of General Aylmer and General Gough upon the besiegers' rear. But its ammunition, provisions and medical stores finally gave out and a few weeks ago a supply steamer from Basra, the last hope, was sunk by the Turks, which forced the surrender.

The British Bagdad expedition under Sir Percy Lake advanced last fall from Basra, some fifty miles north of the Persian Gulf, along the Tigris and after small encounters got to Ctesiphon, just south of Bagdad, where they had an engagement with the Turkish advance posts, which was ended as a great victory in London, but in the battle that followed they were thoroughly defeated and had to retreat to Kut-el-Amara, which General Townshend was to hold until Commander Lake would come to his relief with a new Anglo-Indian army.

This army has since been badly cut up by the Turks, principally at Telah, and what is left of it retreated down the river to Samarra, where it is in fortified position in a narrow defile between the big swamps of the Euphrates and Tigris, which cover its flanks, so that only a frontal attack with heavy artillery is feasible, according to London versions. Other reports say that the British are in retreat to Korna.

Military experts look upon Kut as a breakdown of the British at the gates of India and a dangerous loss of prestige to them in the Mohammedan world, especially in Persia and Arabia.

The British losses since the beginning of the Iraq campaign are estimated at 50,000 men. London assumes the failure on bad strategy and mismanagement, but discounts the military effects. They have forgotten what Lord Grey, president of the Privy Council, said last December in the House of Lords after Ctesiphon, namely: "The taking of Bagdad would have been a great political and military event."

The Turks conducted the Mesopotamia campaign without German military help, but it was planned by old Field Marshal Kitchener von der Goltz, the late Turkish general chief of staff and organizer of the new Turkish army, who did not live to see its success. He died a month ago in a field hospital at Bagdad, after a three days' inspection of the Turkish works in the saddle, at the age of eighty-two.

The Germans built the railroad

to Bagdad, which has proved of great strategic value to the Turks.

The Turkish war office in a second report of the British defeat at Quatia (El Katie oasis) 25 miles east of the Suez Canal states that four companies of British cavalry, 800 men, were completely annihilated. This is the first intimation that larger Turkish forces are nearing the canal.

Constantinople reports that the British in Bender-Bushir on the gulf, which is the port of the Persian petroleum fields of Arbilan, are surrounded by Persian insurgents. A sortie has been unsuccessful.

After Paris for the third or fourth time has brought the German offensive around Verdun to a complete standstill it now is engaged in a big French counter-offensive and reports the recapture of trenches at Douaumont and L'Homme Mort. Of the first the German general staff in its Tuesday's report says: "French attacks east of the Meuse (Douaumont) were repulsed in a fierce struggle at close quarters yesterday, which lasted for several hours." The L'Homme Mort affair is of interest only as an acknowledgment by the French that the hill really is in German hands, which strenuously has been denied for a month. The French claim a gain of 1,000 yards first line trenches, while the Germans say all attacks broke down under their fire.

Berlin reports more gain of ground at Jaucourt in the same region.

In Artois the Germans have kept the British on the jump by a restless mine activity during the last two weeks.

The Verdun Paris railroad near Ennippes and part of the railroad works at Menchoull near Verdun were badly damaged by German fire and communication interrupted, as Berlin asserts, which does not indicate that the Germans have stopped operations on the Meuse. In fact, Paris reports from flyer observations the massing of heavy reserves and the replenishment of munition supplies behind the German front.

Competent German military critics are of the opinion that General Petain's furious counter-offensive at Verdun, in which so far 38 divisions have participated, cause him more loss than gain. His troops have been incessantly on the move and in action for nearly sixty days, which wears out the young recruits.

The Russians have not yet come to the front. Paris reports a new ship load at Marseilles every day. In the first big batch, brought by a flotilla, 5,000 were counted. Another division is coming, Berlin learns. They are fitted out in France.

A Swiss military expert at the Verdun front says that the Germans by occupying a circuit of over 100 miles northeast and northwest of Verdun and on the Woivre plain have crowded the French into their inner lines where they are exposed to continuous concentric and effective artillery fire while their own guns have to search for the Germans who have the advantage of commanding heights and plenty of elbow room for deploy, which the French are lacking.

On the Russian-Baltic front Hindenburg has been using the sledge hammer again. By a massed attack south of the Naroc Lake he took all the Russian positions between Stanarosse and Stachovce in a length of three miles with the bayonet without artillery preparation and 5,600 prisoners, three big guns and 28 machine guns besides considerable war material. The Russians made a counter-attack to retake the lost positions but failed with heavy loss.

Italian military critics talk openly about the probability of a change from the defensive to the offensive on the part of the Austrians in Tyrol since the forced withdrawal of the Italians from Caldonazzo to Ronnegno in the Sugana Valley (Tyrol), representing it as a strategic movement to a better position. The Austrians now have the Col di Lana on the divide between the Carinthian and Tyrolean Alps under heavy Skoda fire.

The British Admiralty has begun an enquiry into the sinking of the battleship Russell on the Mediterranean last week with the loss of 127 of the crew. Admiral Freeman, who was on board but saved, charges the navigation officer with not following the chart. The ship was built in 1903 and cost \$5,000,000. It is a total loss. The admiralty does not state where the battleship went down, but it is supposed that it happened near the mouth of the Suez Canal, where an English fleet is cruising and submarines are busy.

The short-lived Irish revolution has collapsed where it started, in Dublin. It did not spread over all Ireland like wild-fire, as was expected. To call it the riot of a mob, however, is a London misrepresentation, because it was the exploit of a semi-military organization (Sinn Fein) for the liberation of Ireland and the establishment of an Irish republic, at least in five counties.

A regular volunteer army was formed, with schooled officers, wellarmed, equipped and drilled, which was waiting for the call of the leaders. That call seems to have been premature or was precipitated by the detection of a plan to disarm and disrupt the volunteers and then extend conscription to Ireland, as is claimed.

The leaders say: "It was a legitimate pro-Irish movement under the defense of the realm act and nothing to do with it. Not a penny of German money reached Ireland, and the German arms were paid for from funds raised in Ireland."

Their failure is partly laid to the alleged sinking of a German steamer with arms on the Irish coast, but mismanagement on the part of the leaders, eight of them have been shot after a drum court martial, probably had most to do with it. Thousands are now in prison and will be tried for high treason.

In Dublin much property has been destroyed by bombardment of the military and the never missing mob in the wake of revolt. The number of dead is given at 500, of wounded at 1,500. Many women and children were killed. Four Courts and Stephens Green, the finest buildings of Dublin, are in ashes.

In a letter to the New York Journal a war critic, at present with the Allies at Saloniki, calls the occupation of that town and peninsula a great strategic blunder. He says the Allies are coked up as the British were at Kut and a big force is being held inactive by the Bulgars that could just now be used to good advantage at Verdun.

The British-French fleet has blockaded the Greek island of Thasos. The Allies want to force King Constantine into open enmity against them so they have an excuse for occupying all Greek ports, is the opinion in Athens. In the Greek part of Southern Albania, lately annexed with the silent consent of the Central Powers, civil administration has been established by the Athens government.

Greece has peremptorily re-

fused to permit the transit of the reorganized remnants of the fugitive Serbian army from Corfu, to where they were brought from Dulcigno last winter, to Saloniki over the Larissa-Piraeus railroad. Premier Skoulondis declared that the Greek army would rather blow up the railroad bridges than allow the Allies to pass over them.

It is now a moral certainty that Rumania will not join the Allies. New big contracts for delivery of grain to the Central Powers have been made by Berlin and Vienna with Bucharest and the embargo of industrial products, which have all but disappeared from the Rumanian market, has been lifted by the former, which is a great boon to the Rumanians, as prices for them had risen sky high. Petrograd is aghast over the discovery that large quantities of Russian cereals from Bessarabia and the Ukraine have gone to Rumania for trans-shipment to Austria and Germany.

The Allies persist in their claim that the German army has lost 2 1/2 million men during the war. Germany is the only one of the warring powers which publishes complete records of losses, monthly lists of dead, wounded and missing. If the Allies have followed them in their generalization they have neglected to state that over 90 per cent of the wounded have been healed and sent back to the front and only 1 1/2 per cent have died, as the surgeon-general of the German army, Dr. Scherning, stated at the late convention of the National Chiropractic Society. That puts a different face upon the matter. An authority says: "By safe calculation Germany can put 10 million men into the field if it comes to the worst."

London reports May day riots in Berlin and Leipzig during which a number of people are said to have been shot. Berlin only speaks of a demonstration there and the arrest of the radical socialist leader, Dr. Liebknecht. What makes one suspicious of the London reports is the fact that they turn up at regular intervals (whenever English stock goes down) and just as regularly prove to be fakes.

The president of the German Imperial Bank states that the last war loan was more of a people's loan than any of the others. Subscriptions from single individuals were 5,300,000 against 1,002,000 who signed for the first loan. The schools of the Empire alone subscribed 65 millions. While financial institutions subscribed 22 per cent of the first loan they only got 4 1/5 per cent of the present one.

The German government has issued a White Book giving the dates and details of when, where and how German submarines were rammed or fired upon by Allies merchantmen and fac-similes of the orders of conduct for the latter by the British Admiralty.

The leader of the democratic faction in the Russian Duma, Prof. Paul Miljutin, who has been to London, stated in a Stockholm interview, that his mission was to establish "better relations" between England and Russia. The latter was sacrificing her youth and demanding recognition of her services in the way of sufficient financial help.

The correspondent of a prominent German-American paper in Berlin cables that an arrangement between Washington and Germany in the submarine question would bring peace through American mediation. The United States would have much to say in the peace conference if they

Citizens Will Have To Come To Rescue Of Children's Home

would not tie Germany's hands in bringing the war to a speedy finish, the informant says.

The British shipping world is very much wrought up over the report that another German raider has slipped out with the fleet which attacked Lowestoft and Yarmouth last week and is now on the high seas. War risk insurance has stiffened considerably in consequence.

Sweden is perfecting its artillery and engineering service. The Riksdag has granted a credit of 60 million Kroners for that purpose.

A Greek paper in Saloniki states that a German submarine has torpedoed a large troop transport of the Allies but does not give the details.

A cable from Cherbourg (French coast) says that the Creuzet gun works in that place were destroyed by fire.

The Spaniards have started a liner service between Dogo and New York.

According to British estimates not less than 736 merchant vessels with a tonnage of over two millions have been sunk since beginning of the war.

Berlin correspondents claim to know that the resignation of Admiral von Tirpitz was caused by differences between him and Chancellor von Hollweg over the annexation question. Tirpitz is for relentless prosecution of the submarine war and the keeping of all conquered territory, the chancellor for a more conservative course.

The Philadelphia Bazar for the German-Austrian Red Cross has netted over \$200,000.

The crew of the Dutch steamer Berkelstroom, which was at Harwich during the German raid on Lowestoft, says that the British cruiser Penelope limped disabled into that harbor.

In German Southeast Africa the rainy season has set in and the British operations have come to a temporary halt.

Dr. Cornelius from Berea, Ky., who was in the Red Cross service at Ctesiphon, Serbia, estimates that half a million people have died of epidemics in that unhappy country in the last two years. Of the 62,000 Austrian prisoners, which the Serbians took during the first stages of the war, two-thirds succumbed to typhus. This terrible disease has been checked, but malaria has taken its place. Medical help and supplies are needed.

It is significant that the belligerents in the midst of war are already shaping plans for international trade after the war. In England commercial bodies with the Board of Trade are considering a national program for foreign trade, in France similar activities are in progress. Germany, too, is making her preparations, as an address of the president of the Hamburg chambers of commerce shows. Today they are fighting each other. After the war they will all be fighting the lucky Uncle Sam, who has their dollars. Why then should he join either of them in their war game?

The United States Department of Commerce says that American ship building leads British. During the first three months of 1916 American yards launched 173 merchant vessels, while British yards, according to Lloyd's, only launched 69. The war seems to be stimulating American industries.

At the annual session of the

American Academy of Political Science Professor M. J. Roux, of Munich, an eminent sociologist, declared that he was very much pained to hear there really were people in this country who believed the silly twaddle of Germany's ambition for South American territory. Even emigration to Brazil had stopped long ago, he said. Germany could spare no more people, and it was now looking more to the east than to the west for development.

In a late report about the foreign trade of the United States as compared with other countries our Secretary of Commerce, Mr. Redfield, says: "Up to the beginning of the war the manufactured exports from the United States in percentage of increase ranked far ahead of any of its competitors. Its gain was 141 per cent, while Germany's gain was only 95, England's 70, France's 65 per cent." This shows how little we have to fear from German competition in the world market.

The Louisville Times calls on the German-Americans to telegraph to the "Kaiser" and make him accept the Washington propositions in the submarine controversy. What have the Germans in America to do with the "Kaiser" in Germany? Their government is in Washington. The Louisville Times is one of the papers which some time ago called upon the German-Americans to agitate for a revolution in Germany to upset the "Kaiser", who by the way is not the German government. They condemn the Irish revolution, forgetting their own history, but want the Germans to start one. A remarkable consistency.

Plan To Borrow At Least \$10,000; Changes Must Be Made At Home

At a special meeting of the directors of the local Board of Trade, Friday afternoon at the Masonic Temple, a resolution was passed at the suggestion of the county commissioners and the trustees of the Scioto County Children's Home, instructing Secretary R. E. Thomas, of the Board of Trade and the Business Men's Association, and Frank M. Baggs, secretary of the Employers' Association to secure not less than twenty-five Portsmouth business men to endorse a note for not more than \$10,000, which will be made subject to the order of the trustees of the Children's Home; also that any or all money borrowed upon the face of the collateral is to be paid not later than July 1, 1917. In the meantime arrangements are to be made to have legislature pay the money borrowed on the note or have the budget commission allow sufficient funds for the Children's Home on the next appropriation to pay the money borrowed. The money thus obtained will be used to pay the operating expenses of the Home until the February (1917) tax distribution.

This turn of affairs was brought about by the lack of money in the Children's Home fund. At the last tax distribution, the funds were then overdrawn by about eleven hundred dollars and County Auditor S. D. Eckhart stopped payment of vouchers issued. George D. Selby, president of the board of trustees of the Children's Home, stated that John Peebles and himself went to Columbus Thursday and held a long conference with Attorney General Edward C. Turner and his assistant, Judge W. H. Middleton, relative to raising funds to operate the home until the 1917 tax appropriation could be obtained.

The attorney general held that there was no legal way to raise the funds unless the citizens of Portsmouth co-operated and borrowed money until the money from the taxes could be realized. Mr. Selby then asked if the members of the board of trustees could personally endorse notes and the attorney general suggested that the notes be endorsed by individual citizens not connected with the county commissioners or the trustees.

Adm. Frick, who was formerly a member of the Ohio legislature, said he would suggest two possible ways to obtain the money; first, that a committee go before the 1917 legislature and ask for an enabling appropriation, and second, that the budget commission be asked for an amount sufficient to cover the shortage of this year. Then in the meantime, for several citizens to endorse a note for not more than the amount anticipated by the trustees for the coming year.

Frank M. Baggs, superintendent of the Home, said that the cost of maintaining the Home was gradually increasing from year to year. "Since 1910, the Children's Home has spent \$35,604 for maintenance and has received \$26,938 from taxes, leaving a deficit of \$8,666," said Mr. Baggs. In February the Children's Home fund was overdrawn \$1157.63, according to the speaker and the county authorities stopped payment on the vouchers.

It was then explained by the superintendent that the Children's Home had been condemned by Mr. Williams, of the state welfare department on account of inadequate facilities and these were enumerated. In brief, the speaker said there was considerable dilapidated work to be done for the children; there was need of new equipment as children were sleeping in the halls, three in a bed; that a bread mixer was needed as it was necessary to purchase \$10 worth of bread a month; that a washing machine was needed to launder the children's clothing; that the water heating plant was inadequate, making it impossible to properly bathe the children; and that the home needed a "contagion" hospital. Most of the foregoing were mentioned in Mr. Williams' report on the institution published recently.

In concluding, Mr. Baggs said it would require between \$900 and \$10,000 to operate until next year.

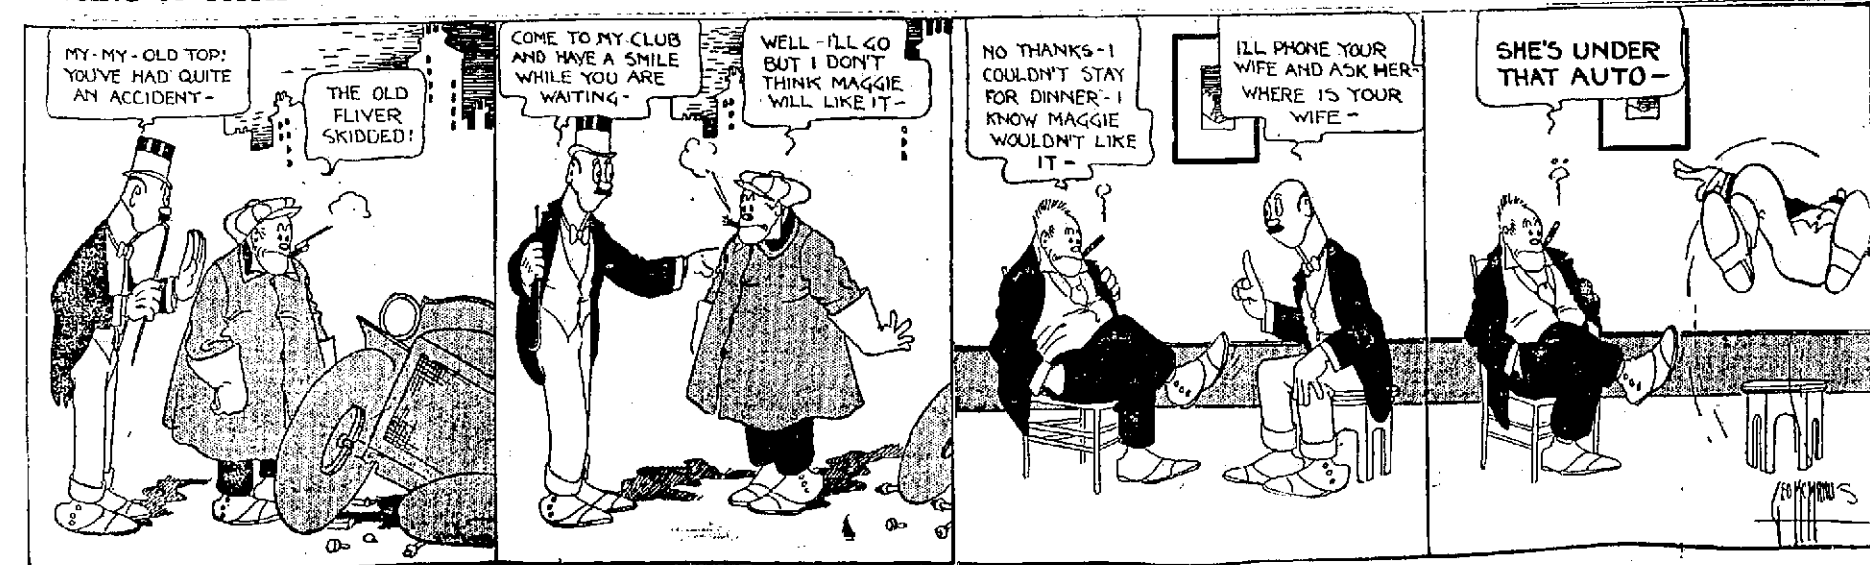

Prosecuting Attorney Jos. T. Micklethwait suggested that the commissioners obtain the waivers of the rights of the county board of education to the extra money in the dog fund which will amount to about \$2,000 and apply that in liquidating the indebtedness and aid in paying the operating expenses.

The resolution passed asking the secretaries to obtain 25 or more endorsers to a note, means nothing more than that these men, who sign the document, guarantee that the money borrowed will be paid, should the commissioners be unable to obtain it from the legislature or the budget commission. The entire amount will not be borrowed at once, but will be obtained as needed.

This is the first time in the history of Scioto county where a county institution had to appeal to the citizens to guarantee money borrowed to pay the running expenses of a public institution.

"THE BATTLE CRY OF PEACE"

-- A CALL TO ARMS AGAINST WAR --

Produced in 9 reels by the Vitaphone Co. in conjunction with the American army and navy, at a cost of one million dollars, over 35,000 people in the cast headed by Chas. Richman, James Morrison, Norma Talmadge, Roger Lytton, Secretary of War Garrison, Admiral Dewey, Major General Leonard Wood and many other notables—a picture that teaches a mighty lesson—the lesson of America's "Defenselessness", but with it all a heart interest drama that will stir your deepest emotions.

LYRIC TUESDAY AND WEDNESDAY

Matinees 35c--Evening 50c--Children 25c

IN SCREENLAND

BESSIE BARRISCAL, the fascinating and versatile star production, was born in New York. When only five years old, she spent a season with James A. Hearn, in "Shore Acres." Before her term Miss Barriscala had about run the gamut of child parts in famous plays of the period, including that of little Eva in Uncle Tom's Cabin.

When a little over fifteen years old, she played her first serious part as Blanche in "The Old Kentucky." Two years of success in this role followed. Then she came prominently before the New York public as Love Mary in "Mrs. Wiggs of the Cabbage Patch." This led to her going to London, where she made a hit with the British playgoers.

David Belasco saw the possibilities in the young star and engaged her on her return from abroad as Juanita in "The Rose of the Rancho." After two successful seasons in stock in San Francisco and Los Angeles, she again toured the country in the star part in "The Bird of Paradise."

Her first venture in the films was in the part of Juanita in "The Rose of the Rancho."

The program at the Lyric next week is just one good thing after another. When you look them all over you'll have to admit that every one is sure to be a winner. Monday, Marguerite Clark in "Out of the Drifts," her latest production, and it's fine. Tuesday brings the big feature, "The Battle Cry of Peace" if it takes the last cent you own you should see this picture. It will be shown Wednesday also.

"The Chain Invisible," the big World feature, on Thursday is one of the most daringly original primitive love stories ever pictured.

The Paramount feature on Friday is Constance Collier in "The Code of Marcia Grey"—you remember Constance Collier in "The Tongues of Men."

Saturday brings a pair of real favorites, Harold Lockwood and May Allison, in a splendid picture in five reels, called "Life's Blind Alley."

Every day a masterpiece. If you always want to see the best show in town, just make straight for the Lyric, the house of "Quality," pictures and "High-Class" Music.

The Columbia continues next week as usual to offer the people of Portsmouth the very best picture productions obtainable and commencing with next Monday you will find not only a master picture production each day, but in this production you will see one or more of the real famous stars of the higher class of motion pictures.

"The Triangle" program on Monday will keep up the high

standard that has been set in Portsmouth by this high class service when you will see Douglas Fairbanks in "His Picture in the Papers," a five part comedy drama from the Kay-Bee studios, and a dandy Keystone comedy "Better Late Than Never," with Willie Collier.

On Tuesday Manager Tynes takes great pleasure in announcing the two most popular stars in Portsmouth in Francis X. Bushman and Beverly Bayne in a five part production of "Man and His Soul," one of the best and most sensational pictures from the Metro program.

After several weeks of absence from Portsmouth theatres, the celebrated William Fox productions will again be shown at the Columbia on next Wednesday, when the peerless Theda Bara will return in an elaborate production of "Destruction" and on each succeeding Wednesday, you will find a Fox production at the popular Columbia.

Bessie Barriscala, another popular star with Portsmouth people will be seen on Thursday's Triangle program in "Honor's Altar," said to be one of the very best of all the many good pictures in which she has appeared.

Friday brings another popular artist in Florence Reed, who will be seen in the leading role in "The Woman's Law," a five part Pathé master production and this is one of Miss Reed's greatest triumphs.

"The Innocence of Ruth" on Saturday featuring the dainty little Viola Dana is another great attraction and completes a week of exceptional attractions from beginning to end. The price of admission will not be raised on any of next week's pictures and for 10 cents you simply can't beat next week's program at the popular Columbia.

Next week's program at the Exhibit theatre contains a varied list of strong comedies and screaming comedies:

Monday—"The Iron Claw," part five; also two good comedies.

Tuesday—"What Doris Did," three part Thalhouser drama featuring Doris Gray; "Harry's Happy Honey Moon," Palstaff comedy with Jay York and Isolde Allan playing the leading roles.

Wednesday—"When the Light Came In," 3 part Mustang drama featuring Anna Little and Tom Chatterton. One good comedy.

Thursday—"A Modern Sphinx," three part American society drama featuring Winifred Greenwood and Edward Coxen; "Ellen Went To Elope," Beauty comedy featuring Neva Gerber.

Friday—"Life's Harmony," 3 part American society drama featuring Vivian Rich and Alfred Yoshur; "Cooking His Goose," Beauty comedy; "Snow Storm and Sunshine," Palstaff comedy.

featuring Riley Chamberlin. Saturday—"The Bait," five part Mutual masterpiece.

Program for week of May 8th at the Arcana Theatre: Monday, "Orders Is Orders," 2 part Victor; "Lonesomeness," Laemmle and "Her Invisible Husband," Imp.

Tuesday, "The Fatal Introduction," 3 part Big U and "Sammy Johnson, Strong Man," Powers comedy.

Wednesday, "Graft," No. 16, 2 parts; "Patterson of the News," 2 part Imp drama; "Across the Hall," Nestor comedy and "City of Erin," Rex.

Thursday, "Iron Rivals," two part 101 Bison drama; "Merrily Married," Joker comedy and "Animated Weekly No. 11."

Friday, "Live Wires and Love Sparks," 3 part L-Ko and "Behind the Curtain," Rex drama.

Saturday, "Mr. Meldiot's Assassination," L-Ko comedy; "Her Dream Man," Laemmle and "The Sea Mystery," Victor drama.

Strand theatre program for week beginning May 8:

Monday—"The Doll Doctor," two reel Imp drama; "The Heart of a Nation," Powers educational; "When Lizzie Disappeared," Nestor comedy.

Tuesday—"The Quarter Breed," 101 Bison western three reels; "Animated Weekly No. 10," news.

Wednesday—"His Brother's Pal," 2 reel Rex drama; "Love Spasms," Victor comedy; "Their Act," Victor comedy.

Thursday—"Gladys Hanson in 'The Primrose Path,'" Broadway feature in five acts.

Friday—"Born of the People," Gold Seal 2 reels; "The Deacon's Waterloo," Nestor comedy; "The Bold Bad Burglar," Rex comedy drama.

Saturday—"Graft," eighth episode 2 reels; "Orders Is Orders," Victor comedy 2 reels; "Lonesomeness," Laemmle drama; "Her Invisible Husband," Imp comedy.

Next week's program at the Temple theatre:

Monday, "The Iron Claw," part four; "What Doris Did," 3 part Thalhouser feature drama with Doris Gray.

Tuesday—"The Girl and the Game"—Chapter 13; "When the Light Came In," 3 part Mustang Western drama.

Wednesday—"Fickle Fate's Fall," Triangle Keystone comedy featuring Roscoe Aronson; A Modern Sphinx, 3 part American society drama.

Thursday—"The Red Circle," part 4; "Neal of the Navy," part 4.

Friday—"The Smugglers of Santa Cruz," 3 part Clippert season drama featuring William Russell and Charlotte Burton.

Saturday—A five-part Triangle drama feature.

WILL USE SPECIAL

A coast-to-coast special train will bring the motion picture stars and camera men of Los Angeles and other parts of California to the great convention and exposition of the motion picture industry to be held at Madison Square Garden in New York May 6 to 14, under the auspices of the Motion Picture Board of Trade of America.

Governor Whitman, of New York, has signed the "Cromwell bill" requiring the licensing of children under 16 years of age who are to appear in motion pictures.

William Gillette is soon to be seen on the V. L. S. E. program in "Sherlock Holmes," an eight reel super-picture. "God's Country and the Woman," a Vitaphone picture, soon will be seen in this city.

ROYALTY SEES "BIRTH OF A NATION"

Before the most distinguished audience that has been gathered in a London theater in years a special performance of D. W. Griffith's American spectacle "The Birth of a Nation," was presented Friday afternoon in Drury Lane theater, London, for a benefit to the Women War

Workers Fund. The special matinee was under the personal auspices of Queen Mary, who occupied the royal box with Queen Alexandra, the Princesses Victoria and Mary and the Princess Henry and George of the royal family. Seats sold for the benefit for \$15 each and the combined receipts exceeded \$15,000.

SIoux CHIEF IS IN METRO PICTURE

One of the interesting characters in "The Spell of the Yukon," a forthcoming Metro production in which Edmund Breese is starred, is Chief White Hawk, a genuine Sioux chief. Like many other intelligent Indians, he is a natural actor, and plays a very striking role in "The Spell of the Yukon." He was last seen on the Metro program in "The Lure of the Heart's Desire," in which Mr. Breese was starred, and he made such a decided impression upon Mr. Breese that he was secured for his present engagement.

FLASHES

Manager J. E. Potts of the Arcana theatre will leave Sunday, May 14, for Canada, where he will visit home folks.

Sixteen new photoplay houses are in course of erection in Indiana.

Charley Chaplin is so busy that he is spending 14 hours a day on now pictures. Evidently intends to earn his salary.

Miss Ruth Stonehouse has been engaged by the Universal Film Manufacturing company to play the featured lead in the big circus serial, "Peg o' the Ring."

Appearing in Daniel Goodman's coming photodrama, "Love's Toll," to be released by Lubin through the V-L-S-E is Garda Polotskova, taking the role of a Russian dancer, which gives her an opportunity to present portrayal of the Salome dance.

"Shoes" is the rather unusual title of a film play which is being produced by the Smalleys, with Miss Mary McDonnell playing the leading part. In the supporting cast are such well known performers as Mrs. Harry Davenport, Lena Baskette, the child dancer; William V. Mong and Harry Griffith.

With the return of the Fox company from Santa Cruz Island, it became known that William Farnum and two other players narrowly escaped death by drowning in the Pelican Bay when a skiff capsized.

The World Film company has twenty legitimate stars under their protective wings.

"The Birth of a Nation" is being shown all through the state of Kentucky.

Atlantic City is building a picture house that will seat 6,000. Evidently managers intend to grab all loose nickels visitors tote to the seaside resort this summer.

"SOULS AFLAME"

At the Metro offices it has been definitely decided to call the big five part feature production in which Dorothy Green and Clifford Bruce are starred, and which was recently completed at the Popular Plays and Players studio, "Souls Aflame."

Lionel Barrymore, who has just completed his work in "Dorian's Divorce" for the Metro program, being starred in that production with Grace Valentine, will be starred alone in "The Quilter," a sensational five part feature which has just been put into production.

When the Clara Kimball Young Film Corporation begins the production of its feature pictures in July, it will have a list of scenarios to draw upon that will include adaptations of many of the most successful novels ever written.

Among the authors who will be represented are Robert W. Chambers, Guy de Maupassant, Edgar Allan Poe, Guy de Maupassant, Maurice Maeterlinck and David Graham Phillips.

Marguerite Clark in a Unique Photo Play "Out of the Drifts" at Lyric Monday.

The picturesque grandeur of Alpine surroundings forms the background for Marguerite Clark appearing in a notable Famous Players - Paramount Picture, "Out of the Drifts," a tale of the eternal snows, of avalanches, dizzy heights and yawning chasms. But the battle against the elements is not the only one in which the adorable Famous Players star is pitted against a powerful adversary. She is a simple, unsophisticated little shepherdess whose innocence and beauty arouse in a dissolute visitor at the village which is her home, the lowest impulses of his nature. But the very ingenuousness which leads her into this trap proves her salvation, for it

**AWAKE!
AMERICANS!**

DO WE WANT WAR?

FIVE MILLION men in the flower of their vigorous manhood, maimed and crippled for life; legless, armless, blinded, shattered; hopelessly destroyed beyond repair.

FIVE MILLION MORE; Luckier, perhaps, than their broken comrades, rotting in shallow channel pits or on the war-torn, blood-soaked soil between miles and miles of hostile trenches.

TEN MILLION men—half of them dead, the other half—worse than dead.

FIVE MILLION FAMILIES, each burdened with a helpless human wreck until death removes the burden.

FIVE MILLION more families, deprived forever of the breadwinner.

TEN TO TWENTY MILLION WOMEN—mothers, wives, sisters—saddened, suffering—despairing.

MILLIONS again—peaceful, innocent non-combatants—old men, women, little children; starving, homeless, outraged, outcast.

THIS IS EUROPE'S WAR TAX ON HUMANITY DURING A LITTLE OVER ONE YEAR. NONE OF THESE AFFLICTED ONES WANTED WAR. NOT ONE WOULD HAVE PERMITTED WAR IF HE OR SHE HAD POSSESSED THE POWER TO PREVENT IT.

Satanic crimes, shaming the barbarism of the dark ages, have been and are being committed in the name of WAR. IF YOU HAVE A DROP OF TRUE AMERICAN BLOOD IN YOUR VEINS YOU WILL SEE

"Destruction" WILLIAM FOX PRODUCTION

This photoplay, which was written by Nicola Daniels and directed by W. S. Davis, deals with the life of a young man who is exploited by a certain class. And yet the production is not depressing or anti-optimistic in its tone, for it is lighted by subtle comedy touches which heralds the dawn of a new era of industrial spirit of conscientiousness.

"The Chain Invisible," Special Feature at Lyric Thursday. James Wadsworth, a northwesterner of little education, but of truth, loyalty and courage, is a valuable lumber property and comes to New York full of determination to do things. As he has in the west. At the station he sees Anne Dalton, a girl who has graduated from college. She is in love with her, and as she speeds off in her car, takes

the car's number and traces her residence.

The Daltons, with Sir Towne, sail on a cruise, and Wadsworth goes on the same steamer. He rescues Anne's hand from a thief and gives it to her brother, beginning their acquaintance. Wadsworth is snubbed by the family, but when he rescues her brother from gamblers in the card room by fighting the crowd, she and Towne see the affair. His wrist has been hurt and she ties

threatened our unity; today our very existence is threatened by our defenselessness.

The solution of the one involved us in war; the solution of the other will prevent war.

To bring this great problem home to the millions of American people J. Stuart Blackton conceived a great idea.

Pioneer in the field of motion pictures, recognized as the great authority on motion pictures, one of the heads of a great motion picture industry—he saw an opportunity to utilize the great and hitherto unused power of motion pictures to help toward the solution of this national problem.

"The Battle Cry of Peace" is the first motion picture to be used to exploit an important, nationwide propaganda. Its object is to bring to the notice of the greatest number of people in the shortest possible time the defenselessness of our country; not only to make the American people realize our condition as a nation, but to show them also the consequences to which this condition may lead, and finally to show them how to remedy this condition.

"The Battle Cry of Peace" is a call to arms—not for war but for peace. It will be shown in motion picture theatres, schools, colleges and churches throughout the length and breadth of this country. It will arouse in the heart of every American citizen a realization of his strict accountability to his country in time of need. Scores of prominent Americans—in Army, Navy and Administrative circles of our government—have contributed to this great production. Notable among its sponsors and endowers are Dr. Lyman Abbott, the Honorable Lindley M. Garrison, Major General Leonard Wood and Admiral George Dewey, representing the church, the state, the army and the navy.

"The Battle Cry of Peace" is the film sensation of the year. It will live long in memory, and represents the greatest achievement in the history of motion pictures.

House Peters in "The Hand of Peril" At Lyric Tonight The combination of a brilliant

author, noted picture star and master director, has seldom been used to greater advantage than in the World Film five reel feature, "The Hand of Peril," to be seen at the Lyric theatre on Saturday. The story is by Arthur Stringer whose tales of mystery and crime detection are known throughout the world; the star is House Peters, one of the most natural and appealing screen actors in the country and the picture was directed by that inimitable craftsman, Maurice Tourneur.

The story of "The Hand of Peril" is, as its title indicates, an absorbing narrative of sensational criminal exploits and the daring deeds of a government detective. The hero is James Kestner, a familiar figure to all who have read the recent stories by Mr. Stringer in the magazines. A delightful love interest runs through the picture and Director Tourneur has made remarkable use of the many opportunities for unique and startling stage effects suggested by the fertile fancy of the author.

The star has been surrounded by a particularly strong cast of film favorites. June Elvidge, Ralph Delmore, Dorris Sawyer and Ray Piterer are the quartet difficult to excel in the four principal supporting roles.

At the Exhibit Today

"Overalls" a five part Mutual Masterpicture is today's big feature. This is a powerful dramatization of L. N. Jefferson's stirring story. The play features Rhea Mitchell and William Stowell.

Staged in a railroad construction camp in a clean, primitive western atmosphere and picturing the unvanishing life of men who are men, this great American drama is a glorification of "work." The true heartiness of the more uncouth workers in contrast with the underhanded scheming of the polished gentlemen from the east, added to a beautiful love interest make it a drama of unusual strength and importance.

The plot of the story is woven around overalls and Bettina Warren, orphaned daughter of a wealthy magnate and the heir of his property when she becomes of age.

At the Arcana "The Little Mascot" is a two reel Rex drama, a running race with Baby Early, Elsie Albert, Charles Cummings and Jack O'Brien. The little girl learns that the hero has been bound and placed in an old cabin on the eve of the race. She brings about his release and he wins the event. The story is pleasing and comes to a good close.

"Flirting in a Carte" is an L-Ko comedy number, featuring Alice Howell, Paddy Voss and others. Two quarreling married couples get into some flirtations. The poker game scene is a scream. "The Ring and the Rajah" is a Victor drama. It tells of an Indian Prince who visits England and falls in love with an English girl. His servant, knowing of his master's hopelessly love, puts poison in a ring which almost brings death to the girl.

Billie Ritchie comedy feature at the Starland.

"False Friends and Fire Alarms" is two galloping reels of excitement and wild orgy of fun staged by the L-Ko myth-makers, featuring Billie Ritchie, Gene Rogers and Peggy Pearce. Old hose cart horse leaps track in middle of race to follow fire engine to a blaze.

"America Saved from War" is the title of the seventh chapter of the wonderful "Graft" series and is by far the most exciting number yet shown. If you miss a number you only miss a good picture—each number handles a different "Trust."

"Sunlight and Shadow" Imp Gray, Harry Spingler and Paul Panzer and is filled with the atmosphere of the great northwest. "The Windward Anchor" is a Laemmle comedy-drama featuring Frank Newburg and Myrtle Gonzales.

At the Forrest

Don't forget that this Charlie Chaplin night at the Forrest theatre. See Charlie in another side splitting reel of laughs, real laughs that count. "Hunting" is a Casino production. "Bud" Rose is supported in this comedy by Edward Bogdan, Phil Nares and Jenny Nelson. A fascinating young woman invites two guests of the Hotel De Gink to lunch with her at a fashionable restaurant. The phone on the ladies hat catches fire from a cigarette carried by one of the men and they go a-hunting to get

another golden pheasant. They return to find her with a millionaire and disinclined to even look at them. "The Homesteader" is a two part Centaur drama featuring Margaret Gibson, John Oaker, Ray Watson and Jane Keckley. A beautiful love story.

At The Temple

"The Suppressed Order" is an American production, an excellent military play in three reels, which introduces happily an interesting love story. Winifred Greenwood and Edward Coxen are featured in this picture with George Field and other capable American players also present. The story is a good one and has been staged artistically. The period is that of 1860 and the story deals with an incident of the Civil War.

"Heaven Will Protect a Working Girl" is a screening Vogue comedy, featuring Russ Powell as hero, Priscilla Dean as heroine, Arthur Moon as villain, Paddy McGuire, his accomplice, and Louise Owen, shop girl.

SEND THE TIMES THE ROUTE OF YOUR PROSPECTIVE TOUR

George L. Gulker Is First To Plan One; Gives Detailed Route To Atlantic City

With the good roads movement sweeping throughout the different states of the Union with great rapidity and the increasing number of automobiles, the people of the United States are assured of innumerable routes over which they can drive with pleasure during the summer.

Many people in Portsmouth are already planning to take extended tours this summer. The long smooth running touring cars designed in recent years and the splendid roads winding through beautiful stretches of country are conducive to touring.

This summer, the Times intends to publish complete information about prospective tours which Portsmouth and Scioto county citizens are planning. The first trip has been prepared by George L. Gulker, who will take his family to Atlantic City, for a few weeks visit. All those who have planned tours are requested to send in a detailed account for publication.

This trip is one of the most interesting around and about this section of the state. The trip is given in detail to Atlantic City but from there Mr. Gulker is considering several routes. The one he selects will be published later.

Those who plan a trip to Atlantic City in their machines this summer can obtain some valuable information from the following data:

The Car Spectacular Performance Jeffery Six

THE great ideal of the Jeffery engineers—who introduced the high-speed, long-stroke, high-efficiency motor to America—has always been to give the maximum power at the speeds which are used most in actual service. The Jeffery Six—now nationally known as the car which sold itself—is their realized ideal of power.

From 4 miles an hour and less on "high"—up to 60 miles and more—she is smooth and silent—a car of spectacular performance.

Try her on the hills. She shoots over grades you had always thought impossible—"on high."

Then try her on the same hill and give her the really gruelling hill climbing test—the one test that shows exactly how much usable power a car has. Make her take the hill "on high." You will find that the Jeffery Six can do in a walk what others can only do with a swift start and at top speed.

It's a car of spectacular performance in every way—spectacular power, spectacular pick-up, spectacular speed. Come in and try it out—ask us to demonstrate every claim we make.

The price is \$1450—and for every dollar of it you get more power at the speeds you use—more riding comfort and driving comfort—than you ever thought possible.

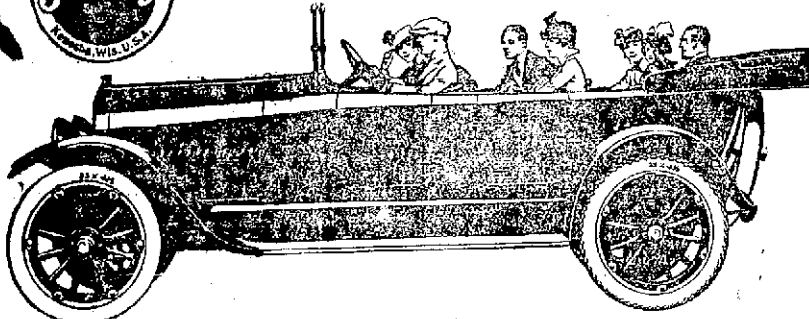

And act NOW. This is the car that sells so rapidly that the Thomas B. Jeffery Company was long ago compelled to double its planned output of it. We can't increase our allotment because the factory cannot increase its output.

THE 50-50 TEAM FOR INDIANAPOLIS

YOU'D smile, too, if during the long, weary, dark and gloomy, and all the other adjectival winter days you had been working underlock and key to finish two race cars; then when spring came and

the birds sang and the ice melted off the Indianapolis Speedway track, you took your new mount and found that your wildest flights of fancy had come true. That is why Eddie Rickenbacker, manager of the Ford-O-Lite team of two Maxwell cars is happy. With him and his team mate, Pete Henderson, it is 50-50. The two cars look alike, are built alike, and run alike, and you could fool almost everybody else but Eddie and Pete. They could tell which car was which in their sleep.

They expect to do great things in the Sixth International 500-Mile Sweepstakes race on the Indianapolis Motor Speedway May 30, and the favored few who have seen these rejuvenated Maxwells in practice believe the foreign-built cars, such as the Sunbeam, Peugeot and Fiat, will have all they can do to compete with these Made in U. S. A. cars.

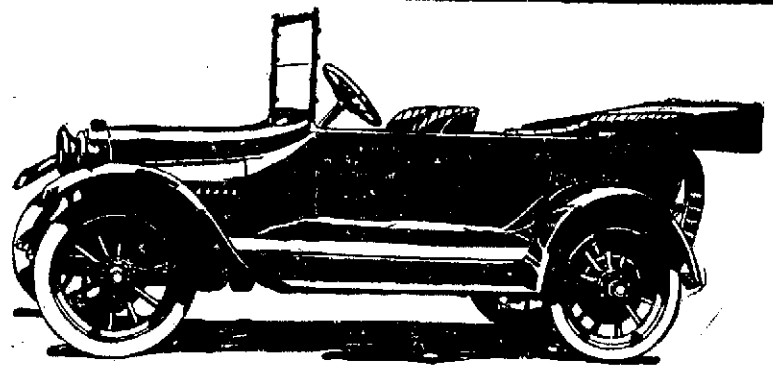

Many new fangled contraptions and mechanical features are to be found on these two cars, but in the main their principles are the same as those tested by Ray Harroun some years ago.

MORE ENTRIES FOR CHICAGO AUTO DERBY

Chicago, Ill., May 6—Two additional entries were nominated yesterday for the International Auto Derby at Speedway Park, which is to be run on June 10, the week of the Republican National Convention, F. S. Duesenberg handing in the blanks for a pair of the Duesenberg cars.

Elated over the success of the Duesenberg Specials on the Pacific coast during the last week, where Eddie O'Donnell has driven the local car to the front and won twice within ten days in a couple of road classics, the Corona and Fresno three hundred mile events, Duesenberg can see nothing but a victory on the local track next month.

O'Donnell, the dean and captain of the Duesenberg racing team, will handle one of the mounts and Wilbur D'Alene will drive the second entry, according to the word received by President David F. Reid.

This is the Car of the GOLDEN Chassis!

SEE IT!

You saw that GOLD Chassis, didn't you? Read about it anyway—that wonderful Studebaker SIX chassis finished entirely in purest GOLD that was the GREAT sensation of the Auto Shows in New York, Chicago and elsewhere!

Now come in and see "The Car of the GOLDEN Chassis"—the new SERIES 17 Studebaker SIX.

This famous Six that we have on exhibition exactly duplicates the chassis that was exhibited at the Shows—except of course that it hasn't the GOLD finish. But it is the same marvel of design and manufacture that kept the Studebaker exhibit so packed with people that you couldn't get near it.

It is the most powerful 6-cylinder car ever offered within hundreds of dollars of its price. You have to pay a third more to equal it in power and size. And no car at any price offers more basic quality of materials, more soundness of design or more perfection of manufacture.

Let us give you a demonstration today.

Poor Adjustment On Wheels Wears Tires

Improperly adjusted wheels are very frequently responsible for the premature wearing out of tires says an official of the Pisk Rubber Co.

If wheels are out of alignment they travel at an angle, friction increases and treads wear quickly. Fifty miles with wheels out of true will sometimes wear a new tire badly.

There are many causes for improper alignment and most of them can be easily corrected. All tire dealers and many garages have wheel aligners and it is but a minute's work to ascertain that wheels are running properly.

NON-STOP MAXWELL IN ARIZONA

The non-stop Maxwell, holder of the world's record of 22,000 miles without a stop of the motor, is now being shown in the principal cities of Arizona. Charles C. Miller, Jr., representative of the Maxwell Motor Co., is touring the state with the car and drove it from San Diego to Phoenix without the slightest trouble. At Phoenix he sent the following telegram to the Lord Motor Car Co., Los Angeles:

"Arrived Phoenix today, 31 hours actual time driving from San Diego over worst roads have ever experienced. Many cars stalled at some entire distance under own power. Usual time for trip is 18 hours."

BUICK MAKES A SPLENDID SHOWING

With a record of 261,500 miles, equal to more than ten times around the world, to its credit, a 1900 Buick owned by F. E. Slason, of Plainville, Conn., made the most remarkable showing of any car in the mileage contest conducted by the Hyatt Roller Bearing Co. The object of the contest was to learn how far automobiles have run in everyday service upon their original equipment of Hyatt bearings. Mr. Slason was awarded the first prize of \$500. More than 300 tires, costing \$3,000, were worn out by the car.

BRISCOE IS WATCHWORD QUALITY

A representative of the D. B. Conrad and company, 1201 Off-nere streets in speaking of the Briscoe Motor car, for which he is local agent, said:

"The watchword of the Briscoe is quality. The first consideration is to make a car as good as it can be made; the second, how many of them can be made with faithful regard to superior value. Whether you turn with a critical eye to the quality of the material, from which piece-work and similar product cheapeners have been banished, whether you examine the details of design and construction, or marvel at the completeness and high standard of the equipment, there is through it all generous quality and painstaking and minute thoroughness."

Do You Rent?

If you do, have you ever thought that you are buying the landlord's house not for yourself but for the landlord?

The average period of renting may be estimated conservatively at from twenty-five to sixty years of age, or thirty-five years. In this time a family will pay for rent:

	Actual Cash	With Interest at Six Per Cent
At \$10.00 per month	\$4,200.00	\$13,194.66
At \$15.00 per month	\$6,300.00	\$19,791.99
At \$20.00 per month	\$8,400.00	\$26,389.32
At \$25.00 per month	\$10,500.00	\$32,986.65

or, in each case, the actual cash is fully THREE TIMES the value of a property that would rent for a corresponding sum, and with the interest added the total shows a really appalling waste.

And yet every brick and every plank will still belong to the landlord.

Most homes are built or purchased with money that would otherwise have been sunk in rent or frittered away for trifles, hence ownership usually represents clear gain. Some say they will continue to rent until they can save enough to buy a home. But how few ever do—so few that you probably never heard of a single one. Yet, BY OUR PLAN, hundreds with no larger incomes, have paid for homes without excessive economy or hardship.

The Tallow Dip Goes Out!

A Boston firm, which operated the largest tallow dip factory in the country, which, of a fact, was about the sole survivor in this once general and flourishing industry, announced, last week, that it would discontinue the making of the candles. Thus another institution of the past makes surrender to progress. A generation ago not only every well regulated, but most every family of every kind, kept a stock of tallow candles on hand, according to their prudence and means. Now most families, especially those in town, have little knowledge of this mode of lighting and less use for it. That is rather strange for the tallow dip still remains with us as the measure of light. For we still speak and will so continue for many years, of a given brilliancy as so many candle power, 16-candle lamp, 40 candle, 60 candle, 80 candle, 1200-candle and 2000-candle are terms of hourly use, in speaking of electric illumination. And could things thus so intimately connected be so far apart. The tallow dip was a necessity, but it was a nuisance. Danger and discomfort were its accompaniments and qualities. Recalls the hunting for a match, a place to strike it, the melted tallow running down onto fingers and scorching them, the upsetting of the pesky thing when it was set down without its "stick," which by-the-way wasn't a stick at all, but a hollow tube with a base in which the candle was stuck, that is when the family had enough "sticks," but a family was never known to have enough for every candle in use. Well, may be there was one family that had enough, but memory recalls no instance where an extra candle and a stick could be found in speaking distance of each other. Still, we wouldn't speak altogether disparagingly of the tallow dip: it had its uses and it was mighty handy at times. It is not at all the same with the electric candle. It is absolutely the most wonderful of all inventions because it is a prime necessity and at the same time the best of all comforts and the finest of luxuries. You often hear people say they would like to have a taste of luxury—they can get it almost for nothing in the electric current. There isn't a particle of noise, dirt, disorder, confusion or annoyance about it, scarce so much an effort required to reach its enjoyment. Merely pressing a button brings a veritable flood of light, the cooling breezes to blowing, or the water steaming on the stove—things of more life and daily importance to you than that its moves the ears along the streets and across country, whirled the big wheels in industries, and talks clear around the earth and chatters through invisible space. It is the pleasant thing, the comfortable thing, the important thing, the useful thing, the neccessitous thing, the one luxurious thing you can demand in your home and know you are doing the most economical thing. Whether you own your home or rent it, you ought to see it has electric service.

We will be glad to talk to you anytime about how little it costs and what are its manifold advantages.

WILLIAMS GIVEN LIFE SENTENCE SAYS "BLACK TEXAS" KILLED GIBSON

Ashland, Ky., May 6—James Williams, alias "Roadsport," entered a plea of guilty to a charge of murder in the first degree this morning and in less than half an hour heard his sentence, "life imprisonment in the Kentucky penitentiary."

His plea and sentence followed the submission to Judge Halbert a sworn statement in which he confessed that he was one of the four negroes who held up and robbed C. & O. Engineer Jos. C. Gibson and Fireman Clarence Griffith in a freight car in lower Ashland on the night of Sept. 9, 1915, following which Mr. Gibson was shot and instantly killed.

"Roadsport" claims that "Black Texas," who has already paid the penalty for his part in the crime with his life in the electric chair, fired the fatal shot.

Roadsport's Statement

"Roadsport's statement is as follows:

"I was in the crowd with 'Black Texas,' 'Blue Steel' and 'Stonewall' when Joe Gibson was killed Sept. 9, 1915, at Ashland, Ky. Bill Bailey and Alexander Calloway were there close by. I climbed up on one end of the car. I was the last one in. The boys said, 'Get them up,' meaning hands up. I did not do any shooting. I heard some one say, 'We'd better kill this guy, too.' 'Black Texas' did the shooting. 'Blue Steel' and 'Stonewall' were going to Lexington to the Fair. None of us had any money when we did this job. I had started to Lexington to the Fair. 'Blue Steel' and

O. W. U. Quartet Delighted Local Audience Friday Night

Nearly 400 people occupied seats in the Portsmouth High school auditorium Friday evening when The Ohio Wesleyan University Quartet rendered an exceptionally fine program in the way of song, musical numbers and readings.

Russell McCurdy, Portsmouth High school graduate, who accompanied the quartet as reader, was greeted with rounds of applause as

"Stonewall" got the money and put it in their pocket. 'Blue Steel' got a watch. 'Blue Steel' told me afterwards that he was in Portsmouth when the police caught 'Texas.' 'Texas' said on end of ties, 'I'm hungry and I am going to eat if I have to hold up some one.' I did not see white men when I got in the car. 'Stonewall' put his arms around one of them, and I helped go through the man that 'Stonewall' had hold of. 'Stonewall' got the man's watch whom he was going through. 'Blue Steel' told me about the arrest of 'Texas.'

"I have been only asked to tell the truth and the above is the truth."

he stepped before the footlights. Every member of the quartet was forced to respond to encores after each number.

Sunday the quartet will sing three selections at the evening services at Trinity church. Jack Hood will sing in the place of Mr. Lyons, second tenor, who had to leave for his home in Cincinnati, Saturday.

Mr. McCurdy scored the hit of the evening by his readings. "My Operations," the story of a man and the numerous operations he underwent, written by Irvin S. Cobb, was a splendid number.

Mr. Lyons, second tenor, played several selections on the guitar, which were out of the ordinary. He rendered a medley of his own composition, in which he brought in the names of a large number of the popular songs of today.

Mr. Vance, first bass and violin soloist, proved himself a real artist. The quartet as a whole rendered five selections and wound up the evening's entertainment by singing a number of college songs.

The P. H. S. basketball team worked hard to get a larger crowd out and deserve much credit for bringing the quartet here.

First Christian Church Faces Splendid Year, Large Crowd Sunday

With a brilliant record scored under the maiden year of Rev. Charles R. Oakley's pastorate, the First Christian church and bible school enters upon the second year of Brother Oakley's ministry with high hopes and with every department of the church and bible school in harmonious working order. Every organization is right now tuned up to the right pitch and an exceedingly promising year is facing the church of the cordial welcome. With the finances in the best of shape, with the spiritual phase of the congregation cemented with friendship and love, with every one in the kingdom ready and willing to do his or her part willingly and gladly, nothing, it seems, can happen to prevent the church and bible school from scoring still greater achievement in the present year. With the more than 1200 members standing squarely behind Rev. Oakley there is no question but the band of faithful people who worship at the corner of Third and Gay streets will go on to greater and

better things. For the past several months the church and bible school have not faltered and with the advent of the sunshine and flowers—watch out for some sterling records. Watch that Loyal Men's bible class, led by President John Williams, to set a pace that will cause dizziness on the part of some of the other classes who will attempt to keep pace. President John has shown himself a capable leader, an untiring worker and the results obtained by the big class clearly demonstrate that he has been on the job early and late. The Loyal Daughters, Loyal Bereans, Loyal Sons, Loyal Women—in fact, all the classes are working hard and systematically. All of which is likely to culminate in a wonderfully large attendance at bible school tomorrow. Last Sunday the attendance was shy only 18 of the 1000 mark, and with plenty of sunshine promised, the crowd will no doubt go away beyond the four figures mark Sunday.

Rev. Oakley promises two splendid sermons tomorrow. In the morning at 10:30 he will speak on the subject, "The Mind of Christ." In the evening his theme will be "Naaman the Leper." Everybody invited to attend all services at the First Christian Bible school at a. m. Come and see a real live school.

The church is without a pastor and the sermons to be delivered by Rev. Cunningham will be trial sermons.

Rev. Cunningham will leave next week for Martinsville, Ind., where he will take treatment for rheumatism.

BUYS BUSINESS BLOCK

Charles Watkins, a Waverly grocer, who is well known here, has just closed a deal in that town, which gives him possession of the A. H. Dean business block. Mr. Watkins bought it as an investment. Mr. Dean, who is a resident of Columbus for years, ran a drug store in Waverly.

Plan To Celebrate "Geek Day" In Park

Preliminary steps were taken by the Geeks Friday night for a Geek day at Millbrook base ball park sometime this summer, the proceeds to go to the indoor fair fund, which will have as its object the furnishing of shoes to the poor children of the city next winter.

The Portsmouth Amusement company has tendered the order a date at the meeting Friday evening. Si Straus, Charles Kiegler and Otto Lauffer were appointed a committee to make the necessary arrangements.

Dr. Jos. Gill, Adam Pfau and Louis Levi were appointed a committee to confer with the management of the steamer Homer Smith, relative to arranging for an excursion some time this month.

Louis C. Peel and Otto Lauffer were initiated as members of the order at the meeting, and the applications for membership of William N. Gableman, manager of the Play House, Charles Vaughn, of 702 Sixth street, and William S. Thomas, of 1533 Seventh street, were received.

It was decided that the social session to follow the next regular meeting, Friday evening, May 12th, be complimentary to and for the pleasure of the wives and ladies of the members.

Edwards Party To Hold Big Series Of Meetings

Harry Edwards and son, project is on hand to purchase a "Young Eddy," left this morning for Cincinnati, where the Edwards' evangelistic party have arranged to hold meetings. They will also go to Middletown, Hamilton, Lebanon, Co. and Lima to arrange for their meetings in these cities. A big tent which will be used during the summer months for union meetings in the above places. Arrangements have been made for a big tent meeting at Chicago Junction under the auspices of the Y. M. C. A. of that place, some time during the summer.

BROTHERHOOD TO STUDY HISTORY

At Sunday morning's session of the Brotherhood Class of All Saints' church, the pastor will give the first of a series of instructions on the "History of the Christian Church." Matters pertaining to the origin, growth and development and faith of the church will be discussed each Sunday until the completion of the course. It is confidently expected that great interests will be taken in this series of instructions and that the attendance of the membership will be large. Opportunity will be given for the full discussion of all matters arising out of the lessons, and members are urged to ask questions. The Brotherhood Class is open to all adult men who care to come. It meets at 9 a. m. every Sunday morning in the office of the pastor of All Saints' church, at the corner of Fourth and Court streets.

THIS IS IMPORTANT

Do not let your blood get thin this Spring. For people who have a tendency toward anemia or bloodlessness, Spring is a trying season. Lack of fresh air during the winter months, the more restricted diet, many things combine to lower the vitality of the body and deplete the blood. Then it is that the body is laid open more than at any other time to the attack of grippe and other more serious disease germs. Precautionary measures should be taken at once.

As soon as you notice the tired feeling, lack of appetite, shortness of breath, pains in the back, distress after eating, spots floating before the eyes, headaches or other warning signals, take a short treatment of

PO-DOCK

the great herbal reconstructer. Don't wait until the color has entirely left your cheeks, until your lips are white, your eyes dull and a general don't-care-a-hang feeling comes over you. It is so much easier to correct weakening of the system in the earlier stages than later.

Po-Dock is recommended to build up the blood, strengthen the nerves, stomach, kidneys, liver and other organs. Also for Catarrh, pimples, black-heads and skin eruptions. In this way the general health improves, the appetite increases, the digestion is strengthened and new ambition and energy developed. Work becomes easier because it does not cause exhaustion. Keep the system at its highest efficiency if you want to escape the inroads of malignant diseases.

It is inexpensive, pleasant to take and quick in its action. Don't wait another minute but get a bottle today and start to build up the system. You will feel better and look better.

We also recommend Po-Dock Laxative Pills for constipation, bad breath and a sallow complexion. Sold and guaranteed to give absolute satisfaction or money refunded by Wurster Bros., Chillicothe street, Portsmouth, O. adv

WHAT IS URIC ACID?

The Cause of Backache, Rheumatism, Gravel and Sudden Death.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its over-abundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce of the Invalid's Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," and send 10 cents for a large trial package of "Anuric" Tablets.

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best store and ask for Doctor Pierce's Anuric Tablets.

Doctor Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the illa of wolar rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body.

ASSURANCES IN THE GERMAN NOTE TO BE ACCEPTED BY U. S.

OFFICIAL TEXT IN HANDS OF PRESIDENT WILSON AND CABINET

Answer Postpones, If It Actually Has Not Averted, Break With Germany

(BULLETIN)

Washington, May 6.—The official text of Germany's note, fully decoded and laid before President Wilson today, shows no material differences from the unofficial text published yesterday in news despatches. This strengthens the probability that a diplomatic break has been averted, at least for the present.

WASHINGTON, May 6.—It was stated authoritatively last night, that if the official text of Germany's note bears out the unofficial copy transmitted in news despatches the United States will accept the assurances it contains and await a fulfillment of its promises.

The official text of Germany's latest note on submarine warfare was ready to be laid before President Wilson today. It arrived by cable last night and code clerks worked late to prepare copies for the president and his advisors.

Unless the document contains essential differences from the unofficial version received in press despatches by wireless, it is considered probable that the threatened break in diplomatic relations with Germany will not occur, temporarily, at least. The president will not reach a definite decision until next week, it is said. Cabinet members were asked by the president to give close study to the document and their opinions will be sought before any formal action is taken.

Much interest was apparent today among officials on editorial opinions of the German note. Many of these suggested the reply should be considered satisfactory temporarily pending the results of Germany's promise to confine operations of the war for the rest of its duration to the fighting forces of the belligerents. Others suggested that a diplomatic break would be advisable.

The Question.

And that was a question that no mere man could answer.—Louisville Courier-Journal.

EIGHTH REBEL LEADER SHOT

Dublin, May 5. (Via London) May 6.—It was officially announced today that Major John McBride, the eighth leader of the Sinn Féin rebellion to suffer death by sentence of court martial, has been shot. Major John McBride fought throughout the

Boer war with the Irish Brigade under General Pief. When the boers finally surrendered he made his escape and took refuge in Paris, where he later married Miss Maud Gonne known in home rule circles in Ireland as the Irish Joan D'Arc. In 1905 Major and

Mrs. McBride delivered a series of lectures in the United States on Irish politics. The sentences of Thomas Hunter and William Cosgrave who were sentenced to death with Major McBride were commuted to life imprisonment.

PRESS COMMENT ON NOTE

NEW YORK EVENING TELEGRAM.—The two nations are, so far apart, further discussion is mere waste of time. *** Replies of "yes" or "no" are not looked for in diplomatic documents, especially in German diplomatic documents, but here is quibbling that was distinctly warned against. *** Germany, as expected, has put the matter up to the United States. It is our duty to stand by the president.

MANCHESTER (N. H.) UNION.—We have but one course compatible with national dignity and self-respect to pursue. Upon the receipt of the official text providing it confirms the unofficial report given out in Berlin Ambassador Bernstorff must be given his passports and Ambassador Gerard must be recalled.

BALTIMORE AMERICAN.—Berlin has let itself down easily, but not gracefully nor satisfactorily. But it invites this country to construe its answer as satisfactory and that this course will do.

KENNEBEC JOURNAL (Augusta, Maine).—The "concession" is a shuffling pretense, a senseless repetition of other excuses for the gospel of might and frightfulness.

PITTSBURGH GAZETTE-TIMES.—Germany's reply is a reasonably substantial compliance with the demands made. It may be accepted that the crisis is past. The German government is entitled to credit for its courage to comply under most trying conditions.

CLEVELAND LEADER.—Peace for the present at least may fairly be counted upon as the fruit of the German reply. And yet the situation remains tense. It is far from assuring future harmony and good will.

WICHITA (KANSAS) EAGLE.—The answer fails altogether to meet the president's demands. There remains but one step that he, in self-respect can take, and that is to hand Count Von Bernstorff his passports.

ST. LOUIS (MO.) REPUBLIC.—There is nothing new in the not except its tone of insolence and its manifest inconsistencies. It is in order to remark that the people of the United States are with the government.

RENO (NEVADA) GAZETTE.—If Mr. Wilson was bluffing when he sent his last note, his bluff has been called. He will have to make good. As far as the people of the United States are concerned, Germany has made a

mistake. It remains to be seen whether she has made one with the president.

SEATTLE TIMES.—Germany does not accede to President Wilson's demands. Instead the Imperial government has made an answer cleverly designed to involve the United States in further diplomatic discussion.

FORTH WORTH (TEXAS) STAR TELEGRAM.—Germany's concessions is a great concession for Germany and a victory for the firm stand taken by President Wilson.

SAN ANTONIO (TEXAS) LIGHT.—The note utterly fails to meet the issue raised by President Wilson.

CALM PREVAILS IN BERLIN FOLLOWING NOTE PUBLICATION

Berlin, via London, May 6.—The text of the German reply to the American note was printed in extra editions of the newspapers but caused hardly a ripple of excitement.

Notable restraint was shown in the limited comment made on the note in papers. Even Count Von Reventlow, usually caustic critic of German-American relations, disposed of the matter with a single line referring to previous discussions on the issue.

As a whole, the German papers appear satisfied with the tenor of

the reply from Berlin although there are indications that the attitude of the newspapers is not wholly uninspired.

The Vossische Zeitung, one of the few papers to comment at length on the German reply, says:

"The note is inspired by a sincere wish to avoid a break with the United States. The government, in ignoring the tone of President Wilson's note, has gone straight to the point, wherein there is a possibility of an agreement, by offering to conduct the submarine war within the limits

of international law."
The Tagliche Rundschau, while expressing the opinion that the note should have taken a different character, urges that the expression of divergent views is unwarranted at this moment and that everybody should subordinate his own judgment and stand behind the government.

The Berlin Tageblatt contents itself with summarizing the main points of the note and expressing the hope that it will attain its aim in preventing war with America.

BELIEVE THE GERMAN NOTE WILL LEAD TO PEACE NEGOTIATIONS

London, May 6.—The Daily News gives a prominent place in today's issue to a long despatch from Rotterdam saying that there is a strong belief in Holland that the note to the United States was carefully prepared and that it may lead to peace negotiations. The despatch says in part: "There is a belief here that behind the whole cloud of vague and conditional promises lies the hope that negotiations for peace will be opened with England through the United States."

Poor Adjustment On Wheels Wears Tires

Improperly adjusted wheels are very frequently responsible for the premature wearing out of tires says an official of the Fisk Rubber Co.

If wheels are out of alignment they travel at an angle, friction increases and trends wear quickly. Fifty miles with wheels out of true will sometimes wear a new tire badly.

There are many causes for improper alignment and most of them can be easily corrected. All tire dealers and many garages have wheel aligners and it is but

a minute's work to ascertain that wheels are running properly.

NEW TEAM WELL BALANCED, SAYS MANAGER SPENCER

Pitchers Especially Look Like Real Goods; Infield Is Experiment

"We'll be looking to see like Portsmouth will have another first class, well balanced ball team to represent this city in the Ohio State League this year. The pitching staff looks like the outfield has been well covered for and Manager Spencer said last night in a meeting of the team that the boys are looking up to him for the strength of the team that will fight for an O. A. pennant under his guidance this season."

In the outfield two of the regulars, Dins and McHenry are back again and are playing fine ball. Washer, the new man in center, has so far shown considerable ability. In the pitching line, where there are apparently very strong, Jacobus, Ferguson and Peat will be back and there is Beebe, King and Sabaskus. King has shown marked ability and looks like a real pitcher. The local manager continued.

"Dins is catching every day and should be the best all-round baseball player in the league. Of course I will be on first base and Joe Bush on second. Every fan knows what Bush can do. The other wings of the infield is an experiment. Walter looks good at short and Malley has been performing steadily at third. Demore, the new man, is an infielder, and he will get a good tryout. Should we be fortunate enough to develop a fine third sacker and a shortstop I candidly believe that the team this year will be even stronger than Portsmouth's 1915 team. The boys are hunting hard and are imbued with the winning spirit. That's what is taken to win ball games."

Huntington Is Planning For Magnificent Opening

Huntington, W. Va., May 6.—Elaborate plans for the opening of the baseball season in Huntington were formulated last night at a meeting of the Opening Day Committee in the office of Chief of Police Sam Davis. Col. Geo. S. Wallace was named as marshal of the day. Requests were sent to the committee to provide the opening day, which will be a half holiday. All fraternal orders and unions will be urged to attend in a body. The committee announced that Judges T. W. Taylor and J. T. Graham will be requested to adjourn their respective courts for the day.

Cobb And Speaker Are Setting Pace

In the American League Ty Cobb is rapidly moving to the front, ranking just behind Speaker. Detroit batters are well to the front, with Dubeu leading at .444 and the Tigers are leading in club hitting with .364. Grimes, Cleveland, leads in total bases with 274. The White Sox of Chicago for home run honors with two and a year of Detroit and Egan, St. Louis in runs scored 43 each. Baker, New York,

DOWN "HASBEEN HILL"

They say there isn't any sentiment in baseball, but the whole baseball world is "pulling" for Christy Mathewson. Even the Reds, who used to be his earliest victims, deeply regret his falling strength and vanished skill.

Larryups Pili For Keeps

Outfielder Little, who is leading off for Waco and who is a graduate of the Ohio State league hit at a .356 clip last week for his club. He was up 30 times and made 43 hits, which is surely some consistent work with the big club.

INDOOR BASEBALL FOR CHARLESTON

Pro'd Baseballman stated Friday that he would open an indoor baseball league in Charleston next fall.

IT'S THE UMPIRE'S JOB TO SPEED UP PLAYERS AND SHORTEN LEAGUE GAMES; FANS WEARY OF THE DRAGGED-OUT AFFAIRS

There has been more criticism than usual this season of the unnecessary length of ball games and the need of speeding them up. Experiment shows that games can be shortened as much as twenty minutes by keeping the pitcher and catcher on the move and hastening the better to and from the plate. This work is the umpire's province, and it is hoped there will be improvement seen this summer.

WIEDEMANN TEAM HERE SUNDAY

The strong Wiedemann team of Cincinnati will be the attraction in Millbrook park Sunday. Manager Spencer will send his regular line up against the Cincinnatians and will probably use Ferguson and Jacobus in the box. Demore, the new infielder reported last night and he will be in the game. He came from Fall River, Mass., and is in fine condition. The game will start at 2:30 and it will be a regular ball game.

Sunday Games

In the newly organized Scioto County league Fullerton will play McHenry in that village Sunday, the Portsmouth Navies play City View on the West Side and Wait Station plays the Yankees at this city in Strass park.

Hal Chase Leading

Hal Chase, former star in the American and Federal leagues, is leading the batters and base stealers of the National, according to averages published today and including games of last Wednesday. Chase's batting percentage is .458 and is helping to keep Cincinnati in front in team hitting with an average of .279, and his stolen bases number six. Cincinnati has four other batters doing better than .333, among them Heinie Groh, who also leads the league in total bases with 31 and in runs scored with 13. Saler and Williams of the Cubs are tied for home run honors, with two each. The .333 batters of the National are: Chase, Cincinnati .458; Cincinnati, Brooklyn .421; McKenry, Cincinnati .400; Robertson, New York .376; Alexander, Philadelphia .375; Psa, Smith, Pittsburgh .375; Linchman, Pittsburgh .370; Yarker, Chicago .330; Rariden, New York .333; Mollwitz, Cincinnati .330; Neale, Cincinnati .318; Groh, Cincinnati .336; Zimmermann, Chicago .333; G. Burns, New York .333; Wagner, Pittsburgh .333.

TEN YEARS AGO TODAY

Reds, with Jake Weiner in the box, were defeated by St. Louis, 4 to 1. Weiner allowed three hits. Mike Schreck and Marvin Hart put up a sorry exhibition in bout in New York. They were too fat to fight. Jack Barry succeeded Charley Carr as regular first baseman of the Reds.

This Ruling Is Good One

President Walter Morris of the Texas league has made a special ruling on interference plays by catchers. It is to the effect that if a catcher interferes with a batter when a sign is trying to score from third the score shall be allowed and the batter also go to first.

Calhoun Is On The Job

Charleston, May 6.—First Baseman Calhoun arrived here Friday and worked out with the Powell aggregation on the ball lot in the morning and afternoon sessions. He is the man who formerly played with the Brooklyn Robins and last year performed in the Southern Association. Hudson, who was the only other man trying for this position, has been released. Charles Castelle came in yesterday from Rocky Mount, Va., and will try to take the second base job from Calhoun. The Cincinnati boy will probably be transferred to short until further gets his arm working, and O'Malley may be the next victim of the age.

JOHNNY BAGGAN MAULING AGATE

Old Johnny Baggan is certainly mauling the again this year in the Texas league. Landing off for San Antonio he made 31 trips to plate last week and lined out 43 hits, giving him the fine average of .419.

Crumbs Brushed Off Sport Table

"Larry" Russell, bought by Connie Mack from Baltimore for \$12,000, but fluffed as a pitcher, is back with Baltimore as a first baseman.
Paul Cobb, brother of Tyrus, was a free lance today. He was given his unconditional release by the Terre Haute (Ind.) Club.
It looks as though Larry Lajoie will have the "just one more great year" he wants. The veteran is playing grand ball.
Chuck Gandill, last year with Washington, and Traa Speaker, formerly of the Red Sox, have strengthened Cleveland and put the team on the map.
Chicago, May 6.—The St. Paul American Association club is negotiating for Eddie Mulligan, the Chicago National's shortstop.
The dope has it that Freddie Welsh, lightweight champion of the world, is ready to quit the game. He says he will retire on July 1 and here's luck to him when he does.
President Gableman stated last night that he expected 250 fans to make the trip to Maysville next Wednesday.
The local management has lines out for another player, who is to report in ten days. He is said to carry a high class line of goods with him.
The Detroit American league park is receiving an addition that will practically double its capacity.
Demore, the new infielder hit .215 in the Colonial league last year. He will probably be sent to third base.
Manager Herzog has regained his batting eye. He batted out a home run Friday.
Calcher Schindl, signed by Charles Lora, a friend of Manager Spencer of the local team.
Lincoln, Neb., with .293 leads the Western league in hitting.
Little Rock leads the Southern Association in hitting having a team average of .381.
Cincinnati fight fans are already betting 5 to 4 that Charley White will get a decision over Milburn Sayle when they meet in Redland on Thursday May 25.

Mike O'Day Is Located

Frank (Mike) O'Day has been discovered. He is the lead off man for Terre Haute in the Central league, and is playing fine ball.

TIMES READERS GOT THE NEWS

The service given to readers of The Times through the leased wire Associated Press service was again strikingly manifested through the handling of the German reply to the note of the United States upon the submarine question. Times readers were enabled to have the entire note before them in the eleven o'clock edition, while in the later editions of the paper appeared comment of papers and the manner in which the note was received by official Washington. The first intimation that the reply was on its way came to the Associated Press New York office late Thursday afternoon and newspapers were advised throughout the land to be on the alert. Then it appeared that the note might begin to come over the wires about one o'clock, as it was planned to start it from Berlin by wireless at midnight. The Times, thereupon, made arrangements by which its leased wire circuit was kept open during the night so that the full text of the note would be available for an early morning extra in case the text of the communication justified. Our operator was on duty and men were subject to call, but through delays in transmission the note did not begin to come over the wires until after six o'clock Friday morning. It came in sections and the last part of the note did not arrive until after ten o'clock, just in time to get it all in the eleven o'clock edition.

It is interesting to know also that the president and other Washington officials were receiving their news also through the Press Association, the official text not having arrived. The cost of transmitting this long note was enormous, but in accordance with its policy of giving the people the news the Associated Press did not stop to count the cost. Nor did the papers it served stop at that item either. As for The Times, the extra expense was no small item, it being necessary to pay for a night wire and for extra work about the office.

MAY REQUIRE TIME

The German note, like the one sent recently by President Wilson, was forceful and earnest in language and tone. There can be no misunderstanding of the German position. She proposes to modify her methods of submarine warfare temporarily at least, but it is evident that, if driven to extremity, she does not propose to continue along the new lines indefinitely, but will revert to the old method of striking at everything that comes within the radius of her submarines, regardless of nationality.

The full extent of the concessions made by the German government will doubtless not be fully apparent until time has given opportunity to show what the submarines are doing under the new rule laid down. If there is regard for rights of neutrals, as indicated in the note, the matter may be regarded as closed and the crisis passed. If, on the other hand, warfare is continued along the old lines, a break in diplomatic relations is inevitable with the strong probability of war following in a short time.

PEERLESS MAN FOR PRESIDENT

Do you know a Portsmouth man is running for president? Of course, you don't, but you are surprised to learn there is, and more than that, amazed to learn what manner of man he is, and that as a candidate he is no small shakes, we can say he is doubly considerable. His name is Henry G. Ross, a village blacksmith of Lexington, Nebraska, by occupation. No narrow vision of partisanship contracts his vision, but he is broadly and exuberantly patriotic. It is not strange, there, that in the Nebraska primaries, he was on both the Democratic and Republican tickets and he got 10,000 votes on each, or 20,000 combined.

It is almost unbelievable, that twenty thousand people would vote for Henry G. Ross to occupy the highest position in the country. He is to fame unknown and scarce has acquaintance outside his village, is ignorant of even the rudiments of education, how ignorant, may be seen from this exact copy of a letter he wrote in answer to some curious one, who asked him to tell who and what was Robert G. Ross, the double-jointed, duplex presidential candidate:

Lexington Neb April 1916 Wayne Neb. Mr. W. L. Gaston Dear Sir your card received and will say that I was borned in Repley Ohio. My parents moved from there when I was 2 years old to Cattletsburg, K Y was educated there and at Portsmouth Ohio, and raised as a Methodist of which my parents was when about 17 came to Nebraska Lexington Dawson Co about 31 years ago was on ranches and later a farmer for about 25 years different things a short time in the above mentioned was a Member of rangelical Church in early days and nowa member of Presbyterian here in Lexington Neb for about 9 years, have never taken a drink of liquor nor my Father eather since I was old-enough to know till he died you preachers ought to get Busy and give the Delegates to understand what your intention is if they nominated a man of Whiskey type or one going it too faced as some of them is very truly—Robert G. Ross Lexington Neb.

In the few lines of that letter are almost a hundred jumbled errors of punctuation, spelling, capitalization, grammar and rhetoric, and yet, twenty thousand Nebraskans did vote for its author for president. Neither party can place blame or ridicule upon the other, because he was on the ticket of each and his vote was about half and half from each. Some say this vote was but a joke. A sorry joke, indeed; and one in which not Robert G. Ross, but the primary and Nebraska become the victims.

JOHN'S TURN NEXT

ITS DAY IS DONE

It is a more or less grave pun, but it is no more Harper's Weekly, it is dead and gone. The famous periodical that in its earliest days was powerful in influence and among the first, as it was the best of the illustrated weeklies, a publication so prosperous that it played its full part in heaping up an immense fortune for its owners, has withered and faded away for lack of support. The thing seems almost incredible, yet as we gaze down the vista of the past, we understand why it may be. Way-back yonder, when we had no more than attained the accomplishment of reading glibly: "See the cat. What is the cat doing?" we can see ourselves, stretched full length on the floor, gazing at its wondrous pictures and laboriously spelling out the inscriptions under them and trying to make out what it all meant. Then later on—reading its somewhat ponderous literature and articles with more or less avidity, and then finally, discarding it altogether for the dailies and magazines of fiction. And we were but one of tens of thousands. The readers of today find pictures somewhat nauseating, they want only news and entertainment, to most the mere news, or the newspaper, is satisfying enough, other diversions occupying them. There is then no longer field, producing sufficient clientele for such a weekly as was Harper's. There are surviving two or three somewhat alike, but they are bolstering up their fortunes by running largely to fiction and schemes and premiums, world without number.

Senator James O'Gorman, of New York, announces his retirement to private life. In doing so he says he has been judge for eighteen years and senator for six, which is enough and time for him to devote himself to his personal affairs. All true enough, but still remarkable that the senator, who by the way, reflects honor upon himself and his state by faithful attention to his duties and sturdy and honest conduct, should realize he has enough; it is mighty seldom that way.

We nail our flag to the mast and insist the only way to regulate is to regulate—enforce the ordinance with fine that goes. Didn't everybody, with as much as half eye, patrolmen excepted, see that Chillicothe street was a loud this morning, like a burning tunnel, with the smoke that came from "cut-outs" working overtime.

There are five million people operating cars in this country and ninety-five millions humping and jumping to keep out of the way.

Things sound queer in the English language, sometimes. We read today an editorial headline as follows: "Ebenzer. Home In Court." It puzzled us so we stared at it for a full minute, thinking what it could mean. Then it occurred to us to read and see, and we learned that the Ebenezer Home, an orphanage asylum, had got into court, indirectly, by charges preferred against its superintendent.

Senator Pomerene is among the two or three probabilities mentioned for temporary chairman of the Democratic national convention. His selection—and it ought to be made—would mean two chairmans from Ohio, a thing without precedent, but then Ohio and her two able sons are well able to set such a precedent.

Washington's second thought seems to be that the latest German note hasn't as many explosives concealed in it as appeared at first sight.

It is a mean suggestion that the decision of a Chicago judge, giving the honors to Bacon is only another instance of Chicago being always for the pork.

Yes, we've been bragging some of what the United States can do, but it is somewhat cheerful that there does not seem immediate emergency that they shall consider how they will do it.

Three automobile mishaps in one day are a small foretoken of what is coming some other days.

Mary Jane Watches Billy Robin

Such a busy time as there was in the garden during those early spring days! The boy who lived in the house raked up the paths and carried out all the rubbish that had accumulated during the winter. Mary Jane straightened vines and sorted out seeds and helped her father on the days when he came home early to dig in the garden.

How Billy Robin did love those digging days! Father turned over great piles of moist, brown earth and, fortunately for Billy, Mary Jane could not work as fast as he could, so there was plenty of time for Billy to gobble up a worm or two before Mary Jane broke up the big lumps of earth and allowed the worms to hide.

"Look at him!" laughed Mary Jane, when Billy had been especially bold and greedy; "he took that worm from under my very nose—almost!" Father stopped his digging and looked at Billy. "Of course I can't be sure," he said, "but that looks to me like the same robin who lived in the apple tree last year. If it is, it's no wonder he's not afraid of you. He knows you're an old friend. Let's wait a minute and watch. He's eyeing that other worm over there. Let's see what he does with it."

So father stood still and leaned on his spade and Mary Jane leaned on her rake just the same way and they both watched Billy Robin.

He didn't seem to mind one bit; or perhaps he didn't notice the attention he was attracting—he was so busy worm-hunting!

He watched one big, wiggling angworm as it squirmed itself out of a clod of earth and then, just when it was free, he darted down and caught it in his bill.

"Now watch and see how he eats it!" whispered father.

But, dear me! Billy Robin didn't sit it all!

He flew away as fast as ever he could to the apple tree where Mrs. Robin was waiting for him.

Just when it was free, he darted down and caught it in his bill.

"he fed her just as though she was a baby robin! I didn't know robins fed each other, did you?"

"I've read that they did," answered father; "but this is the first time I ever really saw it. You see, Mary Jane, Billy knows that Mrs. Robin has worked hard making the soft inside of the nest—that's always her particular job—and he knows she hasn't time to be hunting food as he can. I'm glad to see that he is kind enough to remember that she gets it was free, he darted down and caught it in his bill."

"Indeed I am," said Mary Jane as she and her father picked up their tools and went to work again in the garden. "I always thought Billy Robin was a real gentleman, and now I know he is!"

NEW-YORK-DAY-BY-DAY

O-O-M-E-I-N-T-Y-R-E.

New York, May 6.—The very gentleman who discovered that he could make an automobile run on a secret preparation that costs one cent a gallon, has started a lot of trouble around New York. Several cuckoo have modestly announced that they have solved the gasoline problem and one ambitious inventor heralds that tiger marrow fat boiled down is much better than gasoline.

He doesn't explain where one may go to pluck a tiger off its nest and boil it down for the flivver pep. In the meantime the price of gasoline is trying to split honors with the price of radium. One reporter went out to interview a man who had a hidden formula that exalted gasoline and came back to his city editor with the report that he had seen better heads on tanks.

However, there are many chemists who are at work on the question of getting a substitute for gasoline. There are optimists who believe that eventually the problem will be solved, but in the meantime the soaring price of the gas is hurting the sale of the cheaper kind of automobiles. New York newspapers are devoting columns of space to the subject and the gasoline prices are mingling on the front page alongside of the carnage in Europe.

Saving tin-foil is the newest fad among society buds. The price of tin-foil is around 40 cents a pound, and one young lady secured a lot of publicity last summer by announcing she had sent three east side babies to the country for the summer on the proceeds of the sale she made of her tin foil collection.

Every box of cigarettes is closely watched when opened on the streets and in hotels by girls who are collecting the tin-foil. One young lady made a collection in the grill of the Hotel Majestic after the theatre the other night and secured three pounds and over many who smoked cigarettes took her address and promised to send her their tin foil for the next year.

Way over a new publication just out. It is called "Nibbles" what over that may mean. Possibly it is trying to make the subscriber nibble around and finally bite.

There is one idea in it, that is to say, the least original and that is that, any vaudeville performer who is a subscriber may review his or her act. The announcement reads: "Paid critic (1) will not review bills or acts; instead, we encourage artists who are subscribers to review their own acts, for who can know more about their own acts than they themselves?"

On another page a doctor advertises the names of the patients he has treated and the illness for which he administered. And he mentions some things that were no doubt told in confidence and are calculated to raise a lot of snobs.

Caruso refused several offers to do pictures and one was as high as \$40,000. Then along came some man who asked him as a matter of friendship to pose. He was asked to pose in Central Park, but at the last minute consented only to pose in private.

After he did it he found out he was just being stung by a wise producer, who through "friendship" got about a dozen others to pose and not one knew that the other was in the picture.

As a result the man has an all-star cast for practically nothing, and it is believed that he will make a big fortune out of the deal. It is indeed a low estimate that one is born every minute.

There are more automobiles in front of the movie actors' club than any other club in New York.

JORDAN BOY NOW SAYS THAT HE SHOT HIS MOTHER

OFFICIALS PUZZLED BY DEVELOPMENTS IN CASE; BABY BROTHER CAUSE OF CONFESSION

A sensational turn was given the mysterious murder case of Mrs. Pamela Jordan, aged 41, whose dead body was found in her home, Flat Woods, back of Lucasville, when Saturday at 10 o'clock George, the eight-year-old son, confessed that he had accidentally shot his mother with a shot gun, with which he had been playing. The confession was given to Judge Thomas C. Beatty, of probate court, Sheriff E. W. Smith and Dr. William Seitz.

Three-Year-Old Boy Cause of Confession

The confession was brought about in a very strange way. The officials had brought George and Fred, the little three-year-old baby, into the room and were preparing to ask them some questions when Fred, with the most innocent like look and with a pointing hand, said: "George, what did you kill my mamma for?" George hung his head and failed to answer. The officials were quick to follow the lead and asked Fred how George killed his mother and the little chap said: "George killed her with a gun."

Tells How He Fired Fatal Shot

George was then asked if the accusations made by his baby brother were true, and he admitted that they were after a few moments hesitation. George said that he was playing with the shot gun and did not know that it was loaded. He pulled the trigger back and the contents of the gun were discharged into his mother's head.

Prosecutor Holds To First Theory

The officials are now in doubt about the correct solution of the mystery. Prosecuting Attorney Joseph T. Mickelthwait was surprised Saturday when he learned that the little boy had confessed to the officials and made the following statement: "In my opinion from the father's conduct and the statements and from the nature of the wounds and from the examinations and reports of the physicians who examined the corpse, I would say that the wounds were such that would indicate that they were not the work of a child."

Father Has Been Charged With Murder

After the coroner's inquest, which was held Friday morning, at which George declared that his father had shot his mother following a quarrel, Roy Jordan was charged by Coroner J. W. Dullier with the shooting of his wife "with homicidal intent." Then Sheriff E. W. Smith filed an affidavit before Squire J. W. Byron charging Jordan with murder in the first degree and he was arraigned. The prisoner entered a plea of not guilty and George was called to testify. The boy re-

lated his story up to the point where the mother was shot then said that "he forgot."

He claimed that he had forgotten who went to the attic to get the gun, which before he confessed that his father had gotten it, but admitted that he placed the gun under the bed in the room adjoining the chamber of death. When asked where he got the gun, George again said: "I forgot."

Squire John W. Byron concluded the hearing by binding Roy Jordan, the father, over to the grand jury without bond.

Coroner Says Gun Shot Might Have Made Wounds

Coroner Dr. J. W. Dullier, when told of the latest development in the case, said that he all along had felt that there was a small possibility of the boy having shot his mother. He said that until the finding of the gun shot wounds in the brain tissues, he thought a hatchet or axe was the instrument of death, but that he then changed his mind. The large cut on the head, he said, might have been torn from the force of the gun's discharge.

The Phrase "More Man"

In his book, "The Pulse of the World: Fleet Street Memories," Malcolm Starks gives what he believes is the origin of the expression "more man." A Scottish doctor, he says, wrote as follows: "The earliest use of the phrase known to me is in the shorter catechism, where it is said, 'No more man since the fall is able in this life perfectly to keep the commandments.' The phrase caught on in Scotland and was probably brought to England shortly after the union. The only difficulty in the way of this theory is that it allows barely two centuries for the English mind to see the joke."

This last sentence is indeed carrying the war into the enemy's camp.

The Planet Mars

Earth's astronomers know nothing of Mars beyond the fact that if the planet is of a formation more recent than the formation of the terrestrial globe its evolution must have been more rapid, because it is so small. Mars is an older world than the earth—a world that represents the intermediate state between that of the earth and that of the moon. The phenomena on Mars now under the observation of earth's astronomers are the last manifestations of a dying life. Slowly, very slowly, time is doing its work. Mars is dying of cold, the anaesthetic that benumbs the worlds and steeps them in the sleep in which they die.—Exchange.

TO DELIVER TRIAL SERMON IN JACKSON

Rev. Maurice S. Cunningham, who has been seriously ill with rheumatism, has laid aside his crutches and expects to go to Jackson, O., Sunday, in answer to an invitation to preach in the First Baptist church there. The church is without a pastor and the sermons to be delivered by Rev. Cunningham will be trial sermons.

Rev. Cunningham will leave next week for Martinsville, Ind., where he will take treatment for rheumatism.

Plan To Celebrate "Geek Day" In Park

Preliminary steps were taken by the Geeks Friday night for a Geek day at Millbrook base ball park some time this summer, the proceeds to go to the indoor fair fund, which will have as its object the furnishing of shoes to the poor children of the city next winter.

The Portsmouth Amusement company has tendered the order a date and at the meeting Friday evening St. Straus, Charles Kieglar and Otto Lauffer were appointed a committee to make the necessary arrangements.

Dr. Jos. Gill, Adam Pfau and Louis Levi were appointed a committee to confer with the management of the steamer Homer Smith, relative to arranging for an excursion some time this month.

Louis C. Peel and Otto Lauffer were initiated as members of the order at the meeting, and the applications for membership of William N. Gableman, manager of the Play House, Charles Vaughn, of 702 Sixth street, and William S. Thomas, of 1838 Seventh street, were received. It was decided that the social session to follow the next regular meeting, Friday evening, May 19th, be complimentary to and for the pleasure of the wives and ladies of the members.

INTERESTING SERMONS AT ALL SAINTS

The rector, Rev. E. A. Powell, will preach on the subject of Christian Unity at the morning service at All Saints' church tomorrow, basing his remarks on the words, "And other sheep I have, which are not of this fold; them also I must bring, and they shall hear my voice; and there shall be one fold and one shepherd," taken from the Gospel for the day. The discussion of this subject promises to be most interesting, and a large attendance should be present, as it is very important that the church people should be rightly informed in this matter. At the evening service the rector will preach on Proverbs 8:20: "My son, forsake not the law of thy mother, and Miss Gertrude Schmidt, soprano soloist, will sing "My Mother's Prayer." All members and adherents of the parish are asked to honor "Mother" by being present at this service. All Saints' church is located at the corner of Fourth and Court streets. Leave street car at Fourth and Chillicothe and walk two squares west on Fourth to Court, or at Second and Court and walk two squares north to the church.

BROTHERHOOD TO STUDY HISTORY

At Sunday morning's session of the Brotherhood Class of All Saints' church, the rector will give the first of a series of instructions on the "History of the Christian Church."

Matters pertaining to the origin, growth and development and faith of the church will be discussed each Sunday until the completion of the course. It is confidently expected that great interests will be taken in this series of instructions and that the attendance of the membership will be large. Opportunity will be given for the full discussion of all matters arising out of the lessons, and members are urged to ask questions. The Brotherhood Class is open to all adult men who care to come. It meets at 9 a. m. every Sunday morning in the office of the rector of All Saints' church, at the corner of Fourth and Court streets.

Medical Cautions

"What should one do," asks the young doctor, "when a patient comes in and diagnoses his own case exactly?"

"In such a situation," explains the experienced physician, "you must use your best judgment of human nature. If the patient is one kind of man he will appreciate your agreeing with his diagnosis as showing that he knows as much as you do, or the other hand, he may go about and say that you don't know any more than he does."—Chicago News.

WILLIAMS GIVEN LIFE SENTENCE SAYS "BLACK TEXAS" KILLED GIBSON

Ashland, Ky., May 6.—James Williams, alias "Roadsport," entered a plea of guilty to a charge of murder in the first degree this morning and in less than half an hour heard his sentence, "life imprisonment in the Kentucky penitentiary."

His plea and sentence followed the submission to Judge Halbert a sworn statement in which he confessed that he was one of the four negroes who held up and robbed C. & O. Engineer Jos. O. Gibson and Fireman Clarence Griffith in a freight car in lower Ashland on the night of Sept. 9, 1915, following which Mr. Gibson was shot and instantly killed.

"Roadsport" claims that "Black Texas," who has already paid the penalty for his part in the crime with his life in the electric chair, fired the fatal shot.

Roadsport's Statement. "Roadsport's statement is as follows: 'I was in the crowd with 'Black Texas,' 'Blue Steel' and 'Stonewall' when Joe Gibson was killed Sept. 9, 1915, at Ashland, Ky. Bill Bailey and Alexander Calloway were there close by. I climbed up on one end of the car. I was the last one in. The boys said, 'Get them up,' meaning 'hands up.' I did not do any shooting. I heard some one say, 'We'd better kill this guy, too.' 'Black Texas' did the shooting. 'Blue Steel' and 'Stonewall' were going to Lexington to the Fair. None of us had any money when we did this job. I had started to Lexington to the Fair. 'Blue Steel' and 'Stonewall' got the money and put it in their pocket. 'Blue Steel' got a watch. 'Blue Steel' told me afterwards that he was in Portsmouth when the police caught 'Texas.' 'Texas' said on end of ties, 'I'm hungry and I am going to eat if I have to hold up some one.' I did not see white men when I got in the car. 'Stonewall' put his arms around one of them, and I helped go through the man that 'Stonewall' had hold of. 'Stonewall' got the man's watch whom he was going through. 'Blue Steel' told me about the arrest of 'Texas.' 'I have been only asked to tell the truth and the above is the truth.'

Sunday the quartet will sing three selections at the evening services at Trinity church. Jack Hood will sing in the place of Mr. Lyons, second tenor, who had to leave for his home in Cincinnati, Saturday.

Mr. McCurdy scored the hit of the evening by his readings, "My Operations," the story of a man and the numerous operations he underwent, written by Irvin S. Cobb, was a splendid number.

Mr. Lyons, second tenor, played several selections on the guitar, which were out of the ordinary. He rendered a medley of his own composition, in which he brought in the names of a large number of the popular songs of today.

Mr. Vance, first bass and violin soloist, proved himself a real artist. The quartet as a whole rendered five selections and wound up the evening's entertainment by singing a number of college songs.

The P. H. S. basketball team worked hard to get a larger crowd out and deserve much credit for bringing the quartet here.

Rock Salt and Gypsum

Beds of rock salt and gypsum occur in large areas in the United States. They are found in the salina rocks of New York and Pennsylvania and in other formations of about the same age laid down in Michigan and Ohio during periods of great aridity. In southeastern Michigan a bed of rock salt 900 feet thick is said to have been found by drill holes. Dense brines or salt deposits are found in carboniferous strata in West Virginia and other eastern states; the "red beds" of the southwest; and the Rocky mountains, in the cretaceous deposits or several of the western states and in the tertiary strata of the far southwest.—Argonaut.

House Peters in "The Hand of Peril" At Lyric Today

The combination of a brilliant author, noted picture star and master director, has seldom been used to greater advantage than in the World Film five reel feature, "The Hand of Peril," to be seen at the Lyric theatre on Saturday. The story is by Arthur Stringer whose tales of mystery and crime detection are known throughout the world; the star is House Peters, one of the most natural and appealing screen actors in the country and the picture was directed by that inimitable craftsman, Maurice Tourneur.

The story of "The Hand of Peril," is, as its title indicates, an absorbing narrative of sensational criminal exploits and the daring deeds of a government detective.

O. W. U. Quartet Delighted Local Audience Friday Night

Nearly 400 people occupied seats in the Portsmouth High school auditorium Friday evening when The Ohio Wesleyan University Quartet rendered an exceptionally fine program in the way of song, musical numbers and readings.

Russell McCurdy, Portsmouth High school graduate, who accompanied the quartet as reader, was greeted with rounds of applause as he stepped before the footlights. Every member of the quartet was forced to respond to encores after each number.

Sunday the quartet will sing three selections at the evening services at Trinity church. Jack Hood will sing in the place of Mr. Lyons, second tenor, who had to leave for his home in Cincinnati, Saturday.

Telegram Of Condolence Sent To Bereaved Family

One candidate was obligated and nine new applications for membership were received at the regular weekly meeting of Portsmouth Court, Tribe of Ben Hur, Friday night. The court sent a telegram of condolence to the family of Charles J. Miller, deputy supreme chief, formerly of this city, who died at Canton, O. Thomas McLaughlin, the court deputy, is at Crawfordville, Ind., attending a supreme meeting of the order.

Craig Family Leave Clifford, Now Located In N. Boston

James Craig and wife and son, who had been arrested with Craig, Landy, and the former's boon companion, Melvin Jenkins, returned from Clifford Friday, enroute to New Boston, where they expect to make their future home.

The family was banished from the city by Mayor H. H. Kaps a week ago, he suspending a workhouse sentence given Craig on condition that he leave the state. Jenkins, who had been arrested with Craig, Landy, and the former's boon companion, Melvin Jenkins, returned from Clifford Friday, enroute to New Boston, where they expect to make their future home.

The party did not linger in the city very long, for fear they would be picked up again. Craig was carrying his imbecile son in his arms.

O. W. U. QUARTET AT TRINITY

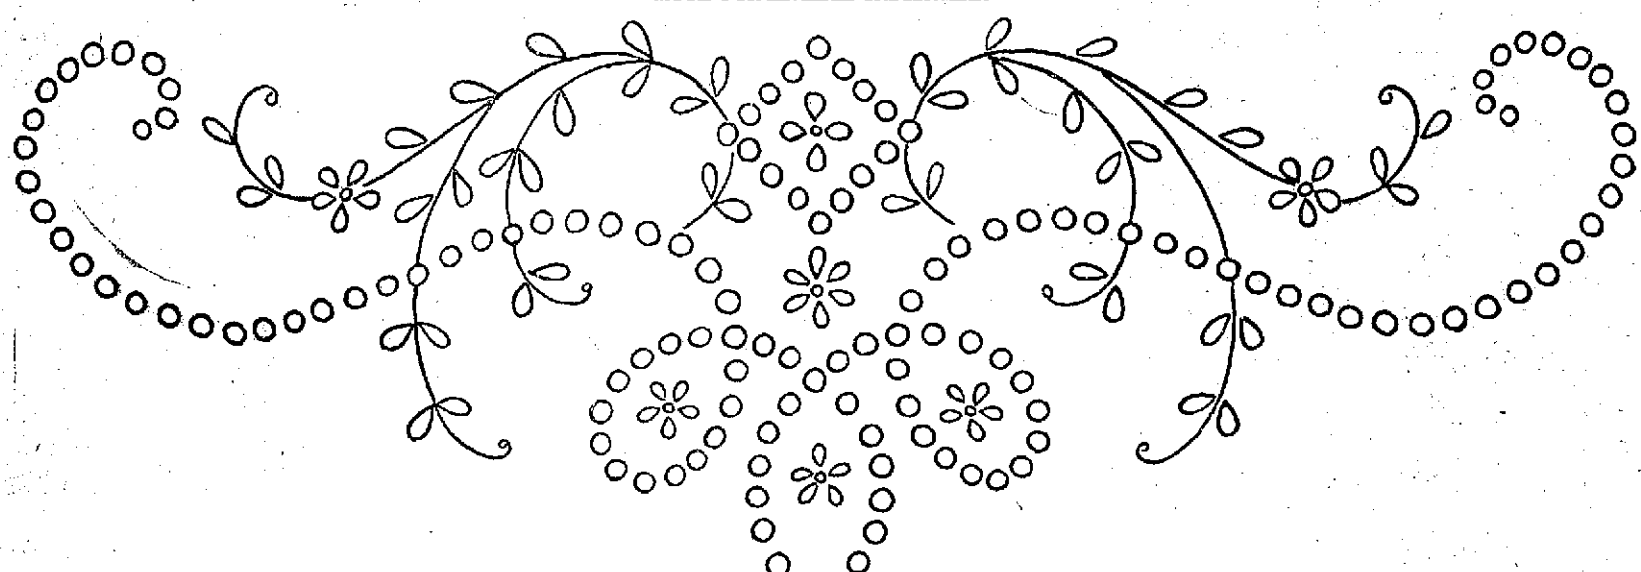

On next Sunday evening, at 7:30, the Ohio Wesleyan Male Quartet will sing at Trinity church. This is a most excellent group of singers from our far-famed Methodist University at Delaware. They rendered a delightful program on Friday evening at the High school and all who heard them at that time will be anxious to hear them again, and many others will be glad to avail themselves of the same opportunity. At this service the second sermon of the series on "Mountain Peaks of Character" will be delivered by the pastor. The subject will be "The Man Who Would Not Turn Back." You are most cordially invited to be present. You will find Trinity the Home-like Church. The music for Sunday evening will be as follows:

Prelude—March—Barnaby. Ohio Wesleyan Male Quartet. Anthem, Great and Marvelous—H. Farmer. Ohio Wesleyan Male Quartet. Offertory, The Dainty Shepherd—Beaumont. Ohio Wesleyan Male Quartet.

Street Fair Holds Over

The National Exposition Show, which have been exhibiting on the west end mill lot the past week under the auspices of the Local Association of Eagles, will remain here all next week.
